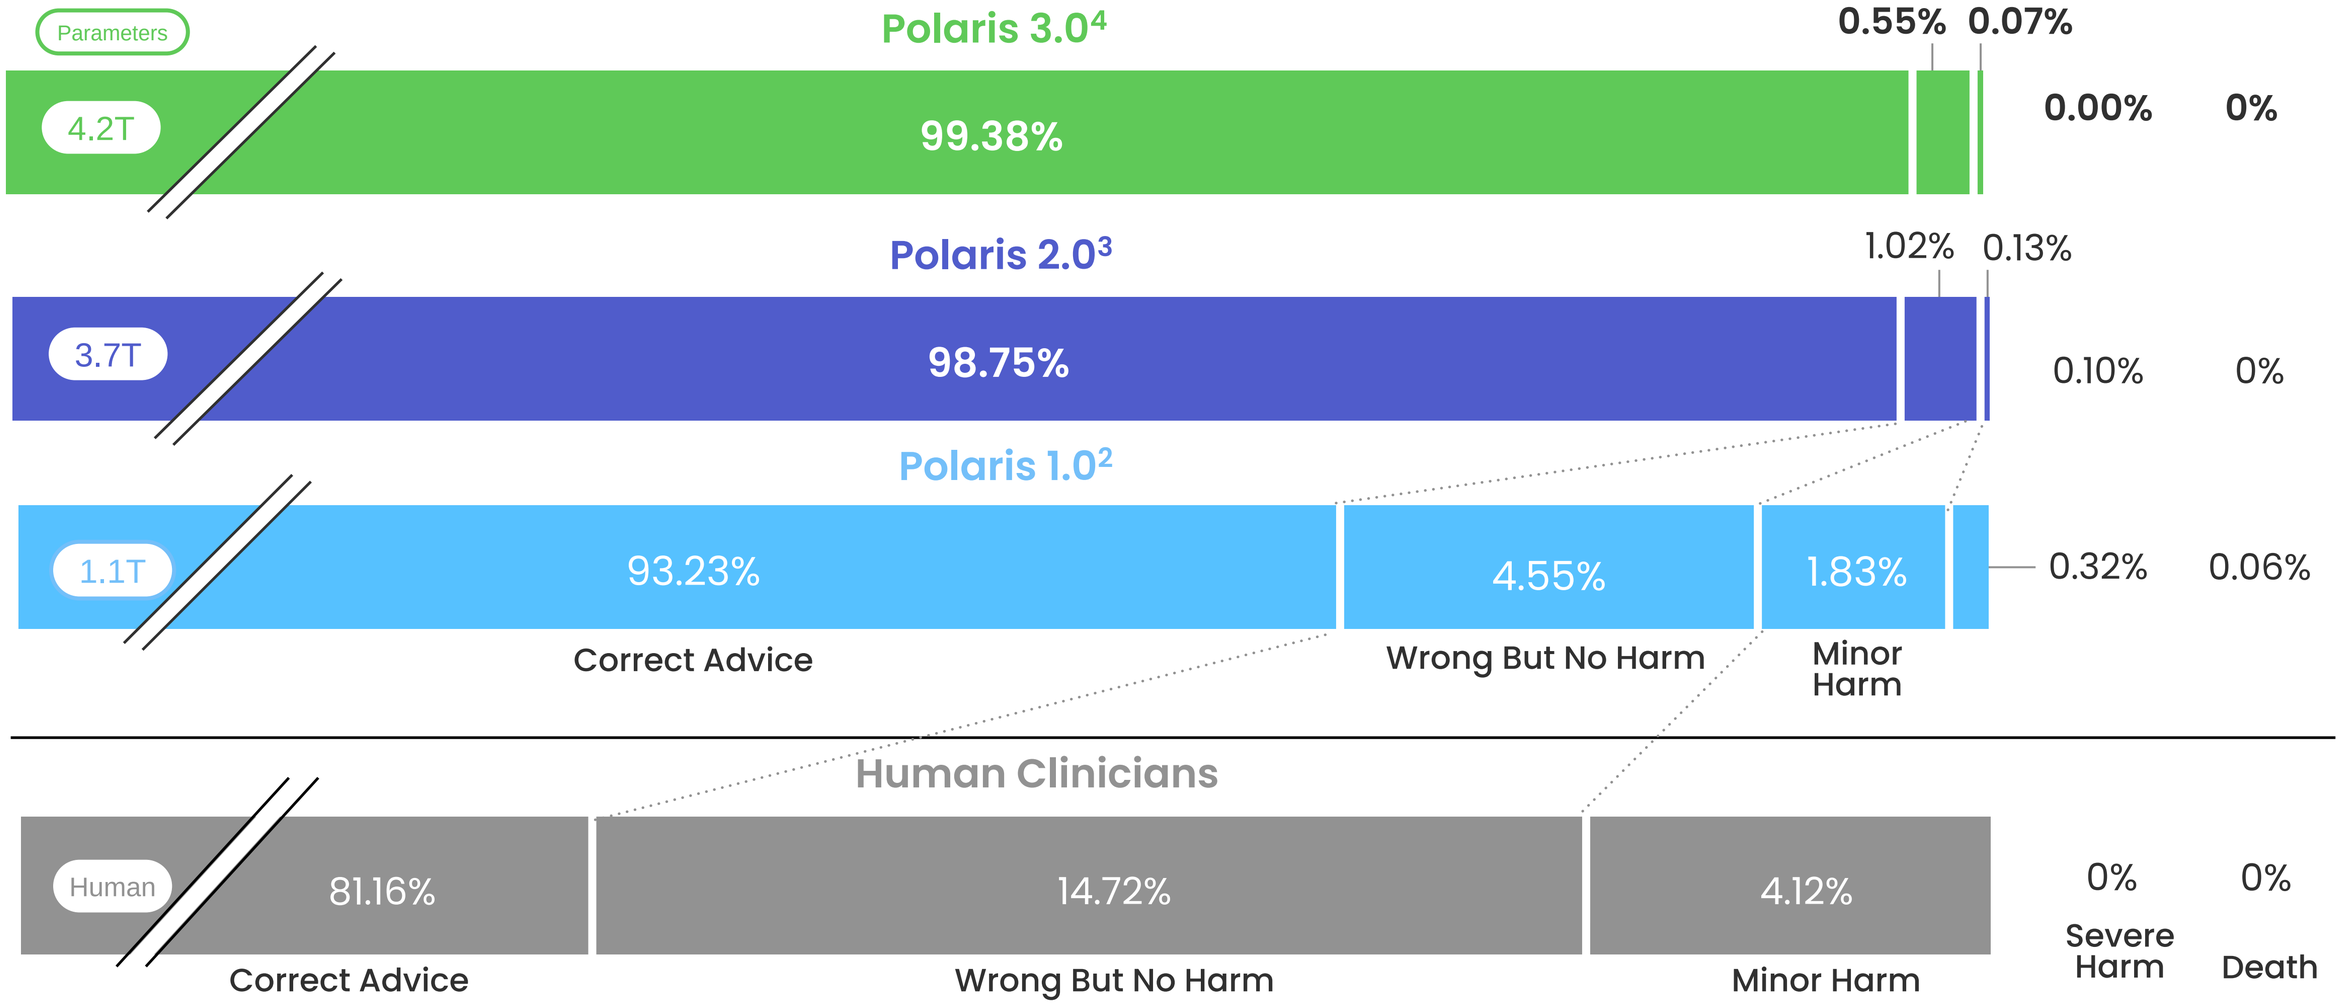
- 1.85M+ calls
- Average patient rating 8.95/10
- Create a new use case in mins - full version in days
- Speaks 14 languages
- Remembers every prior call
- Marketplace has 400+ clinician built use cases

