

**Item 13.**

**Indemnification Checklist**

## Indemnification Checklist

You may use our Indemnification Checklist Interactive Form to analyze a Sponsor-offered indemnification clause, determine whether the scope of the indemnification is appropriate under the circumstances, what problems, if any, the clause contains and what editorial changes may be necessary to conform the clause to the requirements of the Regents' Rules related to Intellectual Property.

When you reach a screen indicating that you are through with indemnification clause analysis, there will be links to other interactive forms to help you with other clauses.

If you follow a link that takes you to the contract clauses themselves, use your "go back" function to return to the Checklist.

For **very detailed information** about indemnification and additional **fine points** and **extra clauses** not referenced here because they are **not often needed**, remember you may refer to the Indemnification Section of your Contract Materials.

Begin the Indemnification Checklist analysis.
