This volume contains the Material Supporting the Agenda furnished to each member of the Board of Regents prior to the meetings held on June 20, and August 1, 1969.

The material is divided according to the Standing Committees and the meetings that were held and is submitted on three different colors, namely:

1. white paper - for the documentation of all items that were presented before the deadline date
2. blue paper - all items submitted to the Executive Session of the Committee of the Whole and distributed only to the Regents, Chancellor, and Chancellor Emeritus
3. yellow paper - emergency items distributed at the meeting

Material distributed at the meeting as additional documentation is not included in the bound volume, because sometimes there is an unusual amount and other times maybe some people get copies and some do not get copies. If the Secretary were furnished a copy, then that material goes in the appropriate subject folder.

EXEC - 10
Academic and Developmental Affairs Committee
ACADEMIC AND DEVELOPMENTAL AFFAIRS COMMITTEE

Date: August 1, 1969

Time: Following the meeting of the Executive Committee

Place: Main Building, Suite 212
       U. T. Austin, Austin, Texas

1. System Administration: Chancellor's Docket No. 33
2. System Administration: Report of University Development Board Activities
4. U. T. Austin: Reorganization of Existing Departments of Required Health and Physical Education for Men and Women
5. Galveston Medical Branch: Exception of Regents' Rules and Regulations, Part One, Chapter III, Section 31 (Mrs. Blanche M. Jacobs)
1. **System Administration: Chancellor's Docket No. 33.** -- In accordance with Regents' Rules and Regulations, Chancellor's Docket No. 33 was mailed to each member of the Board on July 15. The mail ballots are to be returned to the office of the Secretary by the close of business on July 29, 1969. The secretary will report at the meeting the result of the ballots.

2. **System Administration: Report of University Development Board Activities.** -- Below is a report of the activities of The University of Texas System Development Board as reported by its Executive Director, Mr. Blunk:

   a. The University of Texas System Development Board: Gift Reporting:
      Gifts and grants are reported to the Board of Regents routinely through established procedures.

   b. Following the meeting of the Board of Regents at Galveston on June 20, 1969, these members of the Development Board have been notified of their reappointments to new terms on the Board beginning September 1, 1969:

      Mrs. Eugene McDermott  
      J. Mark McLaughlin  
      E. G. Morrison  
      B. D. Orgain  
      John P. Thompson  
      Gus S. Wortham

   c. Littlefield Home restoration: Progress:
      Nine antique bronze Victorian chandeliers were installed on first floor ceilings of the Littlefield Home in July. These authentic, handsome chandeliers are a major decorating addition to the restoration of the first floor. Another major addition is due soon. An antique Napoleon III 12-piece parlor suite is currently being reupholstered in Austin and will be delivered to the Littlefield Home upon completion.
      The decorator, Arthur Pope Watson, Jr., has indicated that this suite will adequately furnish both the front and back parlors. This spring members of the Development Board, U.T. Foundation, Inc., and Executive Committee of The Chancellor's Council received a detailed progress report on the Littlefield Home restoration including a listing of items needed to complete it. It is believed that additional gifts of funds, furnishings and fixtures may be forthcoming.

   d. The following Development Board-related meetings have been reported previously and remain as scheduled:

      September 18 - Dallas - Development Board Executive Committee  
      October 3 - Austin - The Chancellor's Council  
      October 4 - Austin - Development Board  
      November 1 - Dallas - U. T. Foundation, Inc.
Below is a Xerox copy of the Administration's recommendation with respect to the proposal of the Graduate Assembly of The University of Texas at Austin:

The following actions were taken at the May 5, 1969, meeting of the Graduate Assembly. President Hackerman recommends that these actions be approved by the Board of Regents. Deputy Chancellor LeMaistre and Executive Vice-Chancellor Singletary concur in the recommendations.

2. Establishment of an optional program in the College of Engineering whereby the thesis requirement may be waived in individually approved Master's degree programs.

3. Change of present title Master of Science in Industrial Engineering to Master of Science in Operations Research and Industrial Engineering (no change in program).

4. Change in present title Master of Science in Home Economics to Master of Arts with a major in Nutrition.

5. Expanding the use of "Credit/No Credit" grading system to Master's degree programs for up to 20 per cent of the required courses for a Master's degree program.

6. Change in use of grade symbol X, so that if a student fails to complete the course requirements within a specified period, the X will remain on the record instead of automatically being changed to an F as required under present regulations.

7. Recommendation to reapportion and elect members to the Graduate Assembly in 1970, to comply with Regents' Rules and Regulations adopted November 1, 1968.

Upon approval of the above recommendations, the appropriate items (Items 1, 2, 3, and 4) will be reported to the Coordinating Board.

Deputy Chancellor LeMaistre concurs with the recommendation of President Hackerman and The University of Texas at Austin Faculty Council that the existing departments of required health and physical education for men and required health and physical education for women be reorganized into the Department of Physical Instruction in the College of Arts and Sciences. The reorganized department will also contain programs in physical and occupational therapy.

If approved by the Board of Regents, it will be reported to the Coordinating Board for information.
Deputy Chancellor LeMaistre concurs in the recommendation of President Blocker that an exception be made under Sec. 31.(18) of Chapter III, Part One, of the Regents’ Rules and Regulations in the case of Mrs. Blanche M. Jacobs, who has reached her seventy-first birthday, in order that she may be allowed to continue in her position as Housemother (Assistant Social Director) for the 1969-70 fiscal year.

President Blocker’s letter of June 24, 1969 in support of this recommendation follows:

June 24, 1969

Dr. Harry H. Ransom
Chancellor
The University of Texas System
Austin, Texas 78712

Dear Dr. Ransom:

Mrs. Blanche M. Jacobs has been employed as a Housemother (Assistant Social Director) in one of our dormitories since August 1, 1957. She has performed exceptionally well in directing and counseling the student nurses and has exhibited for these students the quality of leadership required of someone in this position. Mrs. Jacobs has reached her seventy first birthday during this fiscal year. She continues to enjoy good health and has expressed a desire to be permitted to continue on in this position.

Because of the nature of this position which requires the incumbent to live in the dormitory making her available to the occupants at all times, Mr. Marvin Hawkins, Director of Auxiliary Enterprises, recommends that Mrs. Jacobs be permitted to continue on in this job for another year on a full time basis. Because of her knowledge and ability, she will be invaluable in this position.

I concur in Mr. Hawkins' recommendation and respectfully recommend that we be permitted to employ Mrs. Jacobs during the next fiscal year on a full time basis.

Sincerely,

Truman G. Blocker, Jr., M.D.
President

It is further recommended by Chancellor Ransom and Deputy Chancellor LeMaistre that the Board instruct The University of Texas at El Paso and The University of Texas at Arlington (and all other general academic institutions) to comply with the action of the Coordinating Board by the fall of 1973 with the understanding that each of the general academic institutions submit for Board approval a proposed calendar.

It is further recommended that the Administration be instructed to submit prior to the fall of 1973 to the Coordinating Board, Texas College and University System proposed calendars for the medical components which are exceptions to the action of the Coordinating Board. (See Page 5d, Item 1.) The medical components as of this date consist of the medical units, the Public Health School, the Dental School, G.S.B.S., and the nursing units.

Background:

The calendar for the 1970-71 long session for The University of Texas at Austin as set out above was passed by the General Faculty and recommended by President Hackerman and Vice-Chancellor Singletary to the Board of Regents at its meeting on March 14, 1969. However, the Board postponed action on the proposed calendar until the Coordinating Board, Texas College and University System had given final consideration to an adoption of a common calendar for public junior and senior colleges in Texas.
Action of Coordinating Board:

The Coordinating Board at its meeting on July 21, 1969, approved the following recommendations:

1. That between the Fall of 1969 and the Fall of 1973, all public junior and senior colleges and universities shall have adopted the standard calendar. (Exceptions for certain specialized units, i.e. medical, dental, veterinary medicine, etc. shall be made through the Coordinating Board)

2. That beginning with the Fall semester of 1973 the standard calendar will be as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>First class day, Fall semester</th>
<th>First class day, Spring semester</th>
<th>Summer session registration begins Monday</th>
</tr>
</thead>
<tbody>
<tr>
<td>1973-74</td>
<td>Sept. 4</td>
<td>Mon., Jan. 14</td>
<td>June 3</td>
</tr>
<tr>
<td>1974-75</td>
<td>Sept. 3</td>
<td>Mon., Jan. 20</td>
<td>June 2</td>
</tr>
<tr>
<td>1975-76</td>
<td>Sept. 2</td>
<td>Mon., Jan. 19</td>
<td>May 31</td>
</tr>
<tr>
<td>1977-78</td>
<td>Aug. 29</td>
<td>Mon., Jan. 16</td>
<td>June 5</td>

<tr>

<td>June 4</td>
</tr>
<tr>
<td>1979-80</td>
<td>Sept. 4</td>
<td>Mon., Jan. 14</td>
<td>June 2</td>
</tr>
</tbody>
</table>

3. That beginning with the Fall semester of 1969, those institutions that desire to adopt a common calendar immediately, use the following:

<table>
<thead>
<tr>
<th>Year</th>
<th>First class day, Fall semester</th>
<th>First class day, Spring semester</th>
<th>Summer session registration begins Monday</th>

<td>Sept. 5</td>
<td>Mon., Jan. 15</td>
<td>June 4</td>
</tr>
</tbody>

* First class day will be understood to mean "during the week of."

