1. Title
Guidelines for the Santa Rita Award

2. Rule and Regulation

Sec. 1 Standards. A Systemwide award that may be made annually to an individual who has made valuable contributions over an extended period to The University of Texas System in its developmental efforts. An individual is defined as a person, as opposed to a corporation, charitable trust, foundation, and like entities. The recipient may be judged on the basis of a broad list of criteria, primary among which will be a demonstrated concern for the principles of higher education generally, as well as deep commitment to the furtherance of the purposes and objectives of The University of Texas System specifically.

1.1 Participation by the recipient in the affairs of the U. T. System shall be of such character and purpose to serve as a high example of selfless and public-spirited service. Of particular interest will be the effect that such individual activity may have engendered similar motivation from other public and private areas toward the U. T. System.

Sec. 2 General Conditions. The following general conditions apply to the award:

2.1 The award, to be known as the “Santa Rita Award,” will consist of a medallion to be presented no more frequently than annually.

2.2 The award shall be made on behalf of the Board of Regents of The University of Texas System.

2.3 An individual may receive the award only once.

2.4 Posthumous awards may be given.

2.5 No member of the Board of Regents shall be eligible to receive the Santa Rita Award until the termination of the member’s service.

Sec. 3 Nominations for Awards. Nominations for the award shall be forwarded to the Chairman of the Board of Regents or the
General Counsel to the Board (Office of the Board of Regents, The University of Texas System, 201 West Seventh Street, Suite 820, Austin, Texas  78701-2981). The nominator shall provide such supporting information and documentation as may be requested by the Chairman or the General Counsel to the Board.

Sec. 4 Selection of Awardees. Awards shall be made, upon recommendation of the Chairman of the Board following consultation with others including the Chancellor and other appropriate U. T. System officials, by a majority vote of members present at a Board of Regents' meeting at which a quorum is present.

System Administration

Budget Highlights

System Administration – Fiscal Year 2010

- 760.1 Full-time Equivalents (FTEs) in FY 2010 for System Administration.
- Of that total, 510.3 FTEs are in self-supporting departments that support themselves through revenue generated such as Office of Facilities Planning and Construction, Office of Employee Benefits, Workers’ Compensation Insurance or receive external grants like the Institute for Public School Initiatives.
- Overall FTEs in Self Supporting departments have decreased by 55.8 FTEs from 566.1 in FY 2009 to 510.3 in FY 2010 due to:
  - 13.0 positions eliminated in the Office of Facilities Planning and Construction and 1.0 in the related HUB area due to the slowdown of new construction as a result of the current economic conditions.
  - 36.5 positions eliminated in FY 2010 in Contracts and Grants primarily due to the phase out of the multiyear Texas Reading First Initiative grant.
  - 13.9 existing vacant positions eliminated throughout the organization as a result of the flexible hiring freeze.

- PUF Debt Service Coverage
- Unused Constitutional Limit

* Includes debt service on outstanding PUF debt and projected debt service on Additional PUF Debt Capacity and $50 million of annual LERR/STARs funding.

Mr. Charles Chaffin, Chief Audit Executive
August 2009
• Until 1989, the State Auditor’s Office (SAO) provided audit opinions on each of the U. T. System institution’s financial statements.

• After 1989, the SAO provided an audit opinion only on the State of Texas Combined Annual Financial Report.

• In July 2004, the U. T. System Board of Regents (Board) approved the first external audit of the U. T. Systemwide financial statements.

• In 2007, the Board elected to discontinue the external auditor engagement, but expressed confidence in the financial audit work performed by institutional and U. T. System Administration auditors.

• In 2008, the ACMR Committee members agreed that the question of hiring an independent financial auditor should be revisited by the Committee each August.
Overview

- Internal audit of the Fiscal Year 2009 financial statements will be coordinated by the U. T. System Audit Office.

- U. T. Permian Basin, U. T. San Antonio, U. T. Tyler, and U. T. Health Science Center – Houston will conduct procedures as part of the Southern Association of Colleges and Schools (SACS) accreditation reporting requirements.

- Financial statements of the UTIMCO funds and U. T. M. D. Anderson Cancer Center will still be performed by external auditors.

- Institutional internal audit reports will be due in January 2010.

- Report will be made to ACMR Committee in February 2010.
• The audit provides assurance to internal and external stakeholders that the financial information is fairly presented.

• Accuracy of the financial information is fundamental in determining how the institution is functioning.

• Financial information is used to determine debt capacity and overall financial strength of the institutions.

• The external audits of the UTIMCO funds and U. T. M. D. Anderson Cancer Center, the internal audits of key financial information at the other U. T. institutions, the SAO’s limited audit procedures at selected U. T. institutions, and follow-up on prior year findings provides limited assurance as to the reliability and integrity of U. T. System’s financial reporting.
Audit Objectives:

- Report individual audit results to institutional executive management and summarized findings to the ACMR Committee.
Audit Approach:

- Identify, test and report on key controls over the major financial line items, including tuition & fees, physician & hospital revenue, sponsored programs, and payroll & non-payroll expenses, etc.

- Test the higher-risk and larger dollar items, such as tuition and patient revenue and receivables, to identify and report any potential material misstatements.

- Perform analytical procedures at year-end to ensure reasonableness of financial statement line items.

- Review the consolidation of institutional financial information to ensure appropriate reporting to the State.

- Coordinate with other internal auditors to understand the impact of any potential adjustments to the U. T. System Consolidated Financial Statements.
• Approximately 20,000 hours or 16% of the U. T. Systemwide annual audit plan resources were spent on the Fiscal Year 2008 financial audit work.

Most recent quality assurance review was performed in April 2007

- Found to “generally conform” with the Institute of Internal Auditing Standards, Code of Ethics, and the Texas Internal Auditing Act

- Areas identified for further improvement (all have been addressed at this time):
  - Obtain staff with expertise in the information technology audit area
  - Develop a certification policy
  - Modify employee performance evaluation process
  - Meet with senior management to keep informed about institutional activities, management concerns and the risk assessment process
  - Make a request to the audit committee for an increase in staff salaries

- A follow-up Quality Assurance Review was conducted in July 2009 with results currently pending
Background

As part of The University of Texas – Pan American (UTPA) Fiscal Year 2008 Annual Financial Report (AFR) Audit, controls over the account certification process were tested based on criteria from the UT System Policy 142.1 Section 3. Certification, which include:

- Account Owner provides an annual subcertification to the Financial Reporting Officer
- Financial Reporting Officer determines at what level the subcertification is required (e.g. dean, department head, etc.)
- Subcertifications confirm that reconciliations have been completed on all statements of accounts for the 12 months ended August 31st yearly
Significant Finding

A deficiency in internal control was identified that was considered significant, but not a material weakness to the AFR.

- Some UTPA project managers were found to be certifying their accounts when in fact, they had not completed their reconciliations. As a result, the subcertification process was deemed not to be reliable and the departmental account reconciliations area was considered to be high-risk for potential fraud. Specifically:
  - A sample of 25 subcertified project accounts were tested to verify that the account reconciliations were, in fact, completed for the month of August 2008
  - Of the 25 project accounts tested, 14 (or 56%) were not completely reconciled
  - Additionally, seven of those 14 project accounts were also not reconciled for the month of July and/or the entire fiscal year
Potential Causes:
- Decentralization of account reconciliations
- Inaccurate/unreliable subcertifications
- Lack of adequate staff training
- Lack of personnel to complete reconciliations

Potential Consequences:
The result of not completing account reconciliations increases the likelihood of:
- Fraud
- Misappropriation of funds
- Negative publicity

Recent Actual Fraud – Former UTPA employee accused of embezzling $10K
Corrective Actions

- A Monitoring Plan for Segregation of Duties and Reconciliation of Accounts based on U. T. System Policy 142.1 was developed and approved.
- Details of the Monitoring Plan were communicated to all UTPA Divisions.
- Account Reconciliation Training began in June 2009.
- Account reconciliations will be completed monthly and all project managers will certify monthly to their respective directors/deans.
- Directors/deans will report those who failed to certify or reconcile their accounts to their respective vice presidents on a monthly basis.
- Directors/deans will validate the account reconciliations through quarterly inspections.
- Directors/deans will provide quarterly results to the Comptroller and Office of Internal Audits.
- The Office of Internal Audits will test the effectiveness of the monitoring plan and validate reconciliations at year end.

The University of Texas Investment Management Company (UTIMCO)
401 Congress Avenue, Suite 2800
Austin, Texas 78701

Dear Mr. Zimmerman:

We have performed an audit of UTIMCO's internal controls over financial reporting related to the Permanent University Fund (PUF). The audit objectives were to provide assurance to UTIMCO management and the UTIMCO Board of Directors' Audit and Ethics Committee that internal controls over financial reporting are adequately documented and to determine whether these controls are sufficient and functioning as intended. We also followed up on open recommendations from a previous audit of internal controls over financial reporting.

Our audit was conducted in accordance with the guidelines set forth in the Institute of Internal Auditors’ International Standards for the Professional Practice of Internal Auditing. The results of the audit are detailed in the attached report. We appreciate the assistance provided by your staff and hope the information presented in our report is helpful.

Sincerely,

Charles G. Chaffin

AUDIT REPORT
June 2009

Background
Created in March 1996, The University of Texas Investment Management Company (UTIMCO) is the first external investment corporation formed by a public university system and oversees various investment funds for the University of Texas (UT) and Texas A&M University Systems. UTIMCO's mission is to provide competitive, innovative, and effective asset management and financial advisory services to its clients within the UT and Texas A&M University Systems.

Although not required by law to do so, UTIMCO was the first entity associated with UT System to voluntarily adopt certain provisions required of public companies by Section 404 of the Sarbanes-Oxley Act of 2002 to demonstrate its commitment to providing accurate and reliable financial information. To meet these provisions, UTIMCO prepared extensive documentation detailing each financial reporting process and internal controls associated with its corporate operations and investment funds, including the Permanent University Fund (PUF). The PUF, established by the Texas Constitution in 1876 with land grants, is a public endowment contributing to the support of certain institutions of the UT and Texas A&M University Systems.

The System Audit Office has previously performed audit work on the documented internal controls for the financial reporting processes over the PUF in fiscal years 2005 and 2006. This audit was performed by request of the Audit, Compliance, and Management Review Committee of the UT System Board of Regents and was limited to the internal controls over financial reporting for the PUF only.

