INTERAGENCY MAIL

Dear Mr. Albright and Ms. Parks:

Within the General Appropriation Act, Article IX, Section 6.10 (a) and (e), - Limitations on State Employment Levels require state agencies and institutions of higher education to report when the number of full time equivalent (FTE) employees paid from appropriated funds exceed the limit established by the Act.

For The University of Texas System, the table below presents the institutions meeting the conditions requiring this reporting. Summarized below is the original request to exceed the FTE limit submitted at the beginning of the fiscal year as well as the actual four quarter average of FTEs paid from appropriated funds in excess of the adjusted limit for FY 2016 (110% or plus 50, whichever is less) as allowed by Article IX, Section 6.10 (a) (2):

The original request to exceed the FTE cap submitted on August 26 2015, sets forth for each institution the justification for the increased number of FTEs and the source of funds for their compensation for all institutions. The additional FTEs beyond the original request to exceed the FTE cap for U. T. Dallas reflects the planned spending of Fund 770 reserves during FY 2016. It is important to note, per the General Appropriations Act, beginning in FY 2016 employees paid with Patient Income were not counted for purposes of calculating the limitations within Article IX, Section 6.10.
