MINIMUM AGREED-UPON PROCEDURES PROGRAM FOR EXPENSES

- 21. We obtained the *Statement of Revenues and Expenses for Intercollegiate Athletics* for the year ended August 31, 2023, as prepared by the Office of Financial Reporting, and performed the following procedures:
 - a. We compared and agreed each expense category reported in the statement during the reporting period to supporting schedules provided by the institution. If a specific reporting category was less than 4.0% of the total expenses, no procedures were required for that specific category.
 - b. We compared and agreed a sample of expenses obtained from the above operating expense supporting schedules to adequate supporting documentation.
 - c. We compared each major expense account over 10% of the total expenses to prior period amounts and budget estimates. We obtained and documented an explanation for all variations greater than 10%.

No material exceptions were noted in performing these procedures. Refer to the notes to the Statements of Revenues and Expenditures for major expense accounts that exceeded 10% of the total expenses and had a change greater than 10% when compared to prior period amounts and/or budget estimates for the 2023 reporting year.

- 22. **Athletic Student Aid**. We selected a sample of 10% of the total student-athletes for institutions who have used NCAA's Compliance Assistant (CA) software to prepare athletic aid detail, with a maximum sample size of 40, from the listing of institutional student aid recipients during the reporting period and performed the following procedures:
 - a. We obtained individual student account detail for each selection and compared total aid in the institution's student system to the student's detail in the Compliance Assistant (CA) or the institution report that ties directly to the NCAA Membership Financial Reporting System.

- b. We performed a check of each student selected to ensure their information was reported accurately in the NCAA's CA software using the following criteria:
 - i. The equivalency value for each student-athlete in all sports, including head-count sports, needs to be converted to a full-time equivalency value.
 - ii. Grants-in-aid is calculated by using the revenue distribution equivalencies by sport and in aggregate. (Athletic grant amount divided by the full grant amount).
 - iii. Other expenses related to attendance (also known as cost of attendance) should not be included in grants-in-aid revenue distribution equivalencies. Only tuition, fees, room, board and course-related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.10.
 - iv. Full grant amount should be entered as a full year of tuition, not a semester or quarter.
 - v. Student-athletes are to be counted once, regardless of multiple sport participation, and should not receive a revenue distribution equivalency greater than 1.00.
 - vi. Athletics grants are valid for revenue distribution purposes only in sports in which the NCAA conducts championships competition, emerging sports for women and bowl subdivision football.
 - vii. Grants-in-aid are valid for revenue distribution purposes in NCAA sports that do not meet the minimum contests and participants' requirements of Bylaw 20.10.6.3.
 - viii. Institutions providing grants to student-athletes listed on the Calculation of Revenue Distribution Equivalencies Report (CRDE) as "Exhausted Eligibility (fifth-year)" or "Medical" receive credit in the grants-in-aid component.
 - ix. The athletics aid equivalency cannot exceed maximum equivalency limits. However, the total revenue distribution equivalency can exceed maximum equivalency limits due to exhausted eligibility and medical equivalencies (reference Bylaw 15.5.3.1).
 - x. If a sport is discontinued and the athletic grants are still being honored by the institution, the grants are included in student-athlete aid for revenue distribution purposes.
 - xi. All equivalency calculations should be rounded to two decimal places.
 - xii. If a selected student received a Pell Grant, ensure the value of the grant is not included in the calculation of equivalencies or the total dollar amount of student athletic aid expense for the institution.
 - xiii. If a selected student received a Pell Grant, ensure the student's grant was included in the total number and total dollar value of Pell Grants reported for Revenue Distribution purposes in the NCAA Membership Financial Reporting System.

Basis of Presentation

Stephen F. Austin State University (University) is an agency of the State of Texas and its financial records comply with state statutes and regulations. Financial reports are prepared in conformity with the General Provisions of the Appropriations Act, Article IX, in accordance with the requirements established by the Comptroller of Public Accounts. The University prepares an annual financial report that is incorporated into the State of Texas' financial statements. The basis of accounting determines when revenues and expenses are recognized, which is primarily the accrual basis. The accompanying statement is prepared on this basis. The purpose of the statement is to present a summary of financial activity of the Intercollegiate Athletics Program of Stephen F. Austin State University for the year ended August 31, 2023. Because the schedules present only a selected portion of the activity of the University, they are not intended to and do not present either the financial position or changes in financial position for the University in total.

The University provides administrative and operational support to the intercollegiate athletics program that is shown on the statement of revenues and expenses as indirect facilities and administrative support operating revenues and indirect facilities and administrative support operating expenditures. Contributions

During the year ended August 31, 2023, the University received contributions from the Loddie Naymola Charitable Foundation and the NCAA Student-Athlete Opportunity Fund in the amounts of \$761,119 and \$271,000, respectively, which exceeded ten percent of all contributions received.

Intercollegiate Athletics-Related Assets

Buildings, infrastructure, facilities, and other assets are capitalized when they meet thresholds set by the State. These assets are capitalized at cost or, if not purchased, at appraised fair value on the date of acquisition. Depreciation is reported on all exhaustible assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method of depreciation.

At August 31, 2023, the University had \$53,513,604, less accumulated depreciation of \$23,239,132, of athletically related property, plant, and equipment. During the year ended August 31, 2023, the University had total athletically related capital additions of \$108,161.