4. That all private junior and senior colleges and universities shall be immediately notified of the action taken by the Coordinating Board on the Common Calendar.

5. That it should be made clear in contracts or letters of agreement with staff and faculty that salaries and wages will be paid a specified number of times for the semester or the academic year, the first payment being made on or about October 1.

6. That tuition and other income collected from students for the Fall semester should be reported as income for that fiscal year beginning September 1, regardless of when the income was actually received.

7. That a semester normally include fifteen weeks for instruction and one week for final examinations. The last day for any Fall or Spring semester will usually be sixteen weeks plus holidays from the first class day unless that last day falls on Sunday or Monday, in which case the last day will be the preceding Saturday. The last date in a fall semester will be no later than December 22. Each of the two summer terms should include at least six calendar weeks, including registration, instruction, and final examinations. Colleges and universities may schedule summer enrollment periods longer or shorter than six weeks, but the amount of credit must be proportional.
8. That each college and university shall establish its own dates for registration, holidays, final examinations, and the end of each semester and summer term, consistent with Items 2 and 7 above.

9. That the Texas Education Agency be notified of the calendar adopted and be encouraged to study the possible further coordination of school calendars.

10. That nothing in these recommendations shall be interpreted to preclude experimentation and innovation by any institution looking toward fuller utilization of facilities on a year-around basis.

11. That the staff of the Board initiate studies in conjunction with the institutions, looking forward to a fuller utilization of facilities. These studies will include, but will not be limited to, an examination of trimester and quarter systems.
7. U. T. Austin: Change in Use of Income From Amanda Stoltzfus Memorial Trust Fund. —Chancellor Ransom and Deputy Chancellor LeMaistre concur in the recommendation of President Hackerman that the purpose of the Amanda Stoltzfus Memorial Trust Fund originally "for the use and benefit of the child welfare movement at The University of Texas" be changed as follows:

1. The income earned on the endowment from September 1, 1969, shall be used for the purpose of scholarships to students majoring in Home Economics;

2. The basis for award shall be scholastic ability and financial need;

3. The committee on award shall be the committee on Financial Aid to Students through the Student's Financial Aids Office.

Below is Attorney Waldrep's opinion with respect to this trust which also delineates the details relating to the trusts' establishment:

The Amanda Stoltzfus Memorial Trust Fund was accepted on October 21, 1939, pursuant to the provisions of the will of R. E. Stoltzfus, deceased, and an agreement with C. B. Stoltzfus and C. W. Moulden, dated October 10, 1939. The purpose of the trust fund is "... for the use and benefit of the Child Welfare Movement at The University of Texas. We request The University of Texas to accept this trust and to make of it a permanent and appropriate memorial to the memory of Amanda Stoltzfus, deceased, as it may be able to accomplish in the due and proper administration thereof for the benefit of the child welfare movement in Texas."

It is now proposed to utilize the income earned from the trust for scholarships to students majoring in Home Economics, such scholarships to be predicated on scholarship ability and financial need. This is an effort to relate the fund to the Mary E. Gearing bequest for Child Welfare and Parent Education Foundation. This fund has not been utilized since its acceptance, and it is our opinion that the terms of the will and the agreement are sufficiently broad in scope to warrant the use of the income for the desired purpose; provided, however, that such use has the approval of the Board of Regents of The University of Texas System. It is assumed that regental approval will be obtained either by a docket or agenda item.

The principal balance in the fund as of June 30, 1969, was $3,149.54.
It is attached.

This is to request permission to re-appoint Miss Elisabeth D. Runge, Consultant Librarian, on a part-time (1/5 time) basis for the 1970 Fiscal Year, at a salary of $1,848.00 per annum.

During the past year Miss Runge has devoted a great deal of time to the History of Medicine Collection, and with the acquisition of other medical libraries Miss Runge's services in cataloging will provide very valuable assistance to our library staff.

10. **U. T. Austin: Recommended Operating Policies of the Division of Housing and Food Service.**—Below is a Xerox copy of the Administration's recommendation with respect to the assignment of spaces in dormitories and with respect to room deposit:

Since May 22, 1965, the policy of the Board of Regents has been that freshmen girls had priority on 1000 spaces in women's dormitories and the Athletic Department had priority on 212 spaces in men's dormitories. It is recommended that, effective September 1, 1969, all dormitory space assignment be governed by the date of application rather than a predetermined priority, except that the priority of the Athletic Department be increased to 242. Since there is now adequate housing to accommodate all freshmen girls to live in dormitories, the schedule of priorities is not required.

When the dormitory room deposit was increased to $50.00 in November, 1966, the Board of Regents subsequently directed that $30.00 be applied to the first payment for rent or room and board. The Director of the Division of Housing and Food Service indicates that this policy causes a great deal of confusion among both the students and parents. Further, it greatly compounds the accounting problems. It is recommended by President Hackerman and Vice-President Colvin, and concurred in by Executive Vice-Chancellor Walker, Deputy Chancellor LeMaistre and Chancellor Ransom, that the entire $50.00 deposit be held as a room assurance deposit until the student leaves University housing.

11. **U. T. Austin: Rates for Student Co-Op Housing System.**

Chancellor Ransom, Deputy Chancellor LeMaistre, and Executive Vice-Chancellor Walker concur in the recommendation of President Hackerman and Vice-President Colvin that the following rental rates be approved for the Student Co-Op Housing System:

1. Six old units - each with a student capacity of 17 - at a monthly rental of $208.00 per month for 11 months. The current cost is $160.00 per month.

2. Four new units - each with a student capacity of 20 - at a monthly rental of $380.00 per month for 11 months.

3. Two new units - each with a student capacity of 18 - at a monthly rental of $340.00 per month for 11 months.

The primary reason for the variation in rates of the co-ops is that the new co-ops are furnished with a range, oven, disposal, dishwasher and air conditioning. In the older buildings the students have to furnish these items and the buildings are not air conditioned.
President Hackerman has reported to the System Administration on the deliberations of the UT Austin Faculty ad hoc Committee on Ethnic Studies and recommends that three of the committee's recommendations be sent to the Coordinating Board. These recommendations (copy of complete report on Page 14) point up the fact that the problem of remedial education is essentially statewide and not limited to UT Austin. The three recommendations are excerpted as follows:

From A. (7) That the University, in view of its teaching and research needs, explore in conjunction with existing centers serving minority groups in East Austin the possibility of developing adequate facilities servicing these four important University needs: (d) to establish pre-University training programs and student tutoring designed to remove deficiencies in preparation of students desiring to continue to higher education, whether at The University of Texas at Austin or elsewhere.

From E. Special Educational Services and Policies. It is already University practice to provide tutoring services to students in courses where this is appropriate, and to provide opportunities for further practice or instruction in skills prerequisite to college work (as for example in existing pilot programs in computer-assisted instruction). The increased recruiting of minority students will expand the need for such services and will make other related services desirable, because many such students will come from high schools in which little effort is specifically directed toward college preparation. This is the general basis for the recommendations below. Obviously the benefits from the suggested services and procedures are not confined to ethnic minority students. In addition, the list of recommendations contains several which assume that the University will continue a well-supervised experimental program for a selected group of students who do not meet all usual entrance requirements, such as the Program for Educational Opportunity. It is assumed that the goal of all the special services is to assist students in doing regular University course work, and that no reduction in academic standards in courses is contemplated. We recommend

(4) That careful study be made concerning the feasibility of a special six-week summer program for students who wish to enter the University, but who have inadequate educational backgrounds.

Remedial summer programs might be modeled along the lines followed by law schools throughout the state for prospective students who are deficient in preparation. Programs of this sort might well be conducted at centers throughout the state as well as on the University campus. A cooperative effort with other Texas
institutions of higher education would be desirable. Not all students would enroll at the University, and many might find post-high-school education other than college a wiser course of action. A special summer program would make housing arrangements for the students which would facilitate its success, and supporting services, including testing, counseling, financial assistance, group activities, etc.

From I. Funding Recommendations, We recommend

(6) That the Administration, the Director, and the Ethnic Minority Affairs Committee work with other Texas colleges and universities and with the Coordinating Board to develop a broad state program to meet what is basically a state problem.

For next year, special efforts by interested and concerned individuals and allocations of University funds in what may well be a tight budget situation must provide the basic financing. For the future, the state and federal government must be the sources of continuing financial support.

The UT Austin faculty committee report states that the committee is well aware that the matter of remedial education is not limited to ethnic minority students; but the committee's charge was only to submit recommendations concerned with ethnic studies and needs of ethnic minority students.

