

THE UNIVERSITY OF TEXAS SYSTEMWIDE COMPLIANCE OFFICE

## MEDICAL BILLING COMPLIANCE EDUCATION

PROVIDING COMPLIANCE LEADERSHIP AND GUIDANCE TO THE UNIVERSITY OF TEXAS SYSTEM

Through a series of clinical case studies, attendees will learn how to accurately capture injection and infusion (chemo and non-chemo) services in a hospital setting. Attendees will learn how to select the “initial” service according to CPT coding rules as well as learn which codes can be reported in combination with others within the infusions and injections range of CPT codes. Participants will also learn when it is appropriate to separately charge for evaluation and management services occurring on the same date of service as the infusion.

This session is sponsored by the UT System Medical Billing Compliance Advisory Committee.

*\*This program has the prior approval of the American Academy of Professional Coders (AAPC) for 1.5 continuing education hours. Granting of prior approval in no way constitutes endorsement by the AAPC of the program content or the program sponsor.*

### Infusions and Injections Coding

Wed., May 19, 2010

10:00 am—11:30 am CST

#### Who Should Attend:

- Coders
- Compliance Personnel
- Auditors
- Physicians, Nurses and other clinicians involved in infusion and injection procedures

#### About the Presenter:

**Angela Simmons, CPA**

Director of Clinical Revenue and Reimbursement

The University of Texas M. D. Anderson Cancer Center in Houston, TX

Simmons has 24 years experience in hospital operations, finance, public accounting for healthcare entities, as well as financial analysis and cost accounting. Much of her focus has included identifying revenue opportunities, improving hospital operations and filing Medicare appeals. She has been at UT MD Anderson for 13 years and in 2005 she and her team developed a methodology and tool for accurately capturing infusion and injections codes. This project gained her national recognition as an expert in infusion and injections coding. In 2009 she has had the opportunity to gain a new perspective about all revenue reporting as her son is now a pediatric cancer patient at UT MD Anderson Cancer Center.

**The UT Medical Billing Compliance Education series is a service for UT personnel only.**
