

Attached please find HESTEC information you requested.

Below is a brief description. You may also log on to [www.hestec.org](http://www.hestec.org).

### **PURPOSE**

The primary purpose of HESTEC Week is to serve as a catalytic agent to increase the number of Hispanics in Engineering, Science, and Mathematics disciplines at the undergraduate and graduate level.

### **ACTIVITIES**

HESTEC week will be instrumental in providing seminars, workshops, and networking interactions with business, industry, graduate and undergraduate institutions. HESTEC will help students find scholarships, secured internships, job placements and acceptance in graduate institutions.

In addition, HESTEC will:

- Emphasize the importance of math and science education to the general public;
- Excite and educate students and parents about math and science by highlight the many ways in which science and technology touch our daily lives; and,
- Provide enrichment activities for teachers and students by providing exhibits and displays that showcase new instructional materials and pedagogical techniques that incorporate the latest advances in teaching, learning, and educational technologies.