Chancellor Ransom and Deputy Chancellor LeMaistre concur in President Hackerman's conclusion that the broad problem of responsibility for remedial education (for ethnic minorities as well as other students) deserves study at the statewide level, and they, therefore, request approval of the Board of Regents to send the explanatory letter (set out below) to the Coordinating Board. In view of the specific elimination of support for college-level remedial work by the 60th Texas Legislature, determination by the Coordinating Board of the intent of the Legislature with regard to future funding of such remedial work is of first importance.
The Honorable Bevington A. Reed  
Commissioner of Higher Education  
Coordinating Board, Texas College and University System  
201 East 14th Street  
Austin, Texas 78701  

Dear Dr. Reed:

President Norman Hackerman has forwarded certain recommendations of The University of Texas at Austin Faculty Council pertaining to remedial education needs of pre-college students. President Hackerman recognizes that the issue of remedial education deserves consideration on a statewide basis. The System Administration concurs in this analysis and requests consideration by the Coordinating Board of remedial education and its relevance to higher education.

One point for special concern is the availability of Legislative financial support for such programs, whether the programs are called remedial, special tutorial or compensatory. The elimination of support for college-level remedial work by the 60th Texas Legislature necessitates determination by the Coordinating Board whether remedial programs at the college level are likely to receive favorable consideration in future Legislative appropriations. Other topics for consideration are the role of the junior college and the possible effect on the core curriculum for the junior college transfer students, course credit, student aid eligibility and the interest and responsibility of the Texas Education Agency.

I am aware of the complexity of this issue. Because of the importance of remedial education and its many ramifications, I hope that the solutions to these many problems will be achieved through the interest and leadership of the Coordinating Board.

Sincerely yours,

Charles A. LeMaistre, M.D.  
Deputy Chancellor
REPORT AND RECOMMENDATIONS OF THE FACULTY AD HOC COMMITTEE ON ETHNIC STUDIES

Introduction. This report has been prepared at the request of President Norman Hackerman by the Faculty Ad Hoc Committee on Ethnic Studies, which consists of the members of the Faculty Council having administrative duties no higher than those of department chairman. At its first meeting, on March 12, the President charged the Committee to study certain aspects of proposals which had been brought to him on February 27 by a group including members of the Afro-Americans for Black Liberation. At subsequent closed organizational meetings, the Committee elected its own officers (A. Wilson Nolle, Chairman, and Murray C. Havens, Secretary) and agreed on procedures. It was decided that the charge to the Committee, as discussed with the Committee by President Hackerman, would be interpreted as consisting of the following parts: (1) To determine the academic validity of changes in the curriculum to accommodate new study programs related to ethnic minorities. (2) To consider how students of ethnic minority groups can fit into the University with a minimum of stress and tension. (3) To consider remedies for inadequate educational background. (4) To consider the problem of recruitment, admission, and financial support for the student capable of college work but without adequate means. (5) To consider financial means. Each of these topics was referred to a specific subcommittee, with the stipulation that the subcommittees should hold open hearings, and should present their findings to the entire ad hoc committee at an open meeting. The respective chairmen of the subcommittees were David V. Edwards, Richard P. Swallow, Gordon V. Anderson, Norris G. Davis, and F. Lanier Cox.

The Committee and the subcommittees have consulted with students and faculty on our own campus and have studied programs on other campuses, including Yale, Harvard, Berkeley, Indiana, and Washington. The study has benefited from consultation with the Arts and Sciences Committee now working under Professor James Ayres, with the American Studies Committee, with Professor Ira Issac of the Counseling-Psychological Center, with Dr. Paul Kelley of the Measurement and Evaluation Center, with those involved in the Program for Educational Opportunity, with those involved in the Council on Legal Education Opportunity, with students working in Project INFO, and with faculty in the Latin American Studies Institute. Professors Henry Bullock, Eliseo G. Navarro, Ervin S. Perry, and Santos Reyes served as consultants to the Committee, and Mr. Reynell Parks, Visiting Lecturer.

On April 18, President Hackerman asked that the Committee also study proposals just delivered to him by the Mexican-American Student Organization. As the Committee had interpreted its original charge as including the interests of Mexican-American students, these proposals were immediately considered by the subcommittees, some of which also consulted in further meetings with students and faculty informed on Mexican-American problems.

It is apparent from the topics studied by the subcommittees that the Ad Hoc Committee has understood that its responsibility is to make recommendations specifically concerned with ethnic studies and with the needs of ethnic minority students. Therefore, although it is evident that certain of the recommendations might apply also to students not belonging to ethnic minorities, such extensions are not discussed in this report. In the present situation, however, the Committee finds that the needs for those things it has recommended are especially strong for students belonging to ethnic minorities.

The Committee has not attempted to make detailed recommendations on the matters of organization and administration that will arise in implementing the program. We do, however, recommend in Section H the establishment of an Ethnic Minority Affairs Committee of faculty which will operate continuously to deal with problems of implementation, working with a Director of Ethnic Minority Programs, a full-time position whose establishment we also recommend.

A. Academic Programs: Recommendations Concerning Curriculum and Research

1. That adequate treatment of the Afro-American and Mexican-American experience be made a part of existing courses where it is relevant.
2. That courses on Afro-Americans and their foreign antecedents and on Mexican-Americans be added where there are presently none or not enough, designed for the needs of students belonging to ethnic minorities.
to meet three related and sometimes overlapping needs: (a) those of majors in African-American or Mexican-American studies; (b) those of members of the ethnic minorities seeking greater knowledge of their heritage and present conditions; and (c) those of all students seeking knowledge of American ethnic minorities as an important part of liberal education.

(3) That those schools and colleges in which study of the Afro-American and Mexican-American experiences may play a significant role and can provide a coherent focus consider establishment of majors or concentrations in Afro-American and in Mexican-American studies. We recommend that each such school or college establish a special standing committee representing all involved subjects and stressing the importance of having representatives of these ethnic minorities.

Specifically, we recommend that the College of Arts and Sciences establish an ethnic minority studies program providing a major in Afro-American studies (allowing selection by the student of either of two concentrations: African and international, or Afro-American and predominantly urban), and a major in Mexican-American studies. A major in Afro-American or Mexican-American studies would provide educational preparation for those who desire careers in public service, industry, or municipal, state or federal government work, as well as for those intending ultimately to enter teaching, research, or other professions concerned with these ethnic minorities.

We also recommend that the opportunity be created for majors in conventional disciplines to select an Afro-American or a Mexican-American interdisciplinary emphasis in their programs by replacing some of their required major hours with courses on the Afro-American or Mexican-American experience from other departments or schools, if they also take as part of their major the relevant courses offered by their major department.

(4) That recruitment of Afro-American and Mexican-American faculty be given very high University priority. In view of the great difficulty of locating and hiring minority faculty, an intensive search for candidates should be made among professors, graduate students, and persons from the various professions with relevant experience and knowledge. Special funds should be made available to departments for the recruitment and employment of minority faculty. Hiring should concentrate on those disciplines whose subject matter deals in part with Afro-Americans and Mexican-Americans, but it is important to have minority faculty in other disciplines as well.

(5) That the administration encourage and sponsor exchange programs for both faculty and students of Black American schools, of African schools, and of predominantly Mexican-American schools, expanding upon programs such as the recently established student exchange with Makerere University of Uganda.

(6) (a) That the University establish and fund a research institute similar in responsibilities and facilities to the Institute for Latin American Studies, to oversee and encourage the conduct of research into the Afro-American experience and its cultural and historical antecedents, to expand the library resources of the University in this field, and to develop a graduate degree program of Afro-American studies as resources and curriculum develop.

(b) That the University establish and fund a similar research institute to oversee and encourage the conduct of research on the Mexican-American experience, library resources in this area are substantial, but will require augmentation. We recommend that this institute consider establishment of a graduate program in Mexican-American studies as interest and curricular resources develop, perhaps in collaboration with the Institute for Latin American Studies.

(7) That the University, in view of its teaching and research needs, explore in connection with existing centers serving minority groups in East Austin the possibility of developing adequate facilities servicing these four important University needs: (a) to function as a research field station for the various schools, departments and individuals involved in research not only on the conditions in the community but also on problems of linguistics, academic retardation, etc.; (b) as a teaching field station, so that classes studying the situation of ethnic minorities in the cities can conduct at least part of their investigation directly in the community and can take advantage of the resources the community can offer; (c) to develop extension teaching programs (to be distinguished from courses carrying University credit) in which residents of Austin desiring further education could have the benefit, not just of possible federal, state, and city programs, but also of University contributions to such efforts in a way that might serve the University by providing opportunities for practice teaching in minority communities; and (d) to establish pre-university dentals and student tutoring designed to remove deficiencies in preparation of students desiring to continue to higher education, whether at The University of Texas at Austin or elsewhere.

It is sometimes argued that the University of Texas has no more business establishing something in East Austin than it does in East Houston or Plainview. We are in accord that it would be desirable to expand and diversify the University's facilities for field work of both research and remedial teaching to other cities. But clearly before such extension can be effectively achieved, programs
must be developed and tested. We believe that this proposed facility in East Austin would serve as a very helpful—indeed essential—pilot, not only for possible future University programs in other cities, but perhaps even more importantly for other state schools which may wish to engage in similar activities in their own cities.

