THE UNIVERSITY OF TEXAS SYSTEM
FY 1998 BUDGET
COMMENTS ON METHOD OF FINANCING

- Net **GENERAL REVENUE** increased \$61.6 Million as a result of funding gains made by higher education in the 75th Legislative Session. General Revenue declined as a percent of the Total Expenditure Budget from 26.1% in Fiscal Year 1997 to 25.8% in Fiscal Year 1998.

- The net increase of \$41.7 Million in **EDUCATIONAL AND GENERAL INCOME** is the result of increased tuition, overhead recovery, interest on time deposits and income from patients. The tuition increase is largely the result of a rate increase from \$32 to \$34 per semester credit hour for resident students, additional graduate tuition differential and non-resident tuition increases. Income from overhead recovery increased by 6.12% (\$7.1 Million) which corresponds to the increase in Sponsored Research. The increase of \$11.1 Million in time deposit interest is mostly at U. T. Medical Branch at Galveston (\$2.3 Million) and U. T. M.D. Anderson Cancer Center (\$7.9 Million). Patient Income decreased \$9.5 Million and \$1.2 Million at U. T. Medical Branch at Galveston and U. T. Health Science Center Houston respectively, and increased \$24.9 Million and 7.6 Million at U. T. M.D. Anderson Cancer Center and U. T. Health Center Tyler. Overall, there is a \$21.9 million increase in Patient Income.

- **OTHER SOURCES OF EDUCATIONAL AND GENERAL OPERATING FUNDS** increased by \$8.6 Million. The increase is largely due to an increase of \$2.0 Million in AUF funds at U. T. Austin, transfers of Designated Tuition (formerly General Use Fee) into the E&G operating Budget (\$2.8 Million), and Texas Southmost contract increase with U. T. Brownsville of \$1.1 million. It is also estimated that state grants and contracts for Advanced Research and Advanced Technology will increase by \$2.5 Million.

- Increase in **FUNDING FROM PRIOR YEAR BALANCES** is \$0.5 Million.

- **EDUCATIONAL AND GENERAL CAPITAL PROJECTS** increased \$4.5 Million.

THE UNIVERSITY OF TEXAS SYSTEM
FY 1998 BUDGET
COMMENTS ON METHOD OF FINANCING

- **SYSTEM OFFICES** - funding requirements show a decrease of \$0.2 Million, however, this is due to a change in funding source for UTIMCO LTF contract from AUF to Designated Funds. The overall increase in the U. T. System Budget is \$2.1 Million with the majority being UTIMCO Management fees (\$1.3 Million) and \$0.4 Million for across the board and merit salary increases.

- Increase of \$8.7 Million in **AUXILIARY ENTERPRISES** is due to increased fees and charges necessary to cover anticipated operating costs.

- **DESIGNATED FUNDS** increased 4.89%. Estimates of Practice Plan revenues increased by \$19.3 Million due to increases in number of patients and increases in rates. Other Designated Funds increased 6.26% or \$35.9 Million due to increases at the academic institutions. Designated Tuition (formerly General Use Fee) is up \$8.7 Million and an assortment of new and increased fees makes up the difference.

- **SPONSORED RESEARCH** is up 13.09% or \$81.0 Million. This increase is due to increased research activities and a result of reclassifying \$25.9 million of grants and contracts from Privately Sponsored Research to Sponsored Research and Services. **PRIVATELY SPONSORED RESEARCH** shows a decrease of \$3.0 Million as a result of this reclassification. Substantial increases were shown at U. T. Austin (\$34.2 Million), U. T. MB Galveston (\$15.1 Million), U. T. HSC Houston (\$12.6 Million), U. T. M.D. Anderson Cancer Center (\$10.2 Million).

- **GIFTS AND GRANTS** show a decrease of \$0.8 Million.

THE UNIVERSITY OF TEXAS SYSTEM
FY 1998 BUDGET
COMMENTS ON EXPENDITURES

- **Instruction** increased \$63.4 Million due to merit increases awarded to faculty, \$1,200 per year across the board salary increase for non-faculty, increases in Library and other program enhancements. Merit increases for faculty ranged from 2.5% to 5.0%. Non-faculty increases included the \$1,200 across the board increase, plus at some institutions, an additional merit pool ranging from 2.5% to 3.0% was awarded. Also, Benefit Replacement Pay authorized by the 74th Legislature was treated as a separate element of pay in the 1997 Budget. Salary rates for 1998 were increased to include Benefit Replacement Pay which increased each expenditure category with a corresponding decrease in staff benefits.
- **Research** increased \$7.2 Million due to increased research activity at U. T. M.D. Anderson Cancer Center and a projected first year increase of Advanced Research and Advanced Technology Appropriations that are awarded during the first year of the biennium.
- **Public Service** increased by \$0.5 Million.
- **Health Care** increased \$19.3 Million due primarily to a shift in expenditures categories from Institutional Support to Patient Care Activities at U. T. Medical Branch at Galveston.
- Increases in **Institutional & Ancillary Operations** of \$16.9 Million is due to increased cost in utilities and maintenance of the Physical Plant. Merit increases awarded to non-faculty of \$1,200 per year would make up a large portion of this increase as would new facilities that are coming on line.
- **Auxiliary Enterprises** increased by \$14.2 Million and corresponds to the increase in revenues to cover anticipated operating cost and debt service.
- **Designated Fund** increases of \$73.2 Million is due to Practice Plan expense increase of \$25.1 Million, cost related to the U. T. Medical Branch at Galveston contract with Texas Department of Corrections of \$20.0 Million, and increase expenses at U. T. Austin for various fee increases of \$22.6 Million.
- **Current Restricted Funds** expenditures track the increased revenue for these funds.

