Meeting Description:

Notwithstanding increasing budget constraints, federal and state public health authorities continue to focus attention on laws and regulations intended to promote patient and subject safety. Other government agencies have initiated numerous and sometimes overlapping efforts intended to prevent, identify, and punish fraud, waste, and abuse in the health care and life sciences industries. This presentation will survey recent developments in different areas of current regulatory and enforcement focus, including: FDA regulation of clinical trials, Clinical Laboratory Improvements Act, conflict of interest, False Claims Act and other fraud and abuse enforcement, insider trading investigations, and more.

Date & Time

Date: Wed, Jul 13, 2011

Time: 10:00 AM PDT

Duration: 1 hour 30 minutes

Host(s): Tim Mulshine

Presenter Information

Rachel Nosowsky

Rachel Nosowsky joined the Office of the General Counsel in 2010. She specializes in the area of research and clinical trials, with a focus on human research protections, FDA regulation, industry-academic relations and related fraud & abuse and conflict of interest matters, reimbursement, health privacy, biobanking, data repositories, compliance, and misconduct. She provides UC medical centers and central campus units with regulatory analysis and advice, supports UC's response to government inspections and oversight initiatives, and reviews and assists in the negotiation of contracts and other legal documents. She currently serves as Vice Chair of the American Health Lawyers Association's Teaching Hospitals and Academic Medical Centers Practice Group, and publishes and speaks nationally in the areas of human research and health privacy. She has a B.A. cum laude from Carleton College and a J.D. from UCB.