B. Recruiting of Students from Ethnic Minority Groups. To serve the entire population of the State, the University must develop a strong program of recruiting ethnic minority students capable of college work. This program must overcome a long-standing reluctance of these students to undertake University study programs, and the failure of many high schools to present the prospect of University study to them as advisable or feasible. We recommend

1. That the University actively seek financial support for continuing recruitment programs. Among the essential programs are (a) visits to high schools by University students and others with whom the high school students easily identify, as well as by faculty or counselors. (b) Organization of conferences with the principals and counselors of secondary schools with large numbers of disadvantaged students. (c) Visits of prospective students to the campus. We enthusiastically endorse the recruiting programs of Project INFO, of PEO, and of CLEO,* and hope that their programs will have increasing support from the entire University community.

C. Admission Policies. Discussions with the Measurement and Evaluation Center and reports on the Program for Educational Opportunity have indicated to the Committee that there exist students in ethnic minority groups who are capable of doing college work, but who are not evaluated by the SAT as having this capability. Some of these students may initially have particularly great need of the scholastic help recommended elsewhere in this report, but the need for scholastic help is not confined to students whose SAT scores are unrepresentatively low. To provide for the admission of capable students on the basis of evaluations other than the standard SAT, we recommend

1. That the Program for Educational Opportunity be continued.
2. That the early admissions program begun in 1963 be continued and more widely publicized, and coordinated with a scholarship program.
3. That consideration be given to modifying the minimum performance standard in the early admissions program to nine semester hours passed with a grade of C.
4. That tests and other predictive instruments and techniques appropriate to the student's culture, which will evaluate his potential for college work, be developed.
5. That every effort be made to admit only those students for whom there is a reasonable expectation of doing satisfactory University work.

D. Sustenance of Students. Many ethnic minority students who are capable of college work need financial assistance, or other sustenance which reduces the expense of attending the University. So that the University population may become more representative of the ethnic composition of the State of Texas, we strongly recommend

1. That a program of first-year scholarships covering up to full expenses for needy ethnic minority students be established. We urge that the initial goal be to provide at least 100 such scholarships.
2. That scholarships or grants sufficient to pay tuition and other fees be made available to ethnic minority students requiring such assistance in their other college years.

*Project INFO is a program originated by students in the fall of 1968, under which volunteer students, faculty and community representatives visit high schools and students in disadvantaged areas to provide information concerning higher education, and to encourage qualified students to apply for admission to the University. The plan is sponsored by the Students Association of The University of Texas at Austin, but is expected to become affiliated with the Office of Student Financial Aids of the University, through which the INFO group wishes also to provide financial aid to students from disadvantaged areas.

The Program for Educational Opportunity (PEO) of the University of Texas at Austin, originated in 1968, assists educationally, culturally, and financially disadvantaged students who appear capable of succeeding in college on the basis of recommendations and interviews, but not necessarily on the basis of conventional entrance examinations. After admission, students receive extensive counseling and tutoring. Financial support for the students has come both from private foundations and from Federal grants. The program was activated in the fall of 1968 with a group of 25 students.

The Council on Legal Education Opportunity (CLEO), a national group established by the Association of American Law Schools and by professional association, recruits and financially supports law students from ethnic minorities. Regional summer institutes are provided for students selected for the program who do not meet all admission requirements.
(3) That the Ethnic Minority Affairs Committee described in Section H of this report shall make every effort to prevent discrimination in the rental of housing. Our conversations with minority students have revealed that such discrimination not only discourages students from remaining at the University, but increases their living costs significantly.

(b) That the University continue to provide low-cost accommodations by maintaining dormitory facilities without air conditioning and other luxury features, and by adding more such facilities as demand warrants.

(5) That increased effort be made to provide part-time jobs for minority students. In particular, it is urged that University divisions and facilities identify needs for additional services which could be performed by part-time student helpers, and that general University funds be provided to pay for student help in these situations. In addition, we recommend elsewhere in our report (see Sec. F) the establishment of jobs such as peer counselors for which members of minority groups will have special qualifications.

E. Special Educational Services and Policies. It is already University practice to provide tutoring services to students in courses where this is appropriate, and to provide opportunities for further practice or instruction in skills prerequisite to college work (as for example in existing pilot programs in computer-assisted instruction). The increased recruiting of minority students will expand the need for such services and will make other related services desirable, because minority students will come from high schools in which little effort is specifically directed toward college preparation. This is the general basis for the recommendations below. Obviously the benefits from the suggested services and procedures are not confined to ethnic minority students. In addition, the list of recommendations contains several which assume that the University will continue a well-supervised experimental program for a selected group of students who do not meet all usual entrance requirements, such as the Program for Educational Opportunity. It is assumed that the goal of all the special services is to assist students in doing regular University course work, and that no reduction in academic standards in courses is contemplated. We recommend

(1) That measures be taken to identify as early as possible those students who are having difficulty with their academic work, or those who are likely to have difficulty. Among these measures should be

(a) Placement examinations in English, Mathematics, Foreign Languages, and Reading Skills available for all entering students, and required of students who fall below levels on admission variables to be determined by the Measurement and Evaluation Center.

Initially, students scoring below a minimum level (tentatively suggested as 500) on the verbal section of the Scholastic Aptitude Test should be required to take the placement and diagnostic tests in Language Usage, English Composition, and Reading and Study Skills; those falling below a minimum level (tentatively 500) on the mathematics section of the SAT should be required to take appropriate diagnostic and placement tests in mathematics.

Entering freshmen who fail to achieve satisfactory scores on the placement tests should be required to take appropriate courses, e.g., English 601a, Mathematics 301 or 304, Foreign Language 406, etc. Those diagnosed as poor in reading and/or study skills should be referred to the Reading and Study Skills Laboratory.

(b) For all introductory courses taken by freshmen, each department should establish a standard of accomplishment which all students should meet at a certain point in the course, set as early as possible, but in no case later than the sixth week of the semester.

(2) That the Program for Educational Opportunity be recognized as an official University program, and that it be headed by a Director appointed by the President of the University of Texas at Austin. The Director shall be an ex officio member with vote of the Ethnic Minority Affairs Committee and shall be aided by a faculty-student advisory board appointed by him with the advice and consent of the Ethnic Minority Affairs Committee. In connection with this program, we recommend that the University

(a) Provide an intensive two-week orientation just prior to the beginning of the fall semester. To regular freshman orientation week activities would be added introduction to university classroom procedures, including examination and grading practices, seminar in abstract thinking, instruction in communication skills, discussion groups on university curricula, vocational opportunities, etc.

(b) Provide a personal academic advisor (faculty) for each student.

(c) Provide student counselors for all students in the Program, as described in Section F. Student counselors should be paid for their services in the Program, and should be chosen and assigned so as to maximize the effectiveness of the relationship.

An orientation and training program for student counselors should be provided.

(d) Provide that grade reports be regularly received by the Program office.

A & D - 17
(e) Provide tutoring for English 601a and 601b, and for other courses which have been found to be particularly difficult for these students. Tutors should be paid from Program funds, and students should be required to attend tutoring sessions if failure notices are received.

(f) Provide that progress of the students in the Program be under continuous study by the Measurement and Evaluation Center staff, and that continuation and/or modification of the Program take into account its effect on the students and their progress in comparison with students regularly admitted to the University.

(g) Provide for reduced course load for students in the Program, in the freshman year (perhaps nine hours, or not more than 12 hours of regular work, with three to six hours of remedial work as needed). It is assumed that students entering the University at a disadvantage on account of inadequate educational background will spend more than eight semesters in completion of a baccalaureate degree.

(3) That educational assistance aids be provided for all students brought into the University by special recruitment programs among minority groups, and for all other students having academic difficulty or who anticipate difficulty.

(a) A more rigorous system should be devised for reporting midsemester grades of all freshmen in the University. The Registrar should provide instructors with a mid-semester grade report slip for every first-semester freshman for every course. This card should give the name of the student, course and section, with space for indication of pass/fail (or pass/D/fail). Cards should be addressed to the respective Deans, and information transmitted by each Dean to the student’s faculty advisor.

(b) Students who are doing unsatisfactory work should be referred by the appropriate dean to a faculty advisor and a student counselor. The department should inform the student of the name of his faculty advisor for this purpose, who will be informed about all tutorial and counseling aids available. The student counselors should be upperclassmen or graduate students in the department. Each department should provide the names of such students at the beginning of each term. These advisors should confer with the student who is having difficulty in order to determine the source of the trouble, and to offer suggested solutions.

(c) Paid tutors are to be provided for all freshman courses in which substantial failure rates are encountered. Small-group tutoring should be investigated.

(d) Psychological and vocational testing and counseling should be provided for all second-semester freshmen who have had academic difficulty during the first semester.

(e) Modular self-paced programs of individualized education should be developed to assist in the diagnosis of educational skills and the improvement of skills, e.g., in mathematics, chemistry, etc. Computer-assisted instruction in particular should be considered and advanced for this purpose.