Audit Objectives
The objectives of this audit were to provide assurance to UTIMCO management and the UTIMCO Board of Directors' Audit and Ethics Committee that internal controls over PUF financial reporting are adequately documented and to determine whether these controls are sufficient and functioning as intended. Follow-up procedures were also performed on open recommendations from the audit of internal controls over financial reporting performed in FY 2005.

Audit Scope and Methodology
All process narratives, written by UTIMCO staff, which describe the procedures and identify the key controls associated with financial reporting for the PUF, were obtained and reviewed (see complete list of processes at Appendix A). The audit team then met with UTIMCO employees, as necessary, for additional information to determine whether the documentation presented an accurate reflection of the procedures performed and whether the key controls identified were described adequately. Lastly, the audit team selected certain key controls from each process and tested these controls to determine whether the controls are functioning as intended.

The scope of this audit encompassed activity related to the PUF occurring primarily in FY 2009 and some occurring at the end of fiscal year 2008. Our audit was conducted in accordance with the guidelines set forth in the Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing and the Committee of Sponsoring Organizations' internal control framework.
Audit Results
Audit procedures performed included reviewing relevant documents, conducting selective testing on a sample basis, and interviewing key personnel. Overall, the financial reporting processes for the PUF were adequately documented and the controls tested appear to be adequate and are functioning as intended. Although they do not require management responses, the following are items of note as result of the audit.

Daily Reports Prepared and/or Sent Electronically
Certain process narratives include internal controls that involve various daily reports to be prepared by an accounting staff member and reviewed by a senior staff member or accounting manager, who then distributes the reports via e-mail to the investment staff for review. UTIMCO does not save the daily report e-mails distributed due to the large size and frequency of the electronic report files. Although evidence of these daily controls is not retained, the audit team observed that these controls are being performed through the review of e-mails sent during the timeframe of the audit and concluded that UTIMCO continues to perform these daily controls, as documented in the process narratives.

Process Narrative Documentation
UTIMCO has prepared extensive documentation detailing the processes and internal controls associated with the PUF, the other investment funds under its management, and the UTIMCO Corporation. During the audit, we noted, in limited instances, that a few of the procedures within the PUF process narratives did not clearly reflect or slightly differed from the actual procedures currently being performed. In addition, some of the process narratives are written in a generalized manner in order to apply to all of the investment funds or investment mandate types. Due to the process narratives being dynamic documents that include a robust level of detail, minor differences between the documentation and current practices are to be expected. UTIMCO should continue its existing practice of updating the process narratives for differences identified or procedural changes on a periodic basis.

Follow-Up Results
Follow-up procedures were performed on the three remaining open recommendations from a previous UTIMCO audit of internal controls over financial reporting. These recommendations included establishing dollar limits for purchase approvals, establishing a policy requiring multiple bids for purchases over a certain dollar limit, and linking risks identified from a risk assessment to the controls to mitigate these risks in the internal controls process documentation and developing a policy for the frequency of updating the risk assessment. All three recommendations were verified to have been fully implemented.

Conclusion
Overall, the PUF financial reporting processes were adequately documented, and the controls tested appear to be adequate and are working as intended. We would like to thank UTIMCO management and staff for their support and assistance during this audit and commend UTIMCO for its continuing commitment to provide accurate and reliable financial information.

The University of Texas System
Institutional Compliance Program Report Summary
Third Quarter, Fiscal Year 2009

Background

The University of Texas (U. T.) Systemwide Institutional Compliance Program (Program) was established in 1998 to ensure that the entire U. T. System, including its 15 institutions, System Administration, and UTIMCO, operates in compliance with all applicable laws, policies, and regulations governing higher education institutions. The responsibilities for the Program are outlined in the Action Plan to Ensure Institutional Compliance (Action Plan) approved by the Board of Regents in 1998 and updated in 2003. The Action Plan delegates to the Systemwide Compliance Officer the responsibility for apprising the Chancellor and the Board of Regents of the compliance programs and activities at System Administration and at each of the institutions. The Action Plan also provides that the Compliance Officers at System Administration and at each institution are responsible for a risk-based process that builds compliance consciousness into daily business processes, monitors the effectiveness of those processes, and communicates instances of noncompliance to appropriate administrative officers for corrective, restorative, and/or disciplinary action.

As of September 2008 the Systemwide Compliance Officer is Mr. Larry Plutko.

Systemwide Program Activity

As outlined in the Action Plan, the Systemwide Compliance Office provides support to the institutional compliance officers by:

- Facilitating best practice identification
- Providing training and support to the institutions on those practices
- Identifying emerging issues
- Working with institutions on reported instances of noncompliance
- Reporting Systemwide compliance activities
- Coordinating Systemwide compliance efforts
- Advancing the discipline of compliance in higher education/health care

During the third quarter of Fiscal Year 2009 (Q309), the Systemwide Program focused its efforts in the following areas:

1. **Systemwide Compliance Program planning documents**
   The Systemwide Compliance Office reviewed several draft planning documents with the Systemwide Executive Compliance Committee (ECC). These foundational documents included an expanded vision of the Systemwide Compliance Program; a Systemwide Compliance Charter; an Environmental Assessment of compliance trends, new laws and regulations; and an FY10/FY11 Work Plan for Systemwide Compliance and Information
7. U. T. System: Report on Systemwide institutional compliance activities (con't)

Security. All but the Systemwide Compliance Charter were ratified by the ECC and were reviewed with a majority of the institutional compliance officers. The ratified documents will be reviewed by the Board of Regents (BOR) in August.

2. Coordinating the Systemwide information security initiative

The Fiscal Year 2010-2011 Systemwide Information Security Compliance Office Information Security Compliance Work Plan was published and presented to the institutional information security officers. U. T. institutions began deploying configuration management software funded by the U. T. Board of Regents, and U. T. Dallas, U. T. Brownsville, and U. T. Health Science Center – Houston completed an initial installation of several thousand computers. Six other institutions are scheduled to begin deployment of the software during the summer with others following in fiscal year 2010.

A second draft of an Information Security Program Index scoring tool was presented to the U. T. information security officers for review, editing, and feedback. Use of the tool, which will be used to assess and report on institutional information security program status, will begin this summer. Also in the quarter, a member of the U. T. Systemwide Information Security Compliance staff co-authored E-Discovery Guidelines that will be published by Educause.

3. Research Conflicts of Interest Committee

The Office of the Chancellor has charged the Research Conflicts of Interest Committee with studying and making recommendations with regard to the policy, practice, procedure, and enforcement of The University of Texas System institutions’ research conflicts of interest compliance. Due to the complexity of the project, four subcommittees were established with membership from System Administration and the institutions to:

(a) create a model policy and disclosure form,
(b) fashion guidelines for reviewing submitted disclosures, the management/resolution of conflicts, enforcement/sanctions, and certification of the process to the Board of Regents and the Presidents,
(c) research an electronic solution which may include electronic forms, searchable database and information storage, and
(d) educate stakeholders on guidelines for completing declarations, training modules, and marketing/rollout of the program

The expectation is to have the model policy and disclosure form completed in September with the other deliverables rolled out in the Fall/Early Winter of 2009.

4. Other activities during the quarter included:

- Site visits to meet with key leadership and compliance stakeholders at U. T. San Antonio, U. T. Dallas, U. T. Tyler, UTIMCO, and U. T. Austin
- Continuing collaboration with Health Affairs on medical billing education and guidance through the work of the Medical Billing Compliance Advisory Committee
- Hiring an Assistant Systemwide Compliance Officer, Charles J. Wolf, M.D.
7. U. T. System: Report on Systemwide institutional compliance activities (con't)

- Attending executive compliance committee meetings at several institutions
- Coordination of and participation in the Seventh Conference for Effective Compliance Systems in Higher Education held in Austin, May 31 – June 3, 2009
- Identifying and highlighting emerging compliance issues through In the News email publication

Institutional Program Activity¹

Per the Action Plan, the compliance officers at System Administration and each institution have the following responsibilities:

- Actively engage an institutional Executive Compliance Committee that meets at least quarterly
- Perform annual compliance risk assessments
- Provide campus-wide compliance training and promote compliance awareness
- Assist in specialized training for high-risk compliance areas
- Continuously monitor and inspect the institution’s high-risk compliance activities
- Manage the institution’s confidential reporting mechanisms (hotline, etc.)
- Report compliance activities and significant compliance issues to executive management, the Systemwide Compliance Officer, and the Board of Regents

Following is a summary of institutional progress in implementing these elements of an effective compliance program:

Executive Compliance Committees

Each institution has an Executive Compliance Committee (ECC) that meets regularly to oversee its institutional compliance program. Quarterly meetings were held at each institution, with the exception of the U. T. Health Science Center – Houston which holds monthly meetings. During the period, Systemwide Compliance Office representatives attended ECC meetings at U. T. Austin, U. T. San Antonio, and U. T. Health Science Center – San Antonio in order to support the compliance officers in enhancing the role of the ECC.

Risk Assessments

ECCs review their institution’s identified compliance risks and approve the designation of "institutionally significant" compliance risks – risks that, if realized, would have a significant impact on the ability to achieve the goals and objectives of the institution. Most institutions have identified between eight and fifteen institutionally significant areas of high risk, with multiple high-risk exposures contained within those areas. Common risk areas of focus during the quarter included: information security, conflicts of interest, medical billing, clinical research, patient privacy (HIPAA), environmental health and safety (including hazardous materials, lab safety, fire safety, campus safety, select agents), export control, animal care, human subject care, endowment management, fiscal/financial and asset management, time and effort reporting, cost sharing, construction procurement, financial aid, family educational rights and privacy (FERPA), human resources, contract management, and investment management.

¹ Details regarding activities at the institutional level are published in the Institutional Compliance Program 3rd Quarter Status Report for Fiscal Year 2009.

Systemwide Compliance Program
July 2009
Training and Awareness
General compliance training is conducted using a variety of formats including online, classroom, and written materials. Employees are typically scheduled to receive general compliance training during new employee orientation and refresher training thereafter on an annual or biannual basis. All institutions provide a Standards of Conduct guide to new employees either electronically or in hardcopy form. During the quarter, compliance officers have been effective at ensuring that general compliance training and Standards of Conduct guides are delivered to the appropriate personnel in a timely manner.

