If there is an urgent medical need, a shorter time period may be appropriate.

22. What if I need a specialist that is not in the network?

If your treating doctor decides there is no provider or facility in the network that can provide the treatment you need for your compensable injury, he or she will contact the network for permission to send you to a provider outside of the network.

Your treating doctor is required to submit to the network a completed referral called a Request for Out-of-Network Specialist form # IMO MSN-4. The network will approve or deny the request within seven days of receiving this form from the treating doctor.