(f) Any student identified as under-prepared for academic work should be advised to reduce his course load to a maximum of twelve hours, and possibly less if he is deficient in more than two courses.

(4) That careful study be made concerning the feasibility of a special six-week summer program for students who wish to enter the University, but who have inadequate educational backgrounds.

It is assumed that the University will continue to hold high standards for admission, and make relatively few exceptions to this. It has been the settled policy of the University to raise the standards of work, to provide courses of high caliber, and to admit a student body capable of doing high-quality academic work. To admit students into this community who lack the necessary potential, or who are inadequately prepared, is to invite frustration, resentment and discouragement, unless active measures are taken to prevent difficulty.

Remedial summer programs might be modeled along the lines followed by law schools throughout the state for prospective students who are deficient in preparation. Programs of this sort might well be conducted at centers throughout the state as well as on the University campus. A cooperative effort with other Texas institutions of higher education would be desirable. Not all students would enroll at the University, and many might find post-high-school education other than college a wiser course of action. A special summer program would make housing arrangements for the students which would facilitate its success, and supporting services, including testing, counseling, financial assistance, group activities, etc.,

(5) That student services which are helpful for alleviation of academic difficulties be well publicized, and referral procedures refined so that when students get into difficulties they will have ready access to services which are needed.
F. Counseling and Advisory Services. We recommend:

1. That counselors from ethnic minority groups be added to the staff of the Counseling-Psychological Center.

2. That part-time student counselors from minority groups be employed, to give to less experienced students the kinds of advice and guidance appropriately given by more experienced peers, and to encourage students to call on the services of professional counselors when this is warranted. These student counselors are comparable in some respects to dormitory counselors employed in the past, and some may be attached to dormitories, but it is essential that others be available on the campus, for students not living in University housing.

3. That the Ethnic Minority Affairs Committee endeavor to establish a panel of qualified attorneys who have indicated their willingness to consult with students (who are unable to employ counsel) on legal matters.

G. Further Recommendations Pertaining to the Quality of Student Life.

Several of the recommendations already made are expected to improve the quality of life at the University for minority students. The recruitment of additional students from ethnic minorities will help to alleviate a feeling of isolation now expressed by many minority students, and attributed in part to their disproportionately small number on the campus. This feeling of isolation is expected also to diminish as additional faculty and staff members are added from ethnic minorities. Further sense of identification and purpose is likely to be found by those students who participate in the proposed off-campus teaching and research programs. Nevertheless, the Committee has heard from a significant number of students a strong desire for something more in this area.

A house (or small group of buildings) near the campus is needed by the black students in order that they may meet, socialize, and generally talk out their own problems—problems stemming from the shock of suddenly being in a predominantly white environment. A more friendly "black" environment conveniently situated would be particularly constructive for the freshmen as they face the normal first-year challenges and the major challenge: integration.

It must be remembered that the black student is continuously integrating in all his daily activities on campus, bearing the brunt of that accommodation since he remains in the minority. He deserves a chance for some privacy and separation for self-analysis and perspective, but he does not want to return to complete isolation. The blacks on this campus, anyway, have repeatedly made it clear that whites would be welcome.

Our Afro-American students have asked for help in setting up a place similar to a Hillel House, Newman Center, International Office, or a place comparable to what a Japanese House would be on a California campus. The activities that might go on there have been discussed as follows:

(a) seminars and other group sessions concerned with self-images, leadership, motivation, and involvement;
(b) information communication about black events, housing, jobs, courses, etc.;
(c) recreation, relaxation and socializing in general, including eating facilities;
(d) rooming for a limited number of students;
(e) overall, a living-learning, College House experience, especially sympathetic to blacks.

What is stopping the students' own efforts in this direction is the lack of money. These students are already scrimping their way through college. It is not possible for them to be self-supporting in a project of this nature in the sense that fraternities with alumni helping to pay the bills are "self-supporting."

Therefore we recommend:

1. That the President's Office, the Ethnic Minority Affairs Committee described in Section H, and other elements of the University lend their genuine moral support to the proposal that there be a living-learning center for black students, and their positive help toward finding private financing for structures and for continuous programming.

2. That there be a location on the campus where black students can expect to meet each other, exchange information, and perhaps meet student counselors. This may be a place which has been decorated, provided with music, and staffed by a student committee having a black majority, which does not exclude other students.

(Recommendation (2) above is an inexpensive project which might be implemented rapidly with the help of the Texas Union, and which would accomplish some of the objectives of (1). The two recommendations actually are complementary, however, since (1) involves extensive opportunities for interaction of students off-campus, while (2) involves more limited needs on the campus.)

3. That the Ethnic Minority Affairs Committee described in Section H seek to cooperate with a human relations council in dealing with matters affecting the welfare of minority students which transcend campus boundaries. An example is the problem of discrimination in housing. Such a council might include professional non-University personnel, and might be centered on the University neighborhood rather than the whole of the city.
H. Administrative Arrangements and General University Policies. For the implementation and the further development of the overall program, we recommend:

(1) That there be established at the University of Texas at Austin a body to be known as the Ethnic Minority Affairs Committee, charged with the continuous study, supervision, and coordination of ethnic minority studies and of programs concerned with ethnic minority students on the campus. The Committee shall be composed of seven faculty members appointed by the President, and of the Director of the Program for Educational Opportunity (Section E) as ex-officio member with vote, and of two students appointed by the President, one from the Afro-American group and one from the Mexican-American group. As research institutes in Afro-American and in Mexican-American studies are established, the director of each of these institutions shall become an ex-officio member of the Ethnic Minority Affairs Committee with vote, thus increasing the total faculty representation to ten.

(2) That the full-time position of Director of Ethnic Minority Programs be created. The Director shall be charged with coordinating and formulating overall policies for the ethnic minority programs of the University in accordance with the recommendations and advice of the Ethnic Minority Affairs Committee, and shall be responsible to the Vice-President for Academic Affairs and the Vice-President for Student Affairs, in academic and student programs respectively.

Among the administrators, groups, offices, and programs with which the Director of Ethnic Minority Programs will work are the directors and supervising committees of ethnic studies programs, the supervisors of off-campus teaching and research programs, the PEO Office, the Admissions Office, student groups and others engaged in visit to secondary schools, the Office of Student Financial Aids, the Measurement and Evaluation Center, the Counseling-Psychological Center, and the student centers described in Section G.

We have also recommended in Section A (6) additional administrative structures in the form of research institutes in Afro-American and in Mexican-American studies. It is understood that the establishment of these will be in accordance with University policy for institutes.

I. Funding Recommendations. We recommend:

(1) That the Board of Regents be requested to alter present policy to permit full tuition grants to financially needy undergraduate students.

(2) That the Ethnic Minority Affairs Committee provide an opportunity for members of the faculty, staff, students, and other interested persons to contribute to a fund to support activities for which state funds cannot be used; that a Current Restricted Fund to receive these donations be established immediately; and that the Ethnic Minority Affairs Committee and the Director of Ethnic Minority Programs coordinate the raising and expenditure of the several existing funds having similar purposes, to attract the greatest outside support from private and governmental sources and to accomplish the common objectives.

(3) That the Board of Regents be requested to allocate the sum of $26,000 to finance the recommended programs for the balance of the present fiscal year.

Expenses incidental to search for director and setting up and staffing office, including salaries, equipment, travel, m. and o. $ 6,000 - 8,000
Expenses incidental to establishing and staffing the two institutes recommended 6,000 - 8,000
Rental, improvement, equipment, for field stations 8,000 - 10,000

(4) That the Board of Regents be requested to budget for 1969-70 to appropriate general budget accounts a minimum of $250,000 of general funds to include the following:

Office of the director and advisory committee activities $35,000 - 50,000
Offices of the directors of the institutes (2) (assuming director paid one-half time from institute budget) 30,000 - 40,000
Support of PEO program 50,000 - 60,000
Additional testing and counseling staff and services 40,000 - 50,000
Support of field station 15,000 - 20,000
Increase in undergraduate tuition scholarships 35,000 - 50,000
Special summer programs 8,000 - 10,000
Additional computer-assisted instruction staffs and services 15,000 - 20,000

(5) That the Director of Ethnic Minority Programs and the Ethnic Minority Affairs Committee vigorously pursue all possibilities for federal and other outside support.
(6) That the Administration, the Director, and the Ethnic Minority Affairs Committee work with other Texas colleges and universities and with the Coordinating Board to develop a broad state program to meet what is basically a state problem. For next year, special efforts by interested and concerned individuals and allocations of University funds in what may well be a tight budget situation must provide the basic financing. For the future, the state and federal government must be the sources of continuing financial support.

Chancellor Ransom, Deputy Chancellor LeMaistre and Executive Vice-Chancellor Walker concur in the recommendation of President Hackerman and Vice-President Colvin that an exception to the retirement rule be made in the case of Carl J. Eckhardt, Director of the Physical Plant and Professor of Mechanical Engineering, for the year 1969-70.

