

Getting the Most from Your DPO Network

We'll do whatever it takes and then some.

With DPO there are no claim forms to submit.

No paperwork.
No hassle.

Save money with a Delta Dental DPO dentist

Although you can visit any dentist, you'll usually pay less when you visit a Delta Dental DPO dentist.

- DPO dentists agree to accept Delta Dental contracted fees as full payment.
- Your share of the bill will likely be lower than when you visit a non-Delta Dental dentist.

Find a Delta Dental DPO dentist

Delta Dental DPO, our Dental Provider Organization (DPO) plan, provides access to the largest network of its kind nationwide.

Your out-of-pocket costs are usually lowest when you visit a DPO dentist.

To find the most current listing of our network dental offices:

- Visit our website and click on "Find a Dentist" on our home page.
- Select "Delta Dental DPO" as your plan network.

Is your dentist a Delta Dental DPO dentist?

We recommend that you verify your current dentist's participation in the Delta Dental DPO network. Simply asking if a dentist "accepts Delta Dental" does not guarantee he or she is a DPO dentist.

- Ask specifically if he or she is a contracted Delta Dental DPO dentist.
- You should verify your dentist's participation before each dental appointment.

Maximum choice

The Delta Dental Premier® network — our larger network consisting of nearly 80 percent of dentists nationwide — provides cost-saving features and is the next best option if you can't find a DPO dentist.

You can find a Premier dentist using our online dentist directory.

- Premier dentists' contracted fees are usually somewhat higher than DPO dentists' contracted fees.
- Premier dentists will not bill you above their contracted fees, so you still receive cost protections not available with a non-Delta Dental dentist.*

* Please review your Evidence of Coverage, Summary Plan Description or Group Dental Service Contract for specific details about your plan's dentist network.

Transitioning from another plan?

Delta Dental covers treatment completed after your plan's effective date of coverage.

Orthodontic treatment in progress

Your Delta Dental plan includes orthodontic benefits, including orthodontic treatment started under another dental benefit plan. Treatment in progress is covered and Delta Dental begins paying during the first eligible month.

Easy to use

- No ID card is required to receive services; simply provide the dental office with your name, date of birth and Benefits ID number.
- No claim forms to file — Delta Dental dentists file claim forms for you and accept payment directly from Delta Dental.
- After a claim has been processed, you will receive a dental benefits statement from Delta Dental. This document lists the services provided, the costs of the dental treatment and the amount of any fees you owe your dentist.

Dual coverage/Coordination of benefits

If your spouse has coverage with another dental plan, you or your family members may be covered by both dental plans.*

- The two plans will likely coordinate benefits to potentially lower your out-of-pocket costs.
- Ask your dentist to submit the other plan's Explanation of Benefits with the Delta Dental claim form and we'll take it from there.

*Group-specific exceptions may apply. Please review your Evidence of Coverage, Summary Plan Description or Group Dental Service Contract for specific details about your plan's coordination of benefits, including rules for determining primary and secondary coverage.

Talk to your dentist about your health and treatment options

When you visit the dentist, be sure to share your dental and medical history and any prior complications. Dentists can identify signs of more serious health conditions and should be made aware of health information that may be critical to your dental care.

Questions about your plan?
