

ASSIGNABLE EDUCATIONAL AND GENERAL SPACE

UT TYLER

Source of data: "Part E, Higher Education Facilities Inventory", September 16, 1993, Coordinating Board

Notes: Not included in "Educational & General" space are facilities that are part of auxiliary enterprises.

Since "Athletics/Physical Education" space is usually the largest sub-category of "Special Use" space, it is shown separately. Other types of space included in this category are armory; audio/visual, radio, TV service; demonstration facilities; animal quarters; and greenhouses.

"General Use" space examples are theaters, auditoriums, concert halls, arenas, museums, art galleries, and non-class (student government, community group) meeting rooms.

"Institutional Support" space includes data processing, printing, repair and maintenance shop, central warehouse, and vehicle storage facilities.

General use space includes the recently opened R. Don Cowan Fine and Performing Arts Center.
