## Notes:

<sup>1</sup> Prior to 1999-2000 all investment income was distributed to the AUF. During 1999-2000 the PUF was changed to a total return fund with the passage of a constitutional amendment. In conjunction with this amendment the annual distribution to the AUF was established at 4.5% of the prior twelve quarters' net asset value of the PUF determined as of each February 28th for the following fiscal year. Prior to the constitutional amendment, PUF Investment expenses were paid from the PUF distributions to the AUF.

<sup>2</sup> Effective September 1, 1997 a statutory amendment changed the distribution of income from cash to an accrual basis of accounting. This change resulted in a one-time distribution adjustment to the AUF of \$47.3 million.