Specialized Training
During the quarter, institutions conducted specialized training in many high compliance risk areas, including: basic research (including human subject research, animal care and use, contracts and grants, and export controls), clinical research, medical billing, lab safety (including hazardous waste, biosafety, select agents, and radiation safety), information security, endowments, construction safety, account management, purchasing, HIPAA and FERPA.

Monitoring Activities
A designated individual is assigned accountability for each high-risk compliance area and is responsible for creating a risk management process that evaluates current activities and identifies changes that will improve the assurance of compliance as necessary. That process should include monitoring activities, which are procedures performed to verify that the risk management process for a compliance institutional high risk is being carried out as designed on a continual basis.

Compliance effectiveness reviews were conducted in many of the high-risk areas during the third quarter of FY 2009, including: basic research (time and effort reporting, non-allowable costs, research involving human subjects, and animal care and use), medical billing, campus and lab safety, select agents, hazardous chemicals, fire safety, asset management, investment due diligence, investment risk management, and information security.

In addition, various assurance activities (e.g. internal audits and subject matter peer reviews) were performed on many of the high-risk compliance areas to verify and validate that operations are performing in compliance with applicable laws, regulations, policies and procedures.

Institutional Organizational Matters

U. T. Health Science Center – Tyler negotiated a Memorandum of Understanding with U. T. Southwestern Medical Center – Dallas whereby U. T. Southwestern Medical Center – Dallas will provide services to include coding audits and education, quality assurances, and MD Audit configuration to U. T. Health Science Center – Tyler.

The U. T. Health Science Center – Houston Assistant Vice President Auditing & Advisory Services continues to oversee the Institutional Healthcare Billing Compliance program.

U. T. Southwestern Medical Center – Dallas reports hiring three positions during the quarter (including a Privacy Officer) though one HIPAA auditor position remains open. U. T. Medical
7. U. T. System: Report on Systemwide institutional compliance activities (con't)

Branch – Galveston reports that it secured approval to rehire a coder affected by the post-Ike reduction-in-force, bringing the compliance office staff to 9 FTEs.

**Institutional Action Plan Activities**

At the beginning of each fiscal year, institutional compliance officers prepare an Action Plan, identifying areas in which the compliance office will focus its attention and activities. During the third quarter of FY 2009, action plan activities included the following: consulting with high-risk area responsible parties, facilitating risk assessments in high-risk areas, reviewing and updating risk management and monitoring plans, performing compliance effectiveness reviews and obtaining certification letters of high-risk compliance areas, facilitating general compliance training, managing investigations of alleged noncompliance, updating standards of conduct guides, and publishing a compliance newsletter.
MONTHLY FINANCIAL REPORT
(unaudited)

JUNE 2009
The Monthly Financial Report (MFR) compares the results of operations between the current year-to-date cumulative amounts and the prior year-to-date cumulative amounts. Explanations are provided for institutions having the largest variances in Adjusted Income (Loss) year-to-date as compared to the prior year, both in terms of dollars and percentages. In addition, although no significant variance may exist, institutions with losses may be discussed.

The data is reported in three sections: (1) Operating Revenues, (2) Operating Expenses and (3) Other Nonoperating Adjustments. Presentation of state appropriation revenues are required under GASB 35 to be reflected as nonoperating revenues, so all institutions will report an Operating Loss prior to this adjustment. The MFR provides an Adjusted Income (Loss), which takes into account the nonoperating adjustments associated with core operating activities. An Adjusted Margin (as a percentage of operating and nonoperating revenue adjustments) is calculated for each period and is intended to reflect relative operating contributions to financial health.

THE UNIVERSITY OF TEXAS SYSTEM
EXPLANATION OF VARIANCES ON THE MONTHLY FINANCIAL REPORT
For the Ten Months Ending June 30, 2009

Explanations are provided for institutions having the largest variances in adjusted income (loss) year-to-date as compared to the prior year, both in terms of dollars and percentages. Explanations are also provided for institutions with a current year-to-date adjusted loss.

(1) UT System Administration – The $222.5 million (76.2%) decrease in adjusted income over the same period last year was primarily due to decreased net investment income resulting from unfavorable market conditions. Excluding depreciation expense, UT System Administration’s adjusted income was $77.6 million or 39.2%.

(2) UT Arlington – The $7.4 million (166.6%) increase in adjusted income over the same period last year was primarily attributable to increased student tuition and fees and sponsored programs. Student tuition and fees increased due to the increase in the tuition rate and sponsored programs increased due to an increase in the indirect cost recovery rate and an increase in state pass-through revenues from the Texas Higher Education Coordinating Board. Excluding depreciation expense, UT Arlington’s adjusted income was $33.7 million or 9.4%.

(3) UT Austin – The $17.7 million (27.6%) decrease in adjusted income over the same period last year was primarily due to an increase in salaries and wages and payroll related costs as a result of merit increases. Interest expense also increased due to the increase in capital projects. Excluding depreciation expense, UT Austin’s adjusted income was $174.6 million or 9.4%.

(4) UT Brownsville – The $532,000 (346.8%) decrease in adjusted income over the same period last year was due to decreased enrollment as a result of the Student Academic Recruitment, Retention, and Marketing strategies which, if successful, will return enrollment and positive margins for 2010.

(5) UT Dallas – The $6.7 million (50.7%) decrease in adjusted income over the same period last year was due to an increase in salaries and wages, a decrease in gift contributions for operations and net investment income, and an increase in interest expense. Salaries and wages increased as a result of merit increases and additional full-time equivalents (FTEs). Gift contributions for operations decreased due to a one-time gift of $3 million received in 2008. Net investment income decreased as a result of the current economic downturn and interest expense increased due to an increase in capital projects. Excluding depreciation expense, UT Dallas’ adjusted income was $25 million or 8.7%.

(6) UT Pan American – The $1.4 million year-to-date loss was primarily attributable to an increase in salaries and wages and payroll related costs as a result of merit increases. UT Pan American anticipates ending the year with a $3 million negative margin which represents -1.1% of projected revenues. This forecast includes $12.8 million of depreciation expense. Excluding depreciation expense, UT Pan American’s adjusted income was $9.2 million or 4%.

(7) UT San Antonio - The $26 million (83%) decrease in adjusted income over the same period last year was primarily due to an increase in salaries and wages, materials and supplies, and interest expense. Salaries and wages increased due to merit increases and the hiring of several funded positions that were vacant at this time last year. Materials and supplies increased due to noncapital costs associated with the University Center Phase III, Engineering Building and the Library Expansion. Interest expense increased due to the increase in capital projects. Excluding depreciation expense, UT San Antonio’s adjusted income was $31.9 million or 8.5%.

(8) UT Southwestern Medical Center - Dallas – The $56.5 million (88.8%) decrease in adjusted income over the same period last year was primarily due to a decrease in gift contributions for operations and an increase in salaries and wages and payroll related costs. Gift contributions for operations decreased due to the current economic downturn.
and a one-time gift of $27.8 million from University Medical Center that was received in 2008. Salaries and wages and payroll related costs in the physician practice plan increased due to additional FTEs to support volume increases. Excluding depreciation expense, Southwestern’s adjusted income was $69 million or 5.3%.

(9) **UT Medical Branch - Galveston** – The $125.2 million (302%) increase in adjusted loss over the same period last year was primarily due to the business disruption in revenue generating activities and expenses related to Hurricane Ike. Operating revenues decreased $91.1 million and operating expenses increased $38.5 million. Patient care revenue decreased $160.5 million, with decreases in admissions of 53%, patient days of 61%, and clinic visits of 24% as compared to last year. Sponsored programs increased due to the receipt of $98.8 million from the Federal Emergency Management Agency (FEMA) which was offset by decreased activity on grant projects as a result of Hurricane Ike and a reduction in the School of Medicine contract with the John Sealy Hospital. Expenses related to the recovery from Hurricane Ike totaled $124.4 million. As a result, UTMB experienced a $166.7 million year-to-date loss which includes $24.9 million in Correctional Managed Care (CMC) losses. Excluding depreciation expense, UTMB’s adjusted loss was $104.9 million or -9.1%.

UTMB projects a year-end loss of approximately $129.5 million, which represents -9.1% of projected revenues. This forecast includes $77.8 million of depreciation expense. The projection includes the impact of the reduction in force and $17 million of Graduate Medical Education (GME) funding that will be received in 2009, but does not yet include the impact of the impairment of capital assets as a result of Hurricane Ike or the related commercial insurance proceeds that will partially offset the impairments. The projection also does not include the $150 million of FEMA General Revenue Appropriations from House Bill 4586 as these appropriations can only be used as matching funds for FEMA qualified projects. The projection is also based on expectations of improved financial performance in the hospitals and clinics and sustaining favorable variances in the academic enterprise.

(10) **UT Health Science Center – Houston** – The $14.9 million (75.6%) decrease in adjusted income over the same period last year was primarily attributable to increased salaries and wages due to salary increases and approximately 160 vacant positions that were filled in 2009. In addition, gift contributions for operations and investment income were down due to the current economic downturn. Excluding depreciation, UTHSC-Houston’s adjusted income was $37.1 million or 5.4%.

(11) **UT Health Science Center – San Antonio** – The $3 million year-to-date loss was primarily attributable to the physician practice plan. The physician practice plan incurred a year-to-date loss of $8.3 million attributable to a $4.7 million loss incurred by the Cancer Therapy Research Center (CTRC) due to increased clinical operations and billing delays resulting from the integration of the nonprofit healthcare corporation (UT Medicine) into UTHSC-San Antonio; a $200,000 loss resulting from the School of Medicine’s planned expansion efforts and reinvestment in faculty, as well as the preparation for the opening of the Medical Arts and Research Center (MARC) in the fall of 2009; and $3.4 million in interest expense on debt service for the MARC building. UTHSC-San Antonio anticipates the physician practice plan’s operating loss will decrease during the remainder of the year as cost-cutting efforts and billing and revenue enhancement measures are implemented. UTHSC-San Antonio anticipates ending the year with a $6.1 million negative margin, which represents -0.9% of projected revenues and includes $31.5 million of depreciation expense. This projected loss is primarily due to the preparation for the opening of the MARC. The use of prior year balances to support this projected year-end loss was anticipated and approved in the 2009 budget. Excluding depreciation expense, UTHSC-San Antonio’s adjusted income was $23.3 million or 4.1%.

