Subject: Education Research Center

We have completed the Education Research Center (ERC) compliance certification as part of our FY26 Audit Plan. The objective of this engagement was to perform a compliance certification to determine whether the ERC at The University of Texas at Dallas (UT Dallas) is in compliance with the terms of the contract between the Texas Higher Education Coordinating Board (THECB) and UT Dallas for FY25. The contract requires this annual certification. The report is attached for your review.

Overall, the ERC complied with the terms of the contract between UT Dallas and the THECB. Please let me know if you have any questions or comments regarding this engagement.

Distribution List

Members and ex-officio members of the UT Dallas Institutional Audit Committee

Responsible Vice President

- Dr. Inga Musselman, Provost and VP for Academic Affairs

Key Stakeholders

- Dr. Jennifer Holmes, Dean of the School of Economic, Political & Policy Sciences

- Mr. Nate Howe, Chief Information Security Officer
- Ms. Heather Burge, Associate Provost for Administration
- Dr. Trey Miller, Researcher, Education Research Center

External Parties

- Texas Higher Education Coordinating Board
- The University of Texas System Audit Office
- Legislative Budget Board
- Governor's Office
- State Auditor's Office

Engagement Team

Project Leader: Luis Carrera, CPA, CIA, CISA, IT Audit Manager

Background

In 2006, the 79th Texas Legislature authorized the Commissioner of Education and the Texas Higher Education Coordinating Board (THECB) to establish statewide centers for education research. The Education Research Center (ERC) at UT Dallas, a sub-entity of the Texas Schools Project, is charged with facilitating education research that will benefit Texas students from pre-kindergarten to college and into the workforce by providing approved researchers access to individual-level administrative data that can be used to study the progress and performance of students, teachers, and schools.

As stated on their [website](#), the Education Research Center facilitates research to benefit education in Texas by providing researchers with access to individual administrative data through the State of Texas Education Research Center Program.

The original contract was signed on September 1, 2017, to continue the authorization of an ERC at UT Dallas through August 31, 2024; the contract was later extended through August 31, 2027. The contract states, “At a minimum, the Internal Auditor of UTD shall annually certify that the ERC is in full compliance with all terms of this contract and all applicable state and federal laws.” The contract also stipulates that the ERC will report compliance with Information Security policies to the Chief Information Security Officer and the Assistant Vice President of Research Compliance annually. The primary requirements of the contract include responsibility for the data and the security of confidential research data.

The Office of Audit and Advisory Services conducted the last annual audit of the ERC, Report No. R2509, dated October 29, 2024. The report concluded that the ERC complied with the terms of the contract between UT Dallas and the THECB.

Audit Objective

The objective of this engagement was to perform a compliance certification to determine whether the ERC at The University of Texas at Dallas (UT Dallas) is in compliance with the terms of the contract between the Texas Higher Education Coordinating Board (THECB) and UT Dallas.

Scope

The scope was fiscal year 2025 and relevant activities through the conclusion of the audit on November 14, 2025.

Methodology

We performed the following procedures to meet our objective:

- Interviewed responsible ERC and Information Security Office (ISO) management and staff to gain an understanding of processes and controls for overseeing the THECB contract and ensuring compliance with requirements.

- Reviewed the following areas:
 - Oversight and Compliance
 - Data Security, Transmission, and Storage
 - Access Control and Monitoring
 - Non-IT Requirements
- Procedures included testing a sample of projects to ensure (a) THECB and/or Advisory Board approval was obtained and (b) written agreements and signed statements were obtained for individuals with access to THECB data.

Results

We tested for compliance with the requirements of the THECB contract. We determined that ERC management provided appropriate oversight, worked in coordination with ISO to ensure technical controls were in place to protect THECB data, and ensured individuals with access to THECB data submitted required written agreements and signed statements. There was a minimal risk observation that was shared verbally with management during the audit related to password requirements.

Conclusion

Based on the audit work performed, the ERC complied with the terms of the contract between UT Dallas and the THECB in fiscal year 2025.

We appreciate the courtesy and cooperation received from the management and staff in both the ERC and ISO during this engagement.