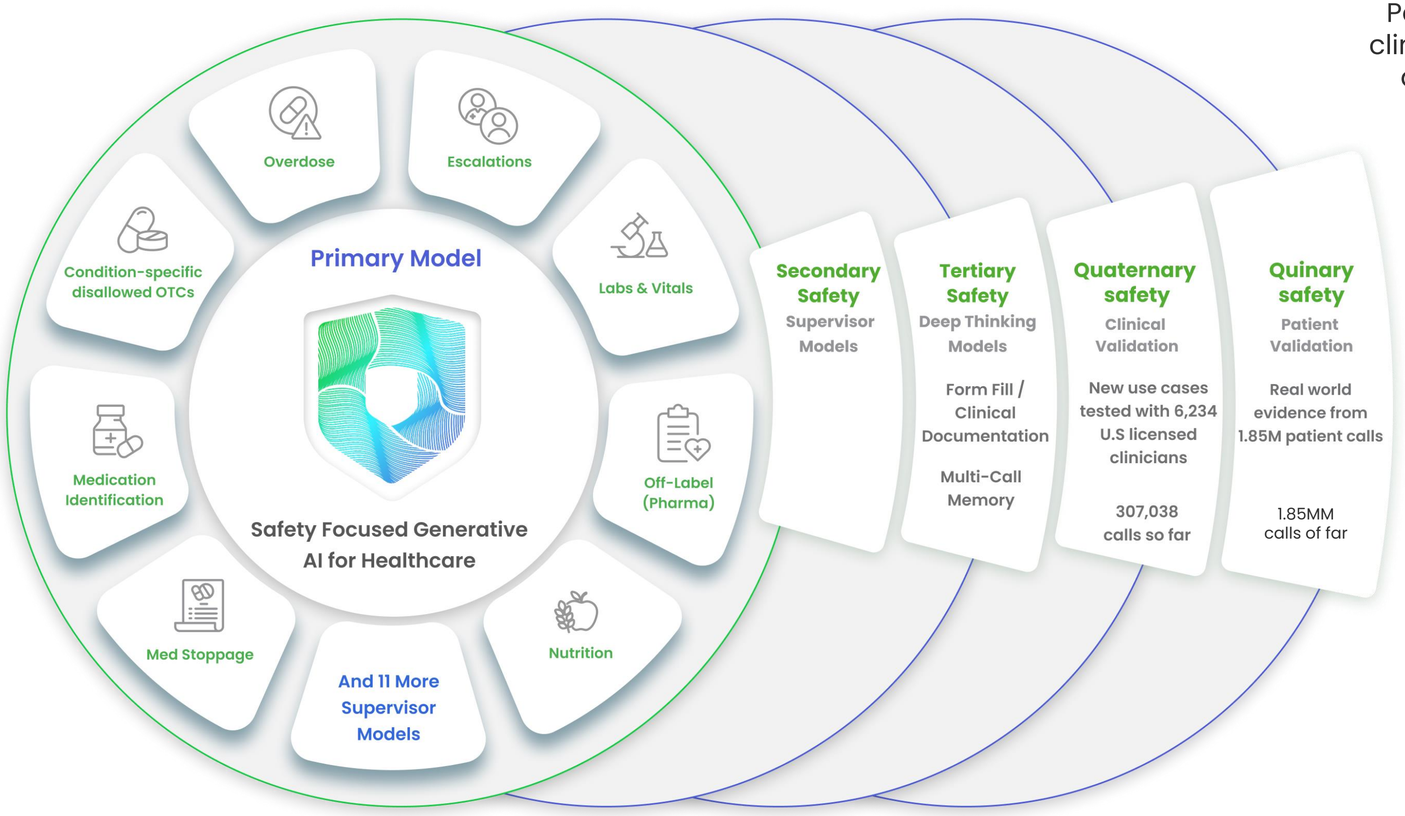
Only Hippocratic AI has been clinically validated on outputs