(12) **UT M. D. Anderson Cancer Center** – The $37.8 million (25.1%) decrease in adjusted income over the same period last year was primarily attributable to the business disruption in revenue generating activities related to Hurricane Ike, an increase in indigent patients, delays in payments from patients and insurance companies, and an increase in salaries, wages, and payroll related costs due to salary increases and additional FTEs. There was also a $47.4 million decrease in gift contributions for operations due to the current economic downturn. Excluding depreciation expense, M. D. Anderson’s adjusted income was $297.6 million or 12.3%. M. D. Anderson’s Executive Committee instituted a hiring freeze in March 2009, implemented a 10% reduction in overall expenses in May 2009, and is focusing on increasing clinical revenues. M. D. Anderson anticipates ending the year with a positive margin of $134.7 million, which represents 4.6% of projected revenues and includes $221.5 million of depreciation expense.

(13) **UT Health Science Center – Tyler** – The $2.6 million (583.3%) increase in adjusted income over the same period last year was primarily attributable to increased State appropriations partially as a result of $1.5 million in General Revenue Appropriations from House Bill 4586. Excluding depreciation expense, UTHSC-Tyler’s adjusted income was $8.4 million or 8%.

(14) **Investment Gains (Losses)** - The majority of the $4.2 billion (2,337.3%) decrease in investment gains relates to the Permanent University Fund of $2.2 billion, the Long Term Fund of $1.1 billion, and the Permanent Health Fund of $205.9 million.

On the MFR, investment income for System Administration has been reduced for the amount of the System Administration transfer so as not to overstated investment income for System Administration. The AUF transfers are eliminated at the consolidated level to avoid overstating System-wide revenues, as the amounts will be reflected as transfers at year-end.

INVESTMENT GAINS (LOSSES) – Realized and unrealized gains and losses on investments.

ADJUSTED INCOME (LOSS) excluding Depreciation – Total operating revenues less total operating expenses excluding depreciation expense plus net other nonoperating adjustments.

ADJUSTED MARGIN (as a percentage) excluding Depreciation – Percentage of Adjusted Income (Loss) excluding depreciation expense divided by Total Operating Revenues plus Net Nonoperating Adjustments less Interest Expense on Capital Asset Financings.

10. U. T. System Board of Regents: Adoption of resolutions authorizing certain bond enhancement agreements for Revenue Financing System debt and Permanent University Fund debt

A RESOLUTION AUTHORIZING THE EXECUTION AND DELIVERY OF BOND ENHANCEMENT AGREEMENTS RELATING TO PERMANENT UNIVERSITY FUND DEBT AND AUTHORIZING AND APPROVING OTHER INSTRUMENTS AND PROCEDURES RELATING TO SAID AGREEMENTS

August 20, 2009

WHEREAS, the Board of Regents (the “Board”) of The University of Texas System (the “System”) is the governing body of the System, an institution of higher education under the Texas Education Code and an agency of the State of Texas (the “State”); and

WHEREAS, the Permanent University Fund is a constitutional fund and public endowment created in the Texas Constitution of 1876, as created, established, implemented and administered pursuant to Sections 10, 11, 11a, 11b, 15 and 18 of Article VII of the Constitution of the State, as amended, and by other applicable present and future constitutional and statutory provisions, and further implemented by the provisions of Chapter 66, Texas Education Code, as amended, the “Permanent University Fund”); and

WHEREAS, the Available University Fund is defined by the Constitution of the State and consists of distributions made to it from the total return on all investment assets of the Permanent University Fund, including the net income attributable to the surface of Permanent University Fund land, as determined by the Board pursuant to Section 18 of Article VII of the Constitution of the State (the “Available University Fund”); and

WHEREAS, Section 18 of Article VII of the Constitution of the State, as may hereafter be amended (the “Constitutional Provision”), authorizes the Board to issue bonds and notes (“PUF Debt”) not to exceed a total amount of 20% of the cost value of investments and other assets of the Permanent University Fund, exclusive of real estate, at the time of issuance thereof and to pledge all or any part of its two-thirds interest in the Available University Fund (the “Interest of the System”) to secure the payment of the principal of and interest on PUF Debt, for the purpose of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of buildings and other permanent improvements, acquiring capital equipment and library books and library materials, and refunding bonds or notes issued under the Constitutional Provision or prior law, at or for the System Administration and institutions of the System as listed in the Constitutional Provision; and

WHEREAS, the Constitutional Provision also provides that out of the Interest of the System in the Available University Fund there shall be appropriated an annual sum sufficient to pay the principal and interest due on PUF Debt, and the remainder of the Interest of the System in the Available University Fund (the “Residual AU F”) shall be appropriated for the support and maintenance of The University of Texas at Austin and the System Administration; and

WHEREAS, unless otherwise defined herein, terms used herein shall have the meaning as set forth in Exhibit A hereto; and

WHEREAS, the Board has previously entered into certain Executed Master Agreements (as defined herein) with certain counterparties setting forth the terms and conditions applicable to each Confirmation (as defined herein) to be executed thereunder; and

WHEREAS, the Board hereby desires to ratify the U.T. System’s Interest Rate Swap Policy, a copy of which is attached hereto as Exhibit B, and to severally authorize each Authorized Representative (as defined in the U.T. System’s Interest Rate Swap Policy) to enter into Bond Enhancement Agreements (as defined herein) from time to time, all as provided in this Resolution.
NOW THEREFORE BE IT RESOLVED, that

SECTION 1. DEFINITIONS. Capitalized terms used in this Resolution and not otherwise defined shall have the meanings given in Exhibit A attached hereto and made a part hereof.

SECTION 2. AUTHORIZATION OF BOND ENHANCEMENT AGREEMENTS.

(a) Delegation. Each Authorized Representative is hereby severally authorized to act on behalf of the Board in accepting and executing new or amended confirmations under one or more of the Master Agreements (each, a “Confirmation” and, collectively with the applicable Master Agreement, a “Bond Enhancement Agreement”) when, in his or her judgment, the execution of such Confirmation is consistent with this Resolution and the U.T. System Interest Rate Swap Policy and either (i) the transaction is expected to reduce the net interest to be paid by the Board with respect to any then outstanding PUF Debt or PUF Debt anticipated to be issued in the future over the term of the Bond Enhancement Agreement or (ii) the transaction is in the best interests of the Board given the market conditions at that time. The delegation to each Authorized Representative to execute and deliver Bond Enhancement Agreements on behalf of the Board under this Resolution shall expire on September 1, 2010.

(b) Authorizing Law and Treatment as Credit Agreement. The Board hereby determines that any such Bond Enhancement Agreement entered into by an Authorized Representative pursuant to this Resolution is necessary or appropriate to place the Board’s obligations with respect to its outstanding PUF Debt or PUF Debt anticipated to be issued in the future on the interest rate, currency, cash flow or other basis set forth in such Bond Enhancement Agreement as approved and executed on behalf of the Board by an Authorized Representative. Each Bond Enhancement Agreement constitutes a “bond enhancement agreement” under Section 65.461 of the Texas Education Code (“Section 65.461”). Pursuant to Section 65.461, a Bond Enhancement Agreement authorized and executed by an Authorized Representative under this Resolution shall not be considered a “credit agreement” under Chapter 1371 of the Texas Government Code, as amended (“Chapter 1371”), unless specifically designated as such by such Authorized Representative. In the event an Authorized Representative elects to treat a Bond Enhancement Agreement authorized by this Resolution as a “credit agreement” under Chapter 1371 and this Resolution has not previously been submitted to the Attorney General by an Authorized Representative, such Authorized Representative shall submit this Resolution to the Attorney General for review and approval in accordance with the requirements of Chapter 1371 as the proceedings authorizing Bond Enhancement Agreements entered into by the Board pursuant to this Resolution.

(c) Costs; Maximum Term. The costs of any Bond Enhancement Agreement and the amounts payable thereunder, including but not limited to any amounts payable by the Board as a result of terminating a Bond Enhancement Agreement, shall be payable from the Residual AUF as a cost of the support and maintenance of System administration or from any other source that is legally available to make such payments.

The maximum term of each Bond Enhancement Agreement authorized by this Resolution shall not exceed the maturity date of the then outstanding related PUF Debt or the related PUF Debt anticipated to be issued in the future, as applicable.

(d) Notional Amount. The notional amount of any Bond Enhancement Agreement authorized by this Resolution shall not at any time exceed the aggregate principal amount of the then outstanding related PUF Debt or related PUF Debt anticipated to be issued in the future, as
10. U. T. System Board of Regents: Adoption of resolutions authorizing certain bond enhancement agreements for Revenue Financing System debt and Permanent University Fund debt (cont.)

applicable; provided that the aggregate notional amount of multiple Bond Enhancement Agreements relating to the same PUF Debt may exceed the principal amount of the related PUF Debt if such Bond Enhancement Agreements are for different purposes, as evidenced for example by different rates for calculating payments owed, and the aggregate notional amount of any such Bond Enhancement Agreements for the same purpose otherwise satisfies the foregoing requirements.

(e) Early Termination. No Confirmation entered into pursuant to this Resolution shall contain early termination provisions at the option of the counterparty except upon the occurrence of an event of default or an additional termination event, as prescribed in the applicable Master Agreement. In addition to subsections (a) and (b) of Section 5 hereof, each Authorized Representative is hereby severally authorized to terminate any Bond Enhancement when, in his or her judgment, such termination is in the best interests of the Board given the market conditions at that time.

(f) Maximum Rate. No Bond Enhancement Agreement authorized by this Resolution shall be payable at a rate greater than the maximum rate allowed by law.

(g) Credit Enhancement. An Authorized Representative may obtain credit enhancement for any Bond Enhancement Agreement if such Authorized Representative, as evidenced by a certificate delivered to the General Counsel to the Board, has determined that after taking into account the cost of such credit enhancement, such credit enhancement will reduce the amount payable by the Board pursuant to such Bond Enhancement Agreement; provided that the annual cost of credit enhancement on any Bond Enhancement Agreement entered into pursuant to this Resolution may not exceed 0.50% of the notional amount of such Bond Enhancement Agreement.

