

You are invited to join Auburn Daily as she discusses “Recent Changes to Graduate Medical Education Payments: Compliance Issues to Watch in 2011”.

This presentation will provide an overview of four recent and significant changes to graduate medical education payments: (1) the modified definition of “resident”; (2) the new approach to counting resident time in non-provider setting; (3) the treatment of resident time spent on research and didactic activities; and (4) the redistribution of unfilled residency slots.

Expected outcomes are:

- To gain an understanding of these key programmatic changes, and
- To understand the particular compliance challenges that such changes pose for academic medical centers

We hope you are able to join us for this event.