Mr. Colvin states, "Mr. Eckhardt is in excellent health and keen of mind; thus, I believe it to be the best of interest to continue his appointment for the 1969-70 year as Director of the Physical Plant.

1968-1969 was the first year that this rule was waived in order to continue Mr. Eckhardt as Director of the Physical Plant at The University of Texas at Austin.

Chancellor Ransom, Deputy Chancellor LeMaistre, and Executive Vice-Chancellor Walker concur in the recommendation of President Hackerman and Vice-President Colvin that an exception to the retirement rule be made in the case of Mr. Harry S. Miller, Chief of the Accounting Division.

Mr. Colvin states, "Mr. Bobby Cook has resigned as Assistant Director and Mr. Miller's experience is needed in the resultant reorganization of this office." During 1969-70 a reorganization of the Accounting Office is proposed. The services of an experienced person as chief of this division are highly desirable during this period.

Mr. Miller will reach his 65th birthday on June, 1969.

Austin and will serve the Physics-Mathematics-Astronomy Building now under construction, Texas Student Publications Building, Communication Building, the Engineering Teaching Centers I and II now in planning stages, and any other future buildings on the north part of the Campus.

These plans and specifications have been approved by President Hackerman and System Administration, and it is recommended that they be approved by the Board, with authorization to the Executive Director of the Office of Facilities Planning and Construction to advertise for bids on the project, to be presented to the Board or the Executive Committee for consideration at a later date.

9. GALVESTON MEDICAL BRANCH - APPOINTMENT OF RAY S. BURNS AS ENGINEER FOR REVISION AND EXTENSION OF UTILITY DISTRIBUTION SYSTEM AND APPROPRIATION THEREFOR.--In order that chilled water and steam lines will be available when needed for the Basic Sciences Building and the Moody Medical Library at The University of Texas Medical Branch at Galveston, it will be necessary to have plans and specifications prepared for Revision and Extension of the Utility Distribution System at the Galveston Medical Branch. It is estimated that the cost of this extension will be approximately $500,000.00.

It is recommended by Vice-President Thompson, President Blocker, and System Administration that Ray S. Burns, Consulting Engineer, Houston, Texas, be appointed as Engineer for this project at a 6% fee, with authorization to prepare plans and specifications to be presented to the Board for approval at a later meeting. Mr. Burns has performed a considerable amount of work on the Galveston Medical Branch Campus and is very familiar with the utility distribution system. It is further recommended that an appropriation of $25,000.00 be made from Galveston Medical Branch Unexpended Plant Funds Project Allocations to cover the preparation of these plans and specifications through the working drawing stage.

10. M. D. ANDERSON - AUTHORIZATION TO ENGAGE STUBBS-OVERBECK AND ASSOCIATES TO PREPARE TOPOGRAPHIC MAP ON THE M. D. ANDERSON PAVILION (SOUTHERN PACIFIC HOSPITAL) AND APPROPRIATION THEREFOR.--In connection with the remodeling of the M. D. Anderson Pavilion (Southern Pacific Hospital), The University of Texas M. D. The following recommendations are, therefore, made by President Hackerman and System Administration in connection with this project:

a. That plans and specifications as prepared by the Office of Facilities Planning and Construction for the resurfacing of Speedway from Twentieth Street to midway between Twenty-Fourth Street and Twenty-Sixth Street, Twenty-first Street from Wichita Street to Waller Creek Bridge, Wichita Street from Nineteenth Street to Twenty-first Street, and Twentieth Street from Wichita Street to Speedway, be approved by the Board.

12. U. T. AUSTIN - RATIFICATION OF AWARD OF CONTRACTS TO MONSANTO COMPANY AND 3M COMPANY FOR ALL-WEATHER FOOTBALL FIELD AND TRACK RESPECTIVELY AT MEMORIAL STADIUM.—The Special Committee appointed at the Regents' Meeting held May 2, 1969, consisting of Mr. J. Neils Thompson, President Hackerman, Mr. Lester E. Palmer, Executive Vice-Chancellor Walker, Regent Peace, and Chairman Erwin, has awarded contracts as set out below in connection with the installation of an All-Weather Football Field and Track at Memorial Stadium, The University of Texas at Austin:

Monsanto Company, St. Louis, Missouri
(Astroturf Installation on Football Field and Football Practice Field) $450,000.00

3M Company, St. Paul, Minnesota
(Tartan Installation on Track) 108,500.00

Total Contract Awards $558,500.00

The contract with Monsanto Company includes the installation of Astroturf on the Football Practice Field at U. T. Austin as authorized by the Board at the meeting held June 20, 1969, and the total of these contract awards plus Engineer's Fees thereon, and miscellaneous expenses is within the $575,000.00 appropriated for these two projects. It is recommended that the Board ratify the award of these contracts as reported above.
13. U. T. AUSTIN - APPOINTMENT OF ARCHITECTS FOR ADDITIONAL MARRIED STUDENT HOUSING UNITS AND APPROPRIATION THEREFOR.—A study made by a Committee appointed for that purpose in accordance with authorization given by the Board at the meeting held June 20, 1969, has shown a need for additional married student housing units at The University of Texas at Austin. It is recommended by President Hackerman and System Administration that Project Architects be appointed from the list given below, with authorization to prepare preliminary plans and outline specifications for approximately 150 Two-Bedroom Units and 50 One-Bedroom Units at a total estimated cost of $3,400,000.00, these units to be constructed on the property now occupied by the "Old Confederate Home" at 1624 West Sixth Street to be acquired in exchange under Senate Bill No. 666 of the 61st Texas Legislature.

a. Barnes, Landes, Goodman, and Youngblood, Austin, Texas
b. Feldman, Orange, and Emerson, Austin, Texas
c. Haas, and Turley, Austin, Texas
d. O'Connell and Probst, Austin, Texas
e. Davis and Davis, Austin, Texas

It is further recommended that $30,000.00 be appropriated from Housing and Food Service at U. T. Austin to cover Architect's Fees through the preliminary plan stage.

14. DALLAS MEDICAL SCHOOL - APPROVAL OF LEASE OF SPACE AT 2700 STEMMONS EXPRESSWAY FOR THE DIVISION OF FAMILY PLANNING.—The following letter has been received by Dr. LeMaistre from Dean Sprague of The University of Texas Southwestern Medical School at Dallas:

"Approval is requested to lease 1555 square feet of space at 2700 Stemmons Expressway for the Division of Family Planning, Department of Obstetrics and Gynecology. The limited amount of space available on the campus warrants leasing the space requested for this new project.

"We are submitting herewith a lease for 28 months. The rental will be $777.50 per month, or $0.50 per square foot per month. Funds are available for this purpose in the Family Planning Project Fund, Children's Bureau Project 746.

"This location is desirable not only because it is adjacent to our campus but because it will result in cost savings in delivery of mail and supplies since other medical school offices are located in the same area. Two other locations in this same approximate area were considered; however, in both instances no space at all was available. In a less desirable location we found that the rental cost would be $5.50 per square foot per year. However, this space would require remodeling and did not include janitorial services, which would bring the cost of the space above $6.00 per square foot per year.

"I would appreciate your approval and that of the Board of Regents to enter into this agreement effective September 1, 1969."

This request by Dean Sprague is concurred in by System Administration, and it is recommended that the Board approve the leasing of space as outlined in the letter, with authorization to Executive Vice-Chancellor Walker to execute the lease agreement as submitted by Dean Sprague.
5. GALVESTON MEDICAL BRANCH - APPROVAL OF LEASE OF SPACE IN THE SEALY AND SMITH PROFESSIONAL BUILDING FOR USE OF DEPARTMENT OF OTOLARYNGOLOGY.—A request has been received from President Blocker of The University of Texas Medical Branch at Galveston for permission to lease approximately 800 square feet of office space in The Sealy and Smith Professional Building for the purpose of providing a Conference Room/Library and faculty office accommodations for the Department of Otolaryngology. The cost will be based on $0.35 per square foot per month plus electrical and telephone service at an estimated cost of $3,500.00 annually, and this cost will be paid from the Department of Otolaryngology - Medical Service, Research and Development Plan Funds. This request is concurred in by System Administration, and it is recommended that the Board approve this request and authorize Executive Vice-Chancellor Walker to sign a lease agreement after approval as to content and legal form by the appropriate officials.