SECTION 3. AUTHORIZATION FOR SPECIFIC TRANSACTIONS. In addition to the authority otherwise granted in this Resolution, each Authorized Representative is hereby severally granted continuing authority to enter into the following specific transactions pursuant to a Confirmation (or other agreement or instrument deemed necessary by an Authorized Representative) upon satisfaction of the following respective conditions:

(A) Floating-to-fixed rate interest rate swap transactions under which the Board would pay an amount based upon a fixed rate of interest and the counterparty would pay an amount based upon a variable rate of interest with respect to PUF Debt then outstanding bearing interest at a variable rate and any PUF Debt anticipated to be issued in the future that will bear interest at a variable rate, as applicable. Prior to entering into such transaction, an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that (i) the synthetic fixed rate to the Board pursuant to the swap transaction is lower than the rate available to the Board for comparable fixed rate debt at the time of the swap transaction, and (ii) if the variable rate being paid or expected to be paid by the Board on the applicable PUF Debt is computed on a basis different from the calculation of the variable rate to be received under the swap transaction over the stated term of such swap transaction, the basis risk of the transaction is expected to be minimal based upon historical relationships between such bases.

(B) Fixed-to-floating rate interest rate swap transactions under which the Board would pay an amount based upon a variable rate of interest and the counterparty would pay an amount based upon a fixed rate of interest, with respect to PUF Debt then outstanding bearing interest at a fixed rate or PUF Debt anticipated to be issued in the future that will bear interest at a fixed rate, as applicable. Prior to entering into such transaction, an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that converting such portion of fixed rate PUF Debt to a variable rate pursuant to the fixed-to-floating interest rate swap transaction would be beneficial to the System by (i)
lowering the anticipated net interest cost on the PUF Debt to be swapped against or (ii) assisting in the System's asset/liability management by matching a portion of its variable rate assets with variable rate PUF Debt.

(C) Basis swap transactions under which the Board would pay a variable rate of interest computed on one basis, such as the Securities Industry and Financial Markets Association Municipal Swap Index, and the counterparty would pay a variable rate of interest computed on a different basis, such as a designated maturity of the London Interbank Offered Rate ("LIBOR"), with respect to a given principal amount of PUF Debt then outstanding or PUF Debt anticipated to be issued in the future, as applicable. Prior to entering into such transaction, an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that by entering into the basis swap transaction the Board is expected to be able to (i) achieve spread income or upfront cash payments, (ii) preserve call option and advance refunding capability on its PUF Debt, (iii) lower net interest cost by effecting a percent of LIBOR synthetic refunding without issuing additional bonds or acquiring credit enhancement, (iv) lower net interest cost on PUF Debt by layering tax risk on top of a traditional or synthetic fixed rate financing, (v) preserve liquidity capacity, or (vi) avoid the mark to market volatility of a fixed-to-floating or floating-to-fixed swap in changing interest rate environments.

(D) Interest rate locks, caps, floors, and collars for the purpose of limiting the exposure of the Board to adverse changes in interest rates in connection with outstanding PUF Debt or additional PUF Debt anticipated to be issued in the future. Prior to entering into such a transaction, an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that such transaction is expected to limit or eliminate such exposure.

SECTION 4. APPLICATION OF PAYMENTS RECEIVED UNDER BOND ENHANCEMENT AGREEMENTS.

(a) General. Except as provided in subsection (b) hereof, to the extent the Board receives payments pursuant to a Bond Enhancement Agreement, such payments shall be applied for any lawful purpose.

(b) Payments under Chapter 1371 Credit Agreements. In the event an Authorized Representative elects to treat a Bond Enhancement Agreement authorized by this Resolution as a "credit agreement" under Chapter 1371 and such Bond Enhancement Agreement is executed and delivered pursuant to Chapter 1371, to the extent that the Board receives payments pursuant to such a Bond Enhancement Agreement, such payments shall be applied as follows: (i) to pay (A) debt service on the PUF Debt or anticipated issuance of PUF Debt related to the Bond Enhancement Agreement, or (B) the costs to be financed by the PUF Debt or anticipated issuance of PUF Debt related to the Bond Enhancement Agreement; provided that, if applicable, such costs shall have been approved for construction by the Board and that the applicable projects have received the required approval or review of the Texas Higher Education Coordinating Board to the extent and as required by the provisions of Section 61.058 of the Texas Education Code; (ii) to pay other liabilities or expenses that are secured on parity with or senior to the PUF Debt or anticipated issuance of PUF Debt related to the Bond Enhancement Agreement; or (iii) to the extent that costs set forth in (i) and (ii) have been satisfied, for any other lawful purpose.

SECTION 5. BOND ENHANCEMENT AGREEMENTS IN CONNECTION WITH ANTICIPATED PUF DEBT.

(a) Requirement to Terminate or Modify Agreement for Non-issuance of Anticipated PUF Debt. In the event a Bond Enhancement Agreement is entered into under this Resolution in
connection with the anticipated issuance of PUF Debt and such PUF Debt is not actually issued
on or prior to the effective date of such agreement, an Authorized Representative shall either
terminate such Bond Enhancement Agreement or amend such Bond Enhancement Agreement in
such event (i) to delay the effective date of such Bond Enhancement Agreement; or (ii) to replace
such anticipated PUF Debt with any then outstanding PUF Debt having the same types of interest
rates (fixed or variable) as the anticipated PUF Debt.

(b) Requirement to Terminate or Modify Agreement for Notional Amount in Excess of
Anticipated PUF Debt as issued. In the event a Bond Enhancement Agreement is entered into
under this Resolution in connection with the anticipated issuance of PUF Debt and such Bond
Enhancement Agreement has a notional amount that at any time exceeds the principal amount to
be outstanding of such anticipated PUF Debt as actually issued, an Authorized Representative
shall either terminate such Bond Enhancement Agreement or amend such Bond Enhancement
Agreement (i) to reduce the notional amount of such Bond Enhancement as appropriate so that
such notional amount does not exceed at any time the principal amount to be outstanding of such
anticipated PUF Debt as actually issued or (ii) supplement or replace all or a portion of such
anticipated PUF Debt with any then outstanding PUF Debt having the same types of interest rates
(fixed or variable) as the anticipated PUF Debt as necessary to ensure that the notional amount of
such Bond Enhancement Agreement does not exceed at any time the principal amount of the
applicable PUF Debt.

(c) Board Recognition of Anticipated Parity Debt. No Bond Enhancement Agreement may
be entered into under this Resolution with respect to the Board’s obligations under an anticipated
future issuance of PUF Debt unless such anticipated issuance of future debt shall have been
recognized by official action of the Board pursuant to either (i) the Board’s prior adoption of a
resolution authorizing the issuance of such debt, including but not limited to a resolution
delegating the parameters of such issuance to an Authorized Representative or a resolution
authorizing the issuance of commercial paper notes, (ii) the Board’s prior approval of its then
current Capital Improvement Program contemplating the financing of the projects to be financed
by such anticipated issuance of debt and the amount of such debt to be issued, or (iii) the Board’s
action pursuant to subsection (e) hereof with respect to PUF Debt anticipated to be issued to
refund outstanding PUF Debt.

(d) Required Description of Anticipated PUF Debt. To the extent that a Bond Enhancement
Agreement is entered into under this Resolution with respect to the Board’s obligations under an
anticipated future issuance of PUF Debt, an Authorized Representative must also deliver to the
General Counsel to the Board at the time such agreement is entered into a certificate with respect
to such anticipated PUF Debt stating: (i) the anticipated issuance date of such PUF Debt or a
range of anticipated dates of up to six months for such issuance, provided that such date or range
of dates may not be more than the lesser of seventy-two (72) months after the date of the
applicable Confirmation or the latest date contemplated for the issuance of such PUF Debt in the
Board’s then current Capital Improvement Program; (ii) whether such PUF Debt will bear interest
at a fixed or variable rate; (iii) if such PUF Debt will bear interest at a fixed rate, what fixed
interest rate or range of interest rates with respect to such PUF Debt is anticipated; (iv) if such
PUF Debt will bear interest at a variable rate, what basis is anticipated to be used to compute such
variable rate; (v) the assumed maturity schedule and amortization for such PUF Debt, including
the assumed interest cost; (vi) the anticipated purposes for which the proceeds of such PUF Debt
will be used; and (vii) for PUF Debt anticipated to be issued for new money projects, a list or
description of such projects anticipated to be financed, provided that each such project must be
contemplated for financing with PUF Debt by the Board’s then current Capital Improvement
Program or have otherwise received Board approval for financing.
10. U. T. System Board of Regents: Adoption of resolutions authorizing certain bond enhancement agreements for Revenue Financing System debt and Permanent University Fund debt (cont.)

(e) Board's Statement of Intent to Issue Advance Refunding Debt for Savings. If the conditions in this Resolution are otherwise satisfied, the Board hereby authorizes each Authorized Representative to enter into a Bond Enhancement Agreement in connection with PUF Debt anticipated to be issued for the purpose of advance refunding any existing PUF Debt, provided that as certified by an Authorized Representative to the General Counsel to the Board, such new issue of PUF Debt, when taking into consideration the effect of such Bond Enhancement Agreement, is anticipated to result in a present value savings in connection with such advance refunding of at least 3.0% (determined in the manner set forth in the resolution approved by the Board authorizing the issuance of such new issue of PUF Debt), and in such event, the Board hereby declares its intention to cause such new PUF Debt to be issued. No such certification or declaration shall be applicable in connection with PUF Debt anticipated to be issued for the purpose of currently refunding any existing PUF Debt within ninety (90) days of the date of issuance of such new PUF Debt.

SECTION 6. MASTER AGREEMENTS.