1/ The Original 1997 Method of Finance Budget has been restated to reflect a change in classifying transfers from The Texas Higher Education Coordinating Board. This change decreased the *General Revenue* shown in the Original 1997 Budget and increased *State Grants and Contracts*. Total Method of Finance Budget for FY 1997 remained the same. Salary rates for 1997 and 1998 have been increased to include Benefit Replacement Pay authorized by Senate Bill 102 passed by the 74th Legislature. Benefit Replacement Pay was authorized as a separate element of pay in the 1997 Budget.

2/ The 1998 Budget has been increased by \$12 million for estimated Advanced Research and Advanced Technology Appropriations not yet allocated to individual components.

1/ The Original 1997 Method of Finance Budget has been restated to reflect a change in classifying transfers from The Texas Higher Education Coordinating Board. This change decreased the *General Revenue* shown in the Original 1997 Budget and increased *State Grants and Contracts*. Total Method of Finance Budget for FY 1997 remained the same. Salary rates for 1997 and 1998 have been increased to include Benefit Replacement Pay authorized by Senate Bill 102 passed by the 74th Legislature. Benefit Replacement Pay was authorized as a separate element of pay in the 1997 Budget.

2/ The 1998 Budget has been increased by \$12 million for estimated Advanced Research and Advanced Technology Appropriations not yet allocated to individual components.

U. T. System Enrollment: Anglo, Hispanic and African-American

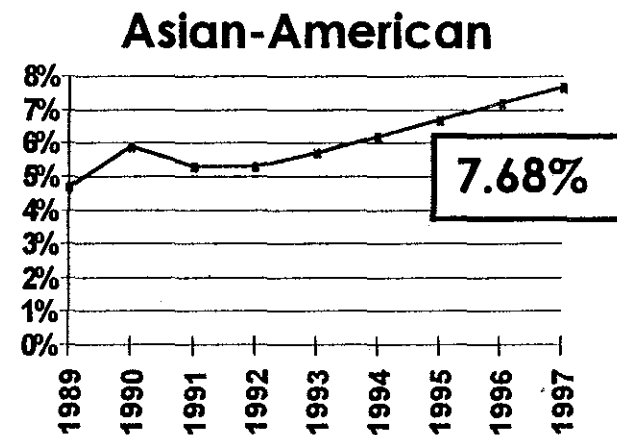

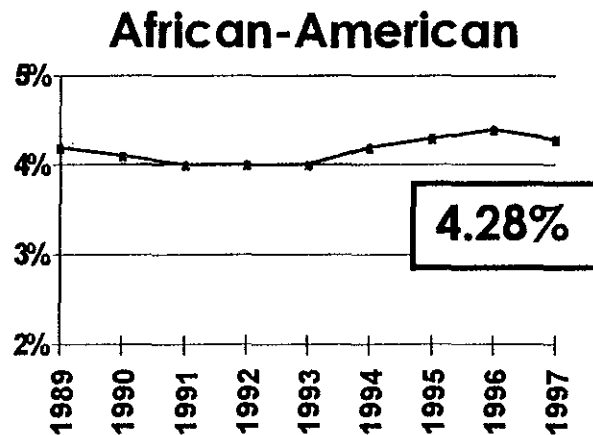

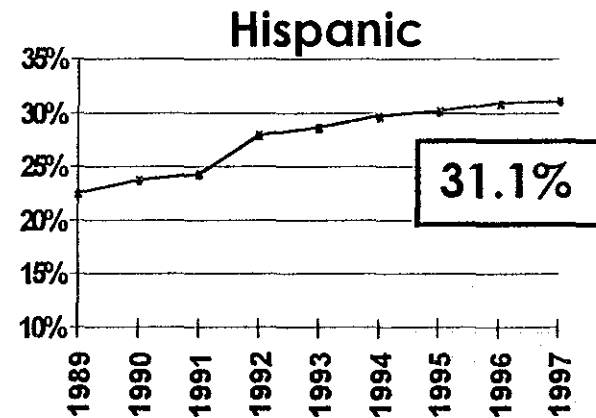

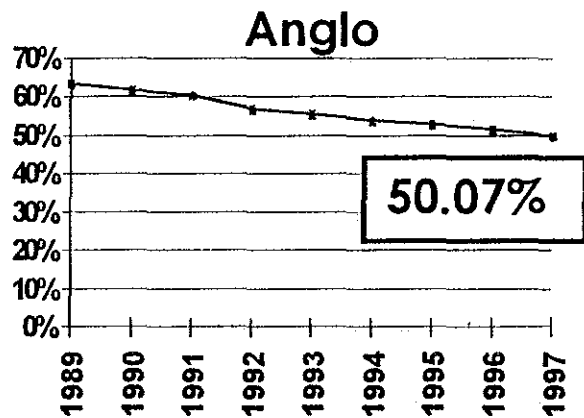

Source: U. T. System Office of Information Resources

U. T. Pan American and U. T. Brownsville joined the U. T. System in 1989. In order to reflect enrollment trends consistently since 1985, enrollments for those campuses are included for all years on this graph. However, none of the data includes enrollment at Texas Southmost College. Data for fall 1997 are preliminary.
