5. You have the right to select your HMO primary care physician (PCP) as your treating doctor if your HMO PCP was selected prior to your injury at work. The network prefers that you make this decision as soon as possible. Your HMO PCP must agree to abide by the workers' compensation health care network's contract and rules.

6. Except for emergencies, if you are hurt at work and live in the network service area, you must choose a treating doctor from the list of network doctors. All services and referrals are to be received from your treating doctor.
7. Except for emergencies, the network must arrange for services, including referrals to specialists, to be accessible to you on a timely basis and within the time appropriate to the circumstances and your condition, but no later than 21 days after the date of the request.
8. If you need emergency care, you may go anywhere. If you become injured after business hours and it is not an emergency, go to the closest health care facility.
9. If you cannot contact your treating doctor after business hours, and you are in need of urgent care, go to the closest health care facility.
10. You may not live in the network service area. If so, you are not required to receive care from network providers.
11. If you are hurt at work and you do not believe that you live within the network service area, contact your claims adjuster. The Third Party Administrator for UT System must review the information within seven calendar days and notify you of their decision in writing.
12. UT System may agree that you do not live in the network service area. If you receive care from an out-of-network provider, you may have to pay the bill for health care services if it is later determined that you live in the network service area.
13. If you disagree with the decision in regards to the network service area, you may file a complaint with the Texas Department of Insurance. Complaint form information is addressed in #30 below.
14. Even if you believe you do not live in the network service area, you still may receive health care from network doctors and staff while your complaint is reviewed by the Texas Department of Insurance and the network.
15. UT System will pay for services provided by the network treating doctor and other network health care providers. Except for emergency care, you may have to pay the bill if you get care from someone other than a network doctor without approval.
16. All network doctors and other providers will only bill UT System for medical services as related to the compensable work injury. The employee should not be billed by the network provider.
17. Unless there is an emergency need, the network must approve any of the following health care services before they are provided to you:

18. Definition: “Adverse Determination” means a determination, made through utilization review or retrospective review, that the health care services furnished or proposed to be furnished to an employee are *not* medically necessary or appropriate.
19. If the proposed health care services are for concurrent hospitalization, the person performing utilization review must, within 24 hours of receipt of the request, transmit a determination indicating whether the proposed services are pre-authorized. For all other requests for preauthorization, the person performing utilization review must issue and transmit the determination no later than three business days after the date the request is received.
20. If the network issues an adverse determination of the request for health care services, you, a person acting on your behalf or your doctor may file a request for reconsideration by writing a letter or calling the network. Even though you can request a reconsideration of the denial yourself, the network encourages you to talk to your doctor about *filing* the reconsideration. He or she may have to send medical information to the network. This reconsideration must be submitted within 30 days of the date that your doctor receives the adverse determination in writing.
21. The network will respond to the reconsideration request within five business days of receipt demonstrating that the network has received the information. The network has up to 30 business days for the final determination. If it is a reconsideration request for concurrent review, the network will respond within three business days. The network will respond within one business day if it is a reconsideration request which involves a denial of proposed health care services involving post-stabilization treatment, life-threatening conditions or for continued length of stay in a facility.
22. Independent Review Organization (IRO) exemption: An employee with a life-threatening condition is entitled to an immediate review by an IRO and is *not* required to comply with the procedures for a reconsideration of an adverse determination.
23. If the network renders an adverse determination on a reconsideration of the following: i) a preauthorization review, ii) a concurrent review or iii) a retrospective review, the notification will include information on how to request an IRO. Requests for an IRO must be sent no later than 45 days from the date of the denial of the reconsideration.

24. If the situation is life threatening, you do not have to go through the network reconsideration process. You, the person acting in your behalf, or the requesting provider may request a review by an IRO. IRO requests shall be made to the Texas Department of Insurance on behalf of the patient by the Utilization Review Agent (URA).
25. An IRO review may be requested for several other reasons besides a life-threatening situation. The reasons may include: i) if the network denies the health care a second time by denying your reconsideration; ii) if the network denies the referral made by your treating doctor because it is not medically necessary; or iii) if the network denies your care because it is not within treatment guidelines.
26. After the review by the IRO, they will send a letter explaining their decisions. UT System will pay the IRO fees.
27. Your treating doctor may decide to leave the network. If so, and if it may harm you to immediately stop the doctor's care, UT System must pay your treating doctor for up to 90 days of continued care.
28. If you are dissatisfied with any part of the network, you can file a complaint. Any complaint must be filed within 90 days of the event that you are dissatisfied. When a complaint is received, you will be sent a notification letter within seven days, which will describe the complaint procedures. The network will review and resolve the complaint within 30 days of receipt. *You can contact the network by:*