(a) New Master Agreements. Each Authorized Representative is hereby severally authorized to enter into ISDA Master Agreements (the "New Master Agreements") with counterparties satisfying the ratings requirements of the System's Interest Rate Swap Policy. Such New Master Agreements shall be in substantially the same form as the Executed Master Agreements, with such changes as, in the judgment of an Authorized Representative, with the advice and counsel of the Office of General Counsel and Bond Counsel, are necessary or desirable (i) to carry out the intent of the Board as expressed in this Resolution, (ii) to receive approval of this Resolution by the Attorney General of the State of Texas, if pursuant Section 2(b) of this Resolution, an Authorized Representative elects to designate any Bond Enhancement Agreement entered into by the Board pursuant to this Resolution as a "credit agreement" under Chapter 1371, (iii) to accommodate the credit structure or requirements of a particular counterparty or (iv) to incorporate comments received or anticipated to be received from any credit rating agency relating to a New Master Agreement. Each Authorized Representative is authorized to enter into such New Master Agreements and to enter into Confirmations thereunder in accordance with this Resolution and in furtherance of and to carry out the intent hereof.

(b) Amendments to Master Agreements. A RESOLUTION AUTHORIZING THE EXECUTION AND DELIVERY OF BOND ENHANCEMENT AGREEMENTS RELATING TO REVENUE FINANCING SYSTEM DEBT AND AUTHORIZING AND APPROVING OTHER INSTRUMENTS AND PROCEDURES RELATING TO SAID AGREEMENTS

August 20, 2009

WHEREAS, the Board of Regents (the "Board") of The University of Texas System (the "System") is the governing body of the System, an institution of higher education under the Texas Education Code and an agency of the State of Texas; and

WHEREAS, on February 14, 1991, the Board adopted the First Amended and Restated Master Resolution Establishing The University of Texas System Revenue Financing System and amended such resolution on October 8, 1993, and August 14, 1997 (referred to herein as the "Master Resolution"); and

WHEREAS, unless otherwise defined herein, terms used herein shall have the meaning given in the Master Resolution or as set forth in Exhibit A hereto; and

WHEREAS, the Master Resolution establishes the Revenue Financing System comprised of the institutions now or hereafter constituting components of the System that are designated "Members" of the Financing System by action of the Board and pledges the Pledged Revenues attributable to each Member of the Financing System to the payment of Parity Debt to be outstanding under the Master Resolution; and

WHEREAS, the Board has adopted Supplemental Resolutions to the Master Resolution authorizing the issuance of Parity Debt thereunder as special, limited obligations of the Board payable solely from and secured by a lien on and pledge of Pledged Revenues pledged for the equal and proportionate benefit and security of all owners of Parity Debt; and

WHEREAS, the Board has previously entered into certain Executed Master Agreements (as defined herein) with certain counterparties setting forth the terms and conditions applicable to each Confirmation (as defined herein) executed or to be executed thereunder; and

WHEREAS, the Board hereby desires to ratify the System's Interest Rate Swap Policy, a copy of which is attached hereto as Exhibit B, and to severally authorize each Authorized Representative (as defined in the System’s Interest Rate Swap Policy) to enter into Bond Enhancement Agreements (as defined herein) from time to time, all as provided in this Resolution.

NOW THEREFORE BE IT RESOLVED, that

SECTION 1. DEFINITIONS. In addition to the definitions set forth in the preamble of this Resolution, the terms used in this Resolution and not otherwise defined shall have the meanings given in the Master Resolution or in Exhibit A to this Resolution attached hereto and made a part hereof.

SECTION 2. AUTHORIZATION OF BOND ENHANCEMENT AGREEMENTS.

(a) Delegation. Each Authorized Representative is hereby severally authorized to act on behalf of the Board in accepting and executing new or amended confirmations under one or more of the Master Agreements (each, a "Confirmation", and collectively with the applicable Master Agreement, a "Bond Enhancement Agreement") when, in his or her judgment, the execution of such Confirmation is consistent with this Resolution and the System's Interest Rate Swap Policy and either (i) the transaction is expected
to reduce the net interest to be paid by the Board with respect to any then outstanding Parity Debt or Parity Debt anticipated to be issued in the future over the term of the Bond Enhancement Agreement or (ii) the transaction is in the best interests of the Board given the market conditions at that time. The delegation to each Authorized Representative to execute and deliver Bond Enhancement Agreements on behalf of the Board under this Resolution shall expire on September 1, 2010.

(b) Authorizing Law and Treatment as Credit Agreement. The Board hereby determines that any such Bond Enhancement Agreement entered into by an Authorized Representative pursuant to this Resolution is necessary or appropriate to place the Board's obligations with respect to its outstanding Parity Debt or Parity Debt anticipated to be issued in the future on the interest rate, currency, cash flow or other basis set forth in such Bond Enhancement Agreement as approved and executed on behalf of the Board by an Authorized Representative. Each Bond Enhancement Agreement constitutes a "Credit Agreement" as defined in the Master Resolution and a "bond enhancement agreement" under Section 65.461 of the Texas Education Code ("Section 65.461"). Pursuant to Section 65.461, a Bond Enhancement Agreement authorized and executed by an Authorized Representative under this Resolution shall not be considered a "credit agreement" under Chapter 1371 of the Texas Government Code, as amended ("Chapter 1371"), unless specifically designated as such by such Authorized Representative. In the event an Authorized Representative elects to treat a Bond Enhancement Agreement authorized by this Resolution as a "credit agreement" under Chapter 1371 and this Resolution has not previously been submitted to the Attorney General by an Authorized Representative, such Authorized Representative shall submit this Resolution to the Attorney General for review and approval in accordance with the requirements of Chapter 1371 as the proceedings authorizing Bond Enhancement Agreements entered into by the Board pursuant to this Resolution.

(c) Maximum Term. The maximum term of each Bond Enhancement Agreement authorized by this Resolution shall not exceed the maturity date of the then outstanding related Parity Debt or the related Parity Debt anticipated to be issued in the future, as applicable.

(d) Notional Amount. The notional amount of any Bond Enhancement Agreement authorized by this Resolution shall not at any time exceed the aggregate principal amount of the then outstanding related Parity Debt and related Parity Debt anticipated to be issued in the future, as applicable; provided that the aggregate notional amount of multiple Bond Enhancement Agreements relating to the same Parity Debt may exceed the principal amount of the related Parity Debt if such Bond Enhancement Agreements are for different purposes, as evidenced for example by different rates for calculating payments owed, and the aggregate notional amount of any such Bond Enhancement Agreements for the same purpose otherwise satisfies the foregoing requirements.

(e) Early Termination. No Confirmation entered into pursuant to this Resolution shall contain early termination provisions at the option of the counterparty except upon the occurrence of an event of default or an additional termination event, as prescribed in the applicable Master Agreement. In addition to subsections (a) and (b) of Section 6 hereof, each Authorized Representative is hereby severally authorized to terminate any Bond Enhancement when, in his or her judgment, such termination is in the best interests of the Board given the market conditions at that time.

(f) Maximum Rate. No Bond Enhancement Agreement authorized by this Resolution shall be payable at a rate greater than the maximum rate allowed by law.

(g) Credit Enhancement. An Authorized Representative may obtain credit enhancement for any Bond Enhancement Agreement if such Authorized Representative, as evidenced by a certificate delivered to the General Counsel to the Board, has determined that after taking into account the cost of such credit enhancement, such credit enhancement will reduce the amount payable by the Board pursuant to such
10. U. T. System Board of Regents: Adoption of resolutions authorizing certain bond enhancement agreements for Revenue Financing System debt and Permanent University Fund debt (cont.)

Bond Enhancement Agreement; provided that the annual cost of credit enhancement on any Bond Enhancement Agreement entered into pursuant to this Resolution may not exceed 0.50% of the notional amount of such Bond Enhancement Agreement.

SECTION 3. BOND ENHANCEMENT AGREEMENTS AS PARITY DEBT. The costs of any Bond Enhancement Agreement and the amounts payable thereunder shall be payable out of Pledged Revenues and each Bond Enhancement Agreement shall constitute Parity Debt under the Master Resolution, except to the extent that a Bond Enhancement Agreement provides that an obligation of the Board thereunder shall be payable from and secured by a lien on Pledged Revenues subordinate to the lien securing the payment of the Parity Debt. The Board determines that this Resolution shall constitute a Supplemental Resolution to the Master Resolution and as required by Section 5(a) of the Master Resolution, the Board further determines that upon the delivery of the Bond Enhancement Agreements authorized by this Resolution it will have sufficient funds to meet the financial obligations of the System, including sufficient Pledged Revenues to satisfy the Annual Debt Service Requirements of the Financing System and to meet all financial obligations of the Board relating to the Financing System and that the Members on whose behalf such Bond Enhancement Agreements are entered into possess the financial capacity to satisfy their Direct Obligations after taking such Bond Enhancement Agreements into account.

SECTION 4. AUTHORIZATION FOR SPECIFIC TRANSACTIONS. In addition to the authority otherwise granted in this Resolution, each Authorized Representative is hereby severally granted continuing authority to enter into the following specific transactions pursuant to a Confirmation (or other agreement or instrument deemed necessary by an Authorized Representative) upon satisfaction of the following respective conditions:

(A) Floating-to-fixed rate interest rate swap transactions under which the Board would pay an amount based upon a fixed rate of interest and the counterparty would pay an amount based upon a variable rate of interest with respect to Parity Debt then outstanding bearing interest at a variable rate and Parity Debt anticipated to be issued in the future that will bear interest at a variable rate, as applicable. Prior to entering into such transaction, an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that (i) the synthetic fixed rate to the Board pursuant to the swap transaction is lower than the rate available to the Board for comparable fixed rate debt at the time of the swap transaction, and (ii) if the variable rate being paid or expected to be paid by the Board on the applicable Parity Debt is computed on a basis different from the calculation of the variable rate to be received under the swap transaction over the stated term of such swap transaction, the basis risk of the transaction is expected to be minimal based upon historical relationships between such bases.

(B) Fixed-to-floating rate interest rate swap transactions under which the Board would pay an amount based upon a variable rate of interest and the counterparty would pay an amount based upon a fixed rate of interest, with respect to Parity Debt then outstanding bearing interest at a fixed rate and Parity Debt anticipated to be issued in the future that will bear interest at a fixed rate, as applicable. Prior to entering into such transaction an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that converting such portion of fixed rate Parity Debt to a variable rate pursuant to the fixed-to-floating interest rate swap transaction would be beneficial to the System by (i) lowering the anticipated net interest cost on the Parity Debt to be swapped against or (ii) assisting in the System’s asset/liability management by matching a portion of its variable rate assets with variable rate Parity Debt.