6K US licensed clinicians tested Polaris 307K times over the last 24 months



1 | Assessed by Human US Licensed Physicians and US Licensed Nurses
3 | Polaris 2.0: 9/24-3/25
4 | Polaris 1.5: 3/25-Present
2 | Polaris 1.0: 2/24-5/24

The safety comes from Polaris 3.0 being 22 models and 4.2T Params

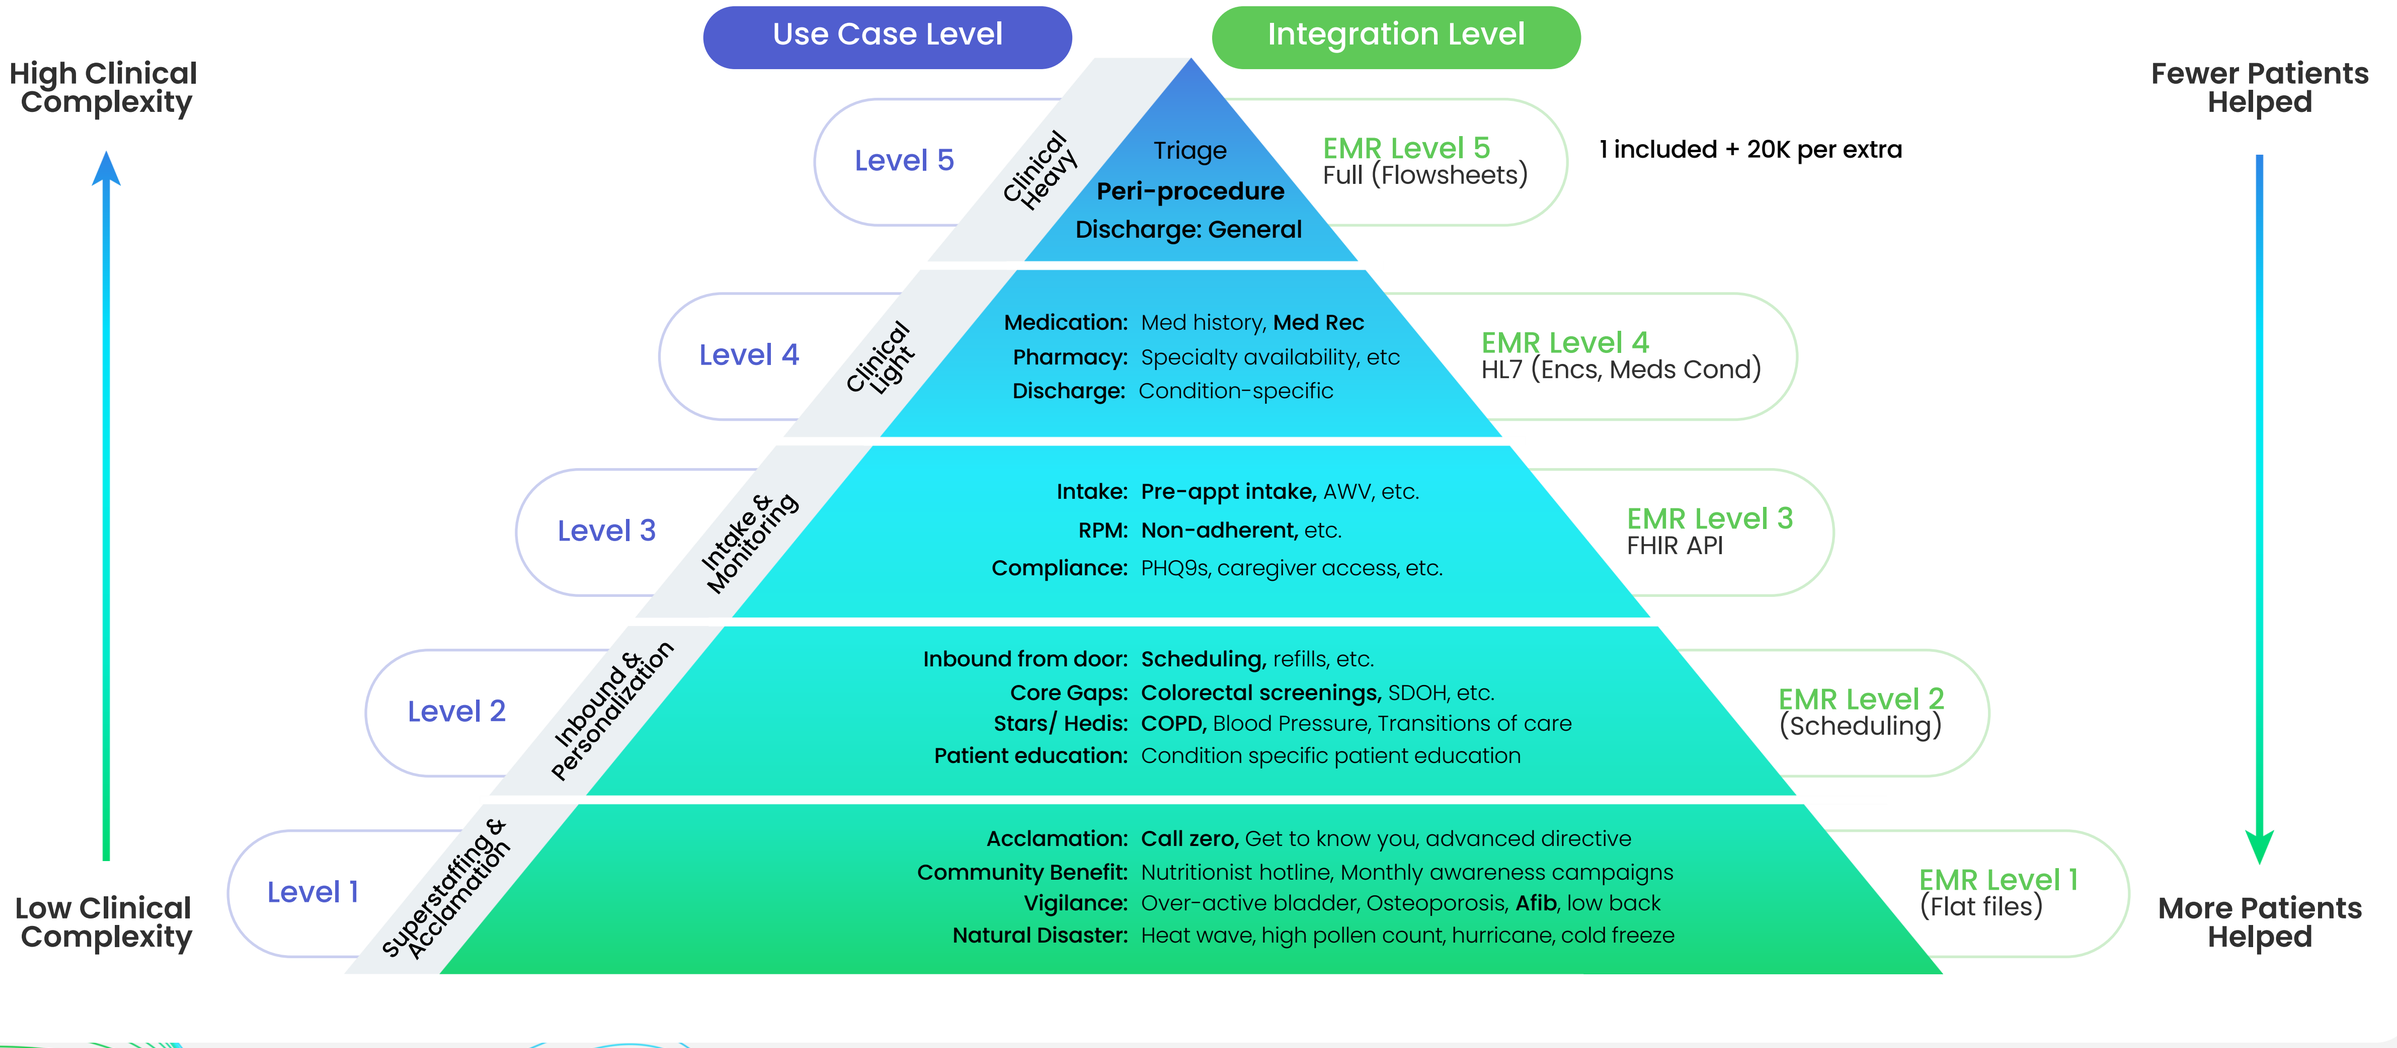


Polaris 3.0 provides more safety layers

Polaris 3.0 delivered the safest healthcare LLM for patient-facing clinical tasks, achieving a clinical accuracy rate of 99.38% and was developed based on real world learnings from Polaris 1.0 & 2.0.

- Primary Main Model
- 19 Supervisor Models
- 2 Deep Thinking Models
- Clinical Validation
- Patient Validation

26 commercial clients purchased, tested, and determined the product was safe enough to deploy since June'24

Together they have deployed 89+ use cases


Pyramid of Use Cases for Health Systems
