The University of Texas MD Anderson Cancer Center Internal Audit department conducted an assessment titled, “Mobile Device Management”. The objective of the audit was to:

perform an assessment of mobile device management policies and procedures at the Institution and to evaluate the controls in place to limit mobile device usage to appropriate levels.

The report contains confidential information that relates to technology and is not subject to the disclosure requirements of the Texas Public Information Act, based on the exception found in Government Code §552.139. Specific results were made to the appropriate management members.