(C) Basis swap transactions under which the Board would pay a variable rate of interest computed on one basis, such as the Securities Industry and Financial Markets Association Municipal Swap Index, and the counterparty would pay a variable rate of interest computed on a different basis, such as the London Interbank Offered Rate ("LIBOR"), with respect to a designated maturity or principal
10. U. T. System Board of Regents: Adoption of resolutions authorizing certain bond enhancement agreements for Revenue Financing System debt and Permanent University Fund debt (cont.)

amount of outstanding Parity Debt and Parity Debt anticipated to be issued in the future, as applicable. Prior to entering into such transaction, an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that by entering into the basis swap transaction the Board is expected to be able to (i) achieve spread income or upfront cash payments, (ii) preserve call option and advance refunding capability on its Parity Debt, (iii) lower net interest cost by effecting a percent of LIBOR synthetic refunding without issuing additional bonds or acquiring credit enhancement, (iv) lower net interest cost on Parity Debt by layering tax risk on top of a traditional or synthetic fixed rate financing, (v) preserve liquidity capacity, or (vi) avoid the mark to market volatility of a fixed-to-floating or floating-to-fixed swap in changing interest rate environments.

(D) Interest rate locks, caps, floors, and collars for the purpose of limiting the exposure of the Board to adverse changes in interest rates in connection with outstanding Parity Debt or additional Parity Debt anticipated to be issued in the future. Prior to entering into such a transaction, an Authorized Representative must deliver to the General Counsel to the Board a certificate to the effect that such transaction is expected to limit or eliminate such exposure.

SECTION 5. APPLICATION OF PAYMENTS RECEIVED UNDER BOND ENHANCEMENT AGREEMENTS.

(a) General. Except as further limited by subsection (b) hereof, to the extent the Board receives payments pursuant to a Bond Enhancement Agreement, such payments shall be applied for any lawful purpose.

(b) Payments under Chapter 1371 Credit Agreements. In the event an Authorized Representative elects to treat a Bond Enhancement Agreement authorized by this Resolution as a "credit agreement" under Chapter 1371 and such Bond Enhancement Agreement is executed and delivered pursuant to Chapter 1371, to the extent that the Board receives payments pursuant to such a Bond Enhancement Agreement, such payments shall be applied as follows: (i) to pay (A) debt service on the Parity Debt or anticipated issuance of Parity Debt related to the Bond Enhancement Agreement, or (B) the costs to be financed by the Parity Debt or anticipated issuance of Parity Debt related to the Bond Enhancement Agreement; provided that, if applicable, such costs shall have been approved for construction by the Board and that the applicable projects have received the required approval or review of the Texas Higher Education Coordinating Board to the extent and as required by the provisions of Section 61.058 of the Texas Education Code; (ii) to pay other liabilities or expenses that are secured on parity with or senior to the Parity Debt or anticipated issuance of Parity Debt related to the Bond Enhancement Agreement; or (iii) to the extent that costs set forth in (i) and (ii) have been satisfied, for any other lawful purpose.

SECTION 6. BOND ENHANCEMENT AGREEMENTS IN CONNECTION WITH ANTICIPATED PARITY DEBT.

(a) Requirement to Terminate or Modify Agreement for Non-issuance of Anticipated Parity Debt. In the event a Bond Enhancement Agreement is entered into under this Resolution in connection with the anticipated issuance of Parity Debt and such Parity Debt is not actually issued on or prior to the effective date of such agreement, an Authorized Representative shall either terminate such Bond Enhancement Agreement or amend such Bond Enhancement Agreement in such event to (i) delay the effective date of such Bond Enhancement Agreement; or (ii) replace such anticipated Parity Debt with any then outstanding Parity Debt having the same types of interest rates (fixed or variable) as the anticipated Parity Debt.

(b) Requirement to Terminate or Modify Agreement for Notional Amount in Excess of Anticipated Parity Debt as Issued. In the event a Bond Enhancement Agreement is entered into under this
Resolution in connection with the anticipated issuance of Parity Debt and such Bond Enhancement Agreement has a notional amount that at any time exceeds the principal amount to be outstanding of such anticipated Parity Debt as actually issued, an Authorized Representative shall either terminate such Bond Enhancement Agreement or amend such Bond Enhancement Agreement to (i) reduce the notional amount of such Bond Enhancement as appropriate so that such notional amount does not exceed at any time the principal amount to be outstanding of such anticipated Parity Debt as actually issued or (ii) supplement or replace all or a portion of such anticipated Parity Debt with any then outstanding Parity Debt having the same types of interest rates (fixed or variable) as the anticipated Parity Debt as necessary to ensure that the notional amount of such Bond Enhancement Agreement does not exceed at any time the principal amount of the applicable Parity Debt.

(c) Board Recognition of Anticipated Parity Debt. No Bond Enhancement Agreement may be entered into under this Resolution with respect to the Board’s obligations under an anticipated future issuance of Parity Debt unless such anticipated issuance of future debt shall have been recognized by official action of the Board pursuant to either (i) the Board's prior adoption of a resolution authorizing the issuance of such debt, including, but not limited to, a resolution delegating the parameters of such issuance to an Authorized Representative or a resolution authorizing the issuance of commercial paper notes, (ii) the Board's prior approval of its then current Capital Improvement Program contemplating the financing of the projects to be financed by such anticipated issuance of debt and the amount of such debt to be issued, or (iii) the Board's action pursuant to subsection (e) hereof with respect to Parity Debt anticipated to be issued to refund outstanding Parity Debt.

(d) Required Description of Anticipated Parity Debt. To the extent that a Bond Enhancement Agreement is entered into under this Resolution with respect to the Board’s obligations under an anticipated future issuance of Parity Debt, an Authorized Representative must also deliver to the General Counsel to the Board at the time such agreement is entered into a certificate with respect to such anticipated Parity Debt stating: (i) the anticipated issuance date of such Parity Debt or a range of anticipated dates of up to six months for such issuance, provided that such date or range of dates may not be more than the lesser of seventy-two (72) months after the date of the applicable Confirmation or the latest date contemplated for the issuance of such Parity Debt in the Board’s then current Capital Improvement Program; (ii) whether such Parity Debt will bear interest at a fixed or variable rate; (iii) if such Parity Debt will bear interest at a fixed rate, what fixed interest rate or range of interest rates with respect to such Parity Debt is anticipated; (iv) if such Parity Debt will bear interest at a variable rate, what basis is anticipated to be used to compute such variable rate; (v) the assumed maturity schedule and amortization for such Parity Debt, including the assumed interest cost; (vi) the anticipated purposes for which the proceeds of such Parity Debt will be used; and (vii) for Parity Debt anticipated to be issued for new money projects, a list or description of such projects anticipated to be financed, provided that each such project must be contemplated for financing with Parity Debt by the Board’s then current Capital Improvement Program or have otherwise received Board approval for financing.

(e) Board’s Statement of Intent to Issue Refunding Debt for Savings. If the conditions in this Resolution are otherwise satisfied, the Board hereby authorizes each Authorized Representative to enter into a Bond Enhancement Agreement in connection with Parity Debt anticipated to be issued for the purpose of advance refunding any existing Parity Debt, provided that as certified by an Authorized Representative to the General Counsel to the Board, such new issue of Parity Debt, when taking into consideration the effect of such Bond Enhancement Agreement, is anticipated to result in a present value savings in connection with such advance refunding of at least 3.0% (determined in the manner set forth in a supplemental resolution approved by the Board authorizing the issuance of additional Parity Debt), and in such event, the Board hereby declares its intention to cause such Parity Debt to be issued. No such certification
10. U. T. System Board of Regents: Adoption of resolutions authorizing certain bond enhancement agreements for Revenue Financing System debt and Permanent University Fund debt (cont.)

or declaration shall be applicable in connection with Parity Debt anticipated to be issued for the purpose of currently refunding any existing Parity Debt within ninety (90) days of the date of issuance of such new Parity Debt.

SECTION 7. MASTER AGREEMENTS.

(a) New Master Agreements. Each Authorized Representative is hereby severally authorized to enter into ISDA Master Agreements (the "New Master Agreements") with counterparties satisfying the ratings requirements of the System’s Interest Rate Swap Policy. Such New Master Agreements shall be in substantially the same form as the Executed Master Agreements, with such changes as, in the judgment of an Authorized Representative, with the advice and counsel of the Office of General Counsel and Bond Counsel, are necessary or desirable (i) to carry out the intent of the Board as expressed in this Resolution, (ii) to receive approval of this Resolution by the Attorney General of the State of Texas, if pursuant to Section 2(b) of this Resolution, an Authorized Representative elects to designate any Bond Enhancement Agreement entered into by the Board pursuant to this Resolution as a "credit agreement" under Chapter 1371, (iii) to accommodate the credit structure or requirements of a particular counterparty or (iv) to incorporate comments received or anticipated to be received from any credit rating agency relating to a New Master Agreement. Each Authorized Representative is authorized to enter into such New Master Agreements and to enter into Confirmations thereunder in accordance with this Resolution and in furtherance of and to carry out the intent hereof.

(b) Amendments to Master Agreements. Each Authorized Representative is hereby further severally authorized to enter into amendments to the Master Agreements to allow Confirmations thereunder to be issued and entered into with respect to any then outstanding Parity Debt or Parity Debt anticipated to be issued in the future and to make such other amendments in accordance with the terms of the respective Master Agreements as in the judgment of such Authorized Representative, with the advice and counsel of the Office of General Counsel and Bond Counsel, are necessary or desirable to allow the Board to achieve the benefits of the Bond Enhancement Agreements in accordance with and subject to the System’s Interest Rate Swap Policy and this Resolution.

SECTION 8. ADDITIONAL AUTHORIZATION; RATIFICATION OF SWAP POLICY.

(a) Additional Agreements and Documents Authorized. Each Authorized Representative and all officers or officials of the Board are severally authorized to execute and deliver such other agreements and documents as are contemplated by this Resolution and the Master Agreements or are otherwise necessary in connection with entering into Confirmations and Bond Enhancement Agreements as described in this Resolution, as any such officer or official shall deem appropriate, including without limitation, officer’s certificates, legal opinions, and credit support documents.