16. PUBLIC HEALTH SCHOOL - TRANSFER AND ACQUISITION OF LAND IN THE TEXAS MEDICAL CENTER.—The Executive Committee of the Texas Medical Center adopted the following resolution on July 11, 1969:

"RESOLVED, that the Executive Committee rescind the action taken at the March 6, 1969, meeting of the Executive Committee whereby two plots of land on the Fay Addition to the Texas Medical Center were reserved for and were to be later deeded in accordance with established Texas Medical Center, Inc. policies, to The University of Texas for Phase I and Phase II School of Public Health Buildings and for a proposed Administration Building of The University of Texas in Houston; and, be it further

"RESOLVED, that the Executive Committee does hereby reserve a rectangular plot of land of approximately three acres on the Fay Addition for The University of Texas Phase I and Phase II School of Public Health Buildings. This plot of land is to be approximately 262 feet North and South and approximately 462 feet East and West with the northern boundary being a straight line incorporating the southern boundary of the proposed Grant Park on the Fay Addition and the western boundary being the proposed extension of Bertner Street into the Fay Addition; and, be it further

"RESOLVED, that the boundary line for any building to be constructed on this plot to be not less than twenty-five feet from the boundaries of the proposed park; and, be it further

"RESOLVED, that The University of Texas be given permission to remodel and renovate the Grant House which is located within the above mentioned rectangular area provided an engineering study shows that such remodeling is feasible and desirable in terms of cost and potential utilization and that the house does not interfere with the effective long term utilization of the plot of land involved; and, be it further

"RESOLVED, that this property will be deeded to The University of Texas in accordance with established policies of Texas Medical Center, Inc., i.e., when a contract is ready to be let on the Phase I or Phase II Buildings; and, be it further

"RESOLVED, that if a decision is reached to renovate the house that appropriate arrangements will be taken by Texas Medical Center, Inc. to enable The University of Texas to proceed with this work."
The Administration recommends that the approximate three acres be accepted as a site for Phase I and Phase II of the School of Public Health in accordance with the usual policies of the Medical Center, that is: not deeding the land until a construction contract is ready to be let.

It is further recommended:

a. That the Texas Medical Center Board be requested to give the University first right of refusal of the additional three acres, surrounding the proposed Grant Park and facing on Holcombe Boulevard, for future expansion of UT facilities;

b. That the University accept the transfer of the approximate 5.5 acre site for the Medical School subject to the usual policies of the Medical Center Board, with the understanding that subsequent agreements will be made, if necessary, before the deeding of the land has been consummated, which would satisfy the requirements of Federal granting agencies, and

c. That the University transfer approximately 4 plus acres to the Medical Center (property adjacent to the Dental School) for location of central facilities. The deeding of the property is to be consummated when plans have been completed and approved by UT and bids taken for construction.

17. U. T. AUSTIN - AUTHORIZATION TO CONSTRUCT DINING FACILITY FOR ATHLETES, APPOINTMENT OF JESSEN, JESSEN, MILLHOUSE, GREEVEN, CRUME, DAY, AND NEWMAN AS ARCHITECTS, AND APPROPRIATION THEREFOR.—A request has been received from the Athletics Council of The University of Texas at Austin for a Dining Facility for Athletes to be constructed adjacent to the Men's Unit of the Beauford H. Jester Center. In order to ascertain the number of square feet needed and the estimated cost thereof, a preliminary study has been prepared. This preliminary study shows that a building of approximately 9,210 square feet will be required at an estimated cost of $250,000.00. It is recommended by Mr. J. Neils Thompson, President Hackerman, and System Administration that authorization be given to appoint as Architects for the project the firm of Jessen, Jessen, Millhouse, Greeven, Crume, Day, and Newman, Austin, Texas, who are the Associate Architects for the Beauford H. Jester Center, with authorization to proceed with the preparation of working drawings and specifications based on the preliminary study referred to above, the final plans and specifications to be presented to the Board for approval at a later meeting.

It is further recommended that an appropriation of $250,000.00 be made from Athletics Council funds for this project.

18. U. T. EL PASO - LEASE OF KIDD FIELD TO EL PASO JETS.—The University of Texas at El Paso is in receipt of a request from Alto Fairchild, General Manager of the El Paso Jets professional football team, for permission to lease Kidd Field for the home games of the professional team during this year's football season. The request states that all games will be played on dates acceptable to U. T. El Paso, and that any lease arrangement will be only for this year's football season.

The consideration to be paid shall be $1,000 for each professional game or 10% of the gross receipts, whichever is greater.

President Smiley, Executive Vice-Chancellor Walker, and Deputy Chancellor LeMaistre recommend that Kidd Field be leased to the El Paso Jets professional football team pursuant to an appropriate instrument, and that the Chairman of the Board of Regents be authorized to execute the same after it has been approved as to form and content.

19. G. S. B. S. - AWARD OF CONTRACT TO VIDEO ELECTRONIC SYSTEMS, INC., FOR INTER INSTITUTIONAL TELEVISION SYSTEM FACILITY.—In accordance with authorization given at the Regents' Meetings held December 13, 1968, and May 2, 1969, bids were called for on the Inter Institutional Television System Facility to be installed in the Texas Medical Center by the Division of Continuing Education of The University of Texas Graduate School of Biomedical Sciences at Houston. These bids were received, opened, and tabulated on July 11, 1969, as follows:

Each bidder submitted with his bid a bidder's bond in the amount of 5% of the greatest amount bid.

*This bid qualified by a change in the time of completion called for in the specifications.
The total Legislative appropriation for this project was $75,000.00; after payment of certain preliminary expenses and Engineer's Fees, there is $66,839.07 available for the award of a contract for this system. Administrative officials at G. S. B. S. are in process of attempting to locate funds that may be used for this purpose, and it is recommended by Dean Arnim, Dr. Grant Taylor, and System Administration that approval be given by the Board to a contract award in the amount of $148,548.12 to the lowest bidder meeting specifications, Video Electronic Systems, Inc., Dallas, Texas, after certification by Executive Vice-Chancellor Walker that funds are available to cover the contract award. If this project is to be carried out, it will be necessary to award a contract by August 31, 1969, as the Legislative appropriation will lapse at that time if not encumbered before then.

Please note that the bid of Taft Broadcasting Company, although slightly lower than that of Video Electronic Systems, Inc., could not be considered as meeting specifications, since the completion time called for in the specifications had been changed in the bid by extending the time. Since another company had not submitted a bid because of the time completion in the specifications, a change in this completion time would not appear to meet specifications.

MEDICAL SERVICE, RESEARCH AND DEVELOPMENT PLAN

THE UNIVERSITY OF TEXAS MEDICAL SCHOOL AT SAN ANTONIO

The members of the Medical Service, Research and Development Plan of The University of Texas Medical School at San Antonio have adopted the following bylaws to assure proper administration of the Plan in accordance with the Rules and Regulations of the Board of Regents of The University of Texas. These bylaws and any amendments thereto are subject to the approval of the Board of Regents.

The name of this body shall be the Medical Service, Research and Development Plan of The University of Texas Medical School at San Antonio, hereafter abbreviated MSRDP.

Membership: Shall be limited to those members of the full-time faculty of the clinical departments whose major site of clinical services is the Bexar County Hospital District Hospitals (Bexar County Hospital and Robert B. In addition, full-time faculty members at other institutions are entitled to membership provided that the affiliation agreement between the institutions and the UTMSSA meets the Board of Regents regulations for full-time faculty. All members of the MSRDP have the right to participate in all the deliberations of the body, vote upon all business brought before the MSRDP and be eligible for election to any committee.

Administration: Shall be conducted by a MSRDP Advisory Board, hereafter called the Board. The Board shall be composed of the Dean of the Medical School, all clinical chairmen and three members at large. Under extenuating circumstances, the chairman of a clinical department, with the approval of the Board, may nominate a substitute from the MSRDP member-
ship to represent him on the Board with vote. The Business Manager of the Medical School and the Coordinator of Professional Services of the MSRDP shall be ex-officio members without vote. One nomination for members at large shall be solicited from each member of the MSRDP; thereafter, the list of all of the candidates shall be submitted by circulated ballot to each member who must vote for three nominees. There shall be no more than one elected member from any one clinical department. No ballot will be accepted unless three separate nominees have been voted upon; the three nominees representing three separate departments who receive the greatest number of votes shall be elected. The first election will occur immediately after approval of the bylaws by the Board of Regents. Thereafter, elections will be held yearly during the month of June with Board members to take office the following September 1. If an elected member is unable to serve, the next eligible nominee shall take office. No elected member of the Board shall serve more than two full consecutive years. The Chairman of the Board shall be elected annually from among the chairmen of the clinical departments by a plurality vote of the members of the Board and shall serve no more than two full consecutive years. A Secretary of the Board shall be elected annually from among the members of the Board by plurality vote of the members of the Board, and shall serve in this capacity no more than two full consecutive years. The Board shall meet at least quarterly on call of the Chairman or on written petition of any three members of the Board. The Board shall act for MSRDP between annual general sessions and call special MSRDP meetings when necessary. Two-thirds of the members of the Board shall constitute a quorum with a majority of those present constituting a passing vote.

Committees: May be established by the Board as required or upon request of a two-thirds vote of those present and voting at a general or special session of the MSRDP. Membership on all committees will be determined by the
Board. All committees will report their recommendations to the Board in writing. Minutes will be kept of all committee meetings.

General and Special Meetings: The MSRDP shall meet in general session once a year during the month of June at a time and place designated by the Chairman of the Board. The call of this general session and an agenda shall be sent to each MSRDP member at least two weeks prior to the date of the meeting. Special meetings of the MSRDP may be called by the Board as deemed necessary provided each member of the MSRDP is notified in writing at least one week prior to the date of the meeting. Special meetings are to be called by the Board upon written petition of a majority of the members of the MSRDP. The Chairman of the Board, or in his absence a member of the Board designated by him, shall preside. One-half of the membership of MSRDP shall constitute a quorum with a two-thirds vote of those present and voting constituting a passing vote. Robert's Rules of Order shall prevail and written minutes shall be published and circulated to all members by the Secretary.

