Galveston, Texas 77555-0150
Family Medicine Residency Program Grant
Audit Control Number: 2014-019

Background
The Texas Higher Education Coordinating Board (THECB) entered into an agreement with and provided funds to the University of Texas Medical Branch (UTMB Health) to educate and train residents in an accredited family practice residency program. The purpose of the funding is to encourage residents to locate their practices in medically underserved urban and rural areas, which may ultimately lead to improved medical care for citizens in these areas.

For fiscal year 2013, the THECB awarded the UTMB Health Family Medicine Residency Program (FMRP) one operational grant for $103,710.24 to support 28 family medicine residents.

Audit Objectives
The primary objective of this audit is to provide assurance regarding the reliability and integrity of financial information and compliance with agreement requirements and expenditure guidelines.

Scope of Work and Methodology
The scope of the audit included reviewing the financial activity reported by the FMRP for fiscal year 2013. The scope was limited to the FMRP funds awarded by the THECB and did not include tests of the revenues or expenditures related to the “all other funds” as reported on the annual financial report.

The audit included obtaining an understanding of the financial reporting processes and reviewing the documentation supporting the activity recorded in the financial system.

The audit was conducted in accordance with the International Standards for the Professional Practice of Internal Auditing as promulgated by the Institute of Internal Auditors.

Audit Results
Based on our review, the financial information reported in the accompanying University of Texas Medical Branch at Galveston Family Medicine Residency Program annual financial report is materially correct and fairly presents the revenues and expenditures of the funds received from the Texas Higher Education Coordinating Board for fiscal year 2012. The funds awarded by the Coordinating Board were accounted for in accordance with the Family Practice Residency Program Guidelines for Funding Operational and Support Programs and substantially complied with the Texas Uniform Grant Management Standards.

We greatly appreciate the assistance provided by Family Medicine Residency Program staff and hope that the information presented in our report is beneficial.

Kimberly K. Hagara, CPA, CIA, CISA, CRMA
