The University of Texas MD Anderson Cancer Center Internal Audit department conducted an assessment of the rapid implementation of Virtual Care. The objective of the audit was to:

To assess the governance process and controls considerations for the rapid deployment of systems and processes in response to COVID-19.

The report contains confidential information that relates to information security and is not subject to the disclosure requirements of the Texas Public Information Act, based on the exception found in Government Code §552.139. Specific results were made to the appropriate management members.
