U.T. Arlington reported a year-to-date positive cash flow margin of \$98.6 million, a decrease of \$7.5 million (7%) from the prior year. The decrease was primarily attributable to an increase in salaries and wages and payroll related costs as a result of merit increases, as well as an increase in staff and faculty positions. The most current projection received from U.T. Arlington reflects a cash flow margin of \$127.4 million for the year.

U.T. Austin reported a year-to-date positive cash flow margin of \$502.9 million, an increase of \$137.7 million (38%) from the prior year. The increase was primarily due to the following: an increase in net investment income attributable to COVID-19 vaccine patent proceeds from the National Institute of Health; and an increase in gift contributions for operations as a result of a pledge received from Tench Coxe in support of cancer research and care, as well as large gifts received from the Michael and Susan Dell Foundation. The most current projection received from U.T. Austin reflects a cash flow margin of \$584.6 million for the year.

U.T. Dallas reported a year-to-date positive cash flow margin of \$202.6 million, an increase of \$44.2 million (28%) from the prior year. The increase was primarily attributable to an increase in nonexchange sponsored programs due to funding received from the Texas Research Incentive Program. The most current projection received from U.T. Dallas reflects a cash flow margin of \$221.0 million for the year.

U.T. El Paso reported a year-to-date positive cash flow margin of \$62.4 million, an increase of \$14.4 million (30%) from the prior year. The increase was primarily due to an increase in gift contributions for operations attributable to increased pledge commitments and gifts. The most current projection received from U.T. El Paso reflects a cash flow margin of \$67.8 million for the year.

U.T. Permian Basin reported a year-to-date positive cash flow margin of \$2.0 million, an increase of \$8.1 million (132%) from the prior year. The increase was primarily attributable to an increase in sponsored programs due to Texas B-On-Time funding received in the current fiscal year. The most current projection received from U.T. Permian Basin reflects a cash flow margin loss of \$8.1 million for the year attributable to a fiscal year-end pledged revenues adjustment.

U.T. Rio Grande Valley reported a year-to-date positive cash flow margin of \$24.0 million, a decrease of \$0.4 million (1%) from the prior year. The decrease was primarily due to the following: an increase in salaries and wages and payroll related costs attributable to an increase in staff and faculty positions; and an increase in operations, maintenance and travel as a result of an increase in materials and supplies attributable to EPIC software implementation costs, as well as an increase in professional fees and services due to an increase in transportation services. The most current projection received from U.T. Rio Grande Valley reflects a cash flow margin of \$16.9 million for the year.

U.T. San Antonio reported a year-to-date positive cash flow margin of \$80.3 million, an increase of \$1.2 million (2%) from the prior year. The increase was primarily attributable to the following: an increase in net investment income as a result of improved market conditions; and an increase in gift contributions for operations due to an increase in donations as compared to the prior year. The most current projection received from U.T. San Antonio reflects a cash flow margin of \$135.6 million for the year.

Stephen F. Austin State University reported a year-to-date positive cash flow margin of \$3.0 million, an increase of \$2.2 million (300%) from the prior year. The increase was primarily due to the following: an increase in net investment income as a result of an increase in the Long-Term Fund distribution; and an increase in net student tuition and fees attributable to an increase in semester credit hours. The most current projection received from Stephen F. Austin State University reflects a cash flow margin of \$1.1 million for the year.

*Other Operating Income includes 30% of UTHET's net adjusted income which was \$0.0 million through July. U.T. Tyler's year-end projection includes \$0.3 million of UTHET's net adjusted income for the year.

U.T. Tyler reported a year-to-date positive cash flow margin of \$19.5 million, an increase of \$2.7 million (16%) from the prior year. The increase was primarily attributable to the following: an increase in clinical revenues due to an increase in patient volumes, as well as continued growth of the practice plan; an increase in net student tuition and fees as a result of increased enrollment; and an increase in auxiliary enterprises revenues associated with enrollment growth. The most current projection received from U.T. Tyler reflects a cash flow margin of \$19.4 million for the year.

U.T. Health Science Center - Houston reported a year-to-date positive cash flow margin of \$171.6 million, an increase of \$35.9 million (26%) from the prior year. The increase was primarily due to the following: an increase in sponsored programs attributable to an increase in contractual revenues from Memorial Hermann Healthcare System and Harris Health System; an increase in net investment income as a result of past due royalty income collected after litigation; and an increase in clinical revenues due to increased contractual rates, combined with increased revenue generated by the physician practice plan. The most current projection received from U.T. Health Science Center – Houston reflects a cash flow margin of \$188.5 million for the year.