(b) Further Actions. All officers or officials of the Board and its agents and counsel are authorized to take all such further actions, to execute and deliver such further instruments and documents in the name and on behalf of the Board to pay all such expenses as in his or her judgment shall be necessary or advisable in order fully to carry out the purposes of this Resolution.

(c) Swap Policy. The Board has reviewed and hereby ratifies and affirms the System’s Interest Rate Swap Policy, a copy of which is attached hereto as Exhibit B.

This Plan may apply to faculty members who do not generate professional income, as determined by the President at the time of appointment or reappointment of the Member.

3.3 **Meeting of the Members.** The Members shall meet in general session at least annually in the fall at a place designated by the President, and at other times at the call of the President. A. In the case of mail ballots, each voter shall receive a plain envelope in which to enclose a marked ballot, and a second envelope addressed to the Secretary to be used for the return of the sealed ballot. The envelope addressed to the Secretary shall have a space for the signature of the voter. Ballots lacking this validating signature shall be deemed void.

Other part-time faculty members may become Members upon recommendation of the department chair and approval of the President or a designee. This Plan may apply to faculty members who do not generate professional income, as determined by the President at the time of appointment or reappointment of the Member.

7.3 Senior Clinical Administrator. The President, in consultation with the Board, shall appoint a Senior Clinical Administrator of the Plan who shall serve as the liaison between the Board and the Members to provide leadership in the development of business and operational strategies related to the Plan. The Senior Clinical Administrator shall oversee the credentialing, quality of care, and patient safety functions of the Plan in consultation with the Chief of Staff of UTHSCT Hospital.

7.4 Business Office. A Business Office shall be maintained for the Plan under the direction of the President or a designee, consistent with the rules, regulations, and policies of The University of Texas System and Institutional policies.

7.4.1 The President, in consultation with the Board, and subject to Regents’ Rules, may contract with an entity to administer the business operations of the Plan, including but not limited to, strategic development, marketing, billing for and collection of professional
fees, contracting for professional services, clinic operations, credentialing, and managed care operations. Contract oversight, reporting, corporate compliance, and financial audit of the entity are the responsibilities of the appropriate officers or committees of the Board. Contracting with an outside entity for billing and collection of professional fees requires the prior approval of the Executive Vice Chancellor for Health Affairs.

7.4.2 Except as provided in section 7.4.1 above, professional fees and Plan-related technical fees shall be centrally billed and collected by the business office for the Plan, in accordance with procedures developed by the Board and applicable policies of The University of Texas System and the Institution. All personnel in the business office who have responsibilities for billing and collection for professional services of the Members shall be under the control of and assigned for personnel matters to the Executive Director or his designee in the Business Office.

7.4.3 All collections received from the professional services of Members and all monies received from other sources of professional income described in section 8.3 below shall be deposited in the Institutional Trust Fund.

the Plan, each Member shall assign all professional income (including any technical component) to the Institutional Trust Fund, including, but not limited to:

A. Professional fees (and any other monies or material considerations provided in the context of medical services to patients) generated for all patient care services rendered by full-time faculty Members regardless of where rendered;

B. Professional fees (and any other monies or material considerations provided in the context of medical services to patients) generated for all patient care services rendered by part-time faculty Members, if such fees are generated in connection with the Member’s appointment;

D. Gifts of cash or cash equivalents provided in the context of patient-care activities.

8.3.2 The following are not professional income and may be retained by the Member:

B. Royalties, defined as shares or proceeds for contributions as authors or inventors, as permitted under The University of Texas System’s copyright and patent policies;

C. Payment for editing scientific publications;

The policy must be approved by the Executive Vice Chancellor for Health Affairs.

8.3.4 Income may be accepted from voluntary and part-time faculty who are not Members of the Plan, at the discretion of the individual, upon the recommendation of the department chair, and approval of the President.

8.3.5 Other income not specifically described above shall be reported to the President or a designee, who shall determine whether such income will be considered professional income.

FACULTY COMPENSATION

9.1 **Components of Faculty Compensation.** The Institution’s Faculty Compensation Plan ("Compensation Plan") is a separate document that describes a process to compensate faculty performance and maintain and enhance faculty excellence in support of patient care, education, and research. The Compensation Plan shall be comprised of three major components with subparts as determined by the President after consulting with faculty as required in section 5.2. The three components are (a) Base Salary, (b) Supplemental Compensation, and (c) Incentive Compensation. The term total compensation refers to the aggregate compensation derived from these three components.

9.1.1 **Base Salary.** Base Salary is that part of a Member’s salary based on a Member’s academic rank. Base Salary shall be designated annually in the Member’s Memorandum of Appointment. Base Salary may be derived from any reasonable method, such as salary survey results by nationally recognized organizations that are commonly relied upon by university health institutions to establish similar types of compensation.

9.1.2 **Supplemental Compensation.** Supplemental Compensation is that part of a Members’ annual fixed compensation stated in the Memorandum of Appointment that is determined by a Member’s area of practice or specialty, administrative duties while performed, and other positions, tasks, responsibilities or contributions that are duly assigned to the Member and for which compensation is not received as either Base Salary or Incentive Compensation.

9.1.3 **Incentive Compensation.** Incentive compensation, if any, is that part of a Member’s compensation for performance that is not fixed and is determined through the application of an established and equitably applied formula that rewards outstanding performance and productivity and also factors in any negative aspects of a Members’ performance or productivity. Incentive compensation may be based on any aspect of a Member's duties, such as teaching, research, public service, clinical productivity, awards of grants or other types of research funding, teaching, service to the institution or any other facet of job performance.

The mission of the Human Genetics Center is to understand the genetic etiology of the common chronic diseases including: cardiovascular disease, diabetes, and various vision disorders. This objective is pursued and accomplished in multiple human populations.

Understanding the genetics of these diseases involves:
• locating and characterizing genes underlying the common chronic diseases,
• characterizing the extent and utility of DNA variation within and among populations and determining how these patterns of variation evolved in both time and space,
• establishing the impact of gene variation on the health of individuals, families and populations.
Legislative Support

The University of Texas School of Public Health received an additional $9.5 million in funding for the biennium, in response to our request to expand the public health education, community service and research capacity at the Houston campus and the regional campuses in Brownsville, San Antonio, El Paso, Austin and Dallas. This special item was financed with funds from the American Recovery and Reinvestment Act (ARRA).
Please join us as we bring the six UT School of Public Health campuses spread across Texas together for the premier event in Houston that celebrates our past, present and future.

U. T. System: Annual Meeting with Officers of the U. T. System Faculty Advisory Council

U. T. System Faculty Advisory Council

Resolution I

It is the view of the University of Texas Faculty Advisory Council that Regents’ Rule 31003, abandonment of academic positions or programs, must be interpreted in the light of Rule 40101 which gives faculty the “major role” in regard to “general academic policies and welfare” and related matters (2. Section 3) and in the light of the further provisions that assign these faculty responsibilities to the faculty governance organization.

Specifically, to assure transparency and maintain confidence in the commitment of the U. T. System and the Board of Regents to the preservation of tenure, academic freedom, and participatory governance, key concepts of Rule 31003 should be interpreted as follows:

I. Clarifications of Regents Rules:

- In Section 3.1 -- Committee evaluating programs and positions. We suggest that the faculty appointments be made from recommendations submitted to the president by the faculty governance body. The faculty should constitute at least 50 percent of the committee.

- In Section 3.2 -- Evaluation of programs. The committee will provide a written report of its analysis of programs.

- In Section 3.3 -- Evaluation of specific positions to be eliminated. The committee will provide a written report explaining individual positions to be eliminated in relation to its assessment of programs.

- In Section 3.5 -- Recommendation. Reasons given for termination, if acted upon, should be provided in the written notice of termination.

- In Sections 3.7 and 3.8 -- Appeals. The Regents’ Rules state that the president should appoint a hearing committee for appeals. This committee should have all faculty membership. If campus policies do not establish an alternative procedure for this purpose, we suggest that the faculty appointments be made from recommendations submitted to the president by the faculty governance body.

II. In specific reference to Section 3, Elimination Due to Financial Exigency, we recommend the following:

- No faculty position should be terminated unless a clear case is made that all other remedies have been considered.

- Every campus shall have a stated policy on termination for exigency that has been approved by the faculty governance organization (placed in the HOP). If there is no such policy, or if the policy does not include the following points, the following should apply:

- Exigency should be clearly explained in financial and budgetary terms (cost and benefits).
U. T. System: Annual Meeting with Officers of the U. T. System Faculty Advisory Council (con’t)

- Terminations should be explained in relation to the campus exigency.
- Faculty involvement in decisions should be substantial.
- The appropriate faculty governance body, as determined by the Faculty Senate/Council, should be involved in decisions.
- The Committee making the recommendations should be independent of administrators making recommendations for termination. For example, if Chairs make recommendations, these recommendations should be reviewed by a unit-wide committee with no less than half of its membership being faculty.
- The president shall choose faculty committee members from a list provided by the faculty governance body.
- There should be due process.
- The written termination notice to the individual should specify the reasons for termination of that individual in relation to the stated exigency.
- Membership of the recommendation committee should be publicly known.
- This entire process should be transparent.
- Faculty positions should not be terminated when the exigency could be remedied with managerial or budgetary changes.
- The process should give discernable preference to faculty with tenure.

It is a basic principle of due process that the principles underlying a rule or standard be applicable in the same way for all who are affected.

Resolution II

The evaluations applied in the U. T. Medical Branch - Galveston case appear to have been based on the interests of the departments rather than the interests of the campus as a whole. The fact that a high proportion of tenured faculty selected for termination at U. T. Medical Branch - Galveston are members of the Academic Senate and the U. T. System Faculty Advisory Council, including the Chair-Elect of the Faculty Advisory Council, suggests that a low value is placed on governance service. The mission of the University requires effective faculty governance, and faculty participation in a wide range of committees under the governance purview. It is essential for effective faculty governance that the several units on a campus make their faculty available to participate in such bodies for the good of the entire campus, and not restrict their evaluation of faculty to the benefits they produce for the individual unit/department alone. Failure to recognize this principle should be regarded as inconsistent with Regents’ Rules recognition of the importance of participatory management involving both faculty and administration.

Resolution III

The U. T. System Faculty Advisory Council strongly opposes any change in law which would expand the ability to carry firearms on campus by any personnel other than law enforcement officers.