Amendments to the bylaws require a two-thirds vote of the members present and voting at any general or special meeting of the MSRDP, provided the amendment shall have been offered at a previous meeting or by written notice not less than thirty days prior to the meeting at which said proposed amendment is voted upon. Amendments shall take effect upon adoption by the MSRDP and approval by the Board of Regents.

Income: Income will include fees for all patient care services rendered in the hospitals of the Bexar County Hospital District by clinical and full-time faculty. Such patient care fees will be charged, reduced or increased and supervised solely by the doctor responsible for the patient care services.
and will be deposited to the MSRDP fund. In addition, fees from court
appearances and all other patient care consultations of the full-time faculty
will be deposited to the MSRDP fund. The following income is specifically
excluded from this distribution:

a. Honoraria, royalties, lecture fees and non-patient
care retainers and income.
b. Payment for editing scientific publications.
c. Consultation fees (honoraria) as a regional or
   national consultant to any branch of the United

Sec. 5. PRIVATE-PRACTICE INCOME

Full-time physicians at the Institute with academic appointment will be subject to the policy of The University of Texas System regarding private-practice income. Money earned in excess of the allowable shall be managed in a manner consistent with the management of similar money at the Medical School.

Sec. 6. CONVEYANCE OF PROPERTY

(a) Subject to applicable state law, constitutional provisions, and specific covenants and conditions agreed upon by the Board of Regents and the Commissioners' Court of Dallas County, the Board of Regents shall convey to Dallas County fee simple title to a tract of land containing 0.240±, in the William B. The rectangular plot is described in metes and bounds, subject to survey, as follows:

Taking as a point of origin the NE corner of the University property,

THENCE S 48° 10' E a distance of 92.1',
THENCE S 11° 0' W a distance of 440',
THENCE N 79° 0' W a distance of 90',
THENCE S 65° 30' W a distance of 280',

THENCE N 65° 30' E a distance of 230',
THENCE S 24° 30' E a distance of 45',
THENCE N 65° 30' E.

(b) Subject to the provisions of this section, the Board of Regents agrees to allow for the construction of a medical examiner's building to be known as the Southwestern Institute of Forensic Sciences at Dallas on the above-mentioned land, extending into the adjacent Dallas County Hospital District property (likewise deeded to Dallas County). The Board of Regents further agrees to allow for the construction of a connecting corridor to join the Institute with the Danciger Building, such construction to be undertaken and financed by the Commissioners' Court of Dallas County at a site at the Danciger Building approved by the Board of Regents and at such time approved by the Board of Regents.

Sec. 7. NECESSARY EXPANSION

The Commissioners' Court of Dallas County and the Board of Regents agree that expansion of the physical facilities of the Institute shall be made consistent with the needs and goals of the Institute.
In the event the actual joining of the building with physical structures erected by the Medical School is contemplated, prior approval of the Board of Regents and the Commissioners' Court must be obtained.

Sec. 8. AMENDMENT AND SUBSEQUENT AGREEMENTS

(a) This agreement may be amended in writing to include any provisions the parties may agree upon.

(b) The parties to this agreement may make subsequent agreements for the joint employment of personnel and for the pro rata apportionment of salaries of personnel employed, or for the pro rata apportionment of other related costs and expenditures.

Sec. 9. PERIOD OF AGREEMENT

PERMANENT UNIVERSITY FUND - INVESTMENT MATTERS.

1. RECOMMENDATION RE NOMINEES TO FILL VACANCIES ON INVESTMENT ADVISORY COMMITTEE.—Mr. Roger Jenswold, former Vice President and Trust Officer of The First National Bank in Dallas, resigned from that office on June 1, 1969, to take a position with an insurance company in Nashville, Tennessee, thus creating a vacancy on our Investment Advisory Committee. It is recommended by the Vice-Chancellor for Investments, Trusts and Lands that Mr. Robert W. Lau, Vice President and Trust Officer of The Frost National Bank, San Antonio, be appointed to fill this unexpired term, which extends to August 31, 1972, such appointment to be effective immediately.

The Vice-Chancellor for Investments, Trusts and Lands recommends that Mr. Robert W. Lau, Vice President and Trust Officer of The Frost National Bank, San Antonio, be appointed to fill this unexpired term, which extends to August 31, 1972, such appointment to be effective immediately.

As a matter of record, the membership of the Committee as of September 1, 1969, after the above recommended appointments, would be as follows:

Foster & Son, Inc. The Company will be a wholly owned subsidiary of the Bank but at all times will maintain its separate corporate identity. OTHER MATTERS.--

REPORT RELATING TO THE TEXAS TORTS CLAIMS ACT.--At the June 20, 1969, meeting of the Regents, the Land and Investment Committee was directed to study the consequences flowing from H.B. 456 and make recommendations to the Board at its August 1, 1969, meeting as to what insurance coverage, if any, should be provided.

Discussions of this problem have been held with Executive Vice Chancellor Walker, Comptroller Anderson and Attorney Waldrep, and one meeting has been held with representatives of the Texas Insurance Commission. Quite a few uncertainties exist at this time as to the status of this matter, and as to the recommendation which should be made. The matter is complicated to some extent by the provisions of H.B. 203, also passed by the 61st Legislature. A brief analysis of the two bills, prepared by Comptroller Anderson, follows:

H.B. 203

Authorizes State Agencies owning and operating motor vehicles to purchase liability insurance to insure officers and employees from liability arising from operating the vehicles, or other power equipment; or in the alternative, to reimburse employees for money expended for the purchase of liability insurance purchased for driving a State-owned motor vehicle. Liability coverage purchased by a State agency apparently covers both personal liability and property damage, and must be on a policy form or forms approved by State Board of Insurance and the Attorney General.

H.B. 456

Provides for tort liability on the part of the State of Texas for certain personal injury, limits liability to $100,000 per person and $300,000 for any single occurrence, provides for the purchase of liability insurance, and provides for payment of claims against State-supported senior colleges and universities by direct appropriation, except where insurance has been acquired.

There are some overlappings and some distinct differences between H.B. 203 and H.B. 456

H.B. 203:
1. Is effective now
2. Permits insurance -- not mandatory
3. Policies purchased by institution will probably cover both P.I. and P.D. liability
4. Covers motor vehicles or power equipment only
5. Does not waive immunity of State from liability for torts of officers and employees

H.B. 456
1. Is effective January 1, 1970
2. Permits insurance -- not mandatory (but if insurance is purchased, the employees may not be required to purchase liability insurance)
   a. Insurance limits $100,000/$300,000
   b. Attorney General states appropriation bill did not include funds for purchase of insurance
   c. Authorized insurance can protect units of government, officers, and employees
3. Apparently covers liability for personal injury only (not property damage)
4. Liability not only covers motor vehicles, but other power driven equipment and use of premises
5. Immunity from tort liability is waived
At this time, an inventory of all System-owned passenger vehicles, trucks, tractors and other motor driven vehicles is being compiled, as well as information regarding employee owned vehicles which are used from time to time on University business. The matter will continue to receive active attention and a further report will be made at the next meeting of the Board.

PERMANENT UNIVERSITY FUND - INVESTMENT MATTERS.--

EXTENSION OF CONTRACT WITH INVESTMENT COUNSEL.--The Vice Chancellor for Investments, Trusts and Lands recommends that he be authorized to extend the contract with Lionel D. Edie & Company, Inc. from September 1, 1969, to August 31, 1970, subject to cancellation by the Board of Regents at any time on thirty days written notice; the fee to continue at $25,000 per year.

REPORTS.--

REPORTS OF SECURITIES TRANSACTIONS FOR PERMANENT UNIVERSITY FUND AND FOR TRUST AND SPECIAL FUNDS FOR JUNE 1969.--The reports of securities transactions for Permanent University Fund and for Trust and Special Funds were mailed to the Regents on July 15. The results of the ballots will be reported by the Secretary at the meeting of the Land and Investment Committee.
GALVESTON MEDICAL BRANCH - THE ROBERTSON POTH FOUNDATION - RECOMMENDATION FOR MEETING OF TRUSTEES AT AUGUST MEETING OF BOARD OF REGENTS, AUGUST 1, 1969—Mr. Floyd O. Shelton, as Secretary-Treasurer of The Robertson Poth Foundation, recommends a brief meeting of Messrs. Ikard, Josey and Erwin as Trustees of The Robertson Poth Foundation at the August 1, 1969, meeting of the Board of Regents for action on the following:

1. Approval of minutes of the meeting of March 14, 1969, copies of which are being forwarded to the Trustees and other members of the Board of Regents by separate letter;

2. Approval of audit by Touche, Ross, Bailey and Smart, as of August 31, 1968, copies of which are being distributed by separate letter, and authorization for discontinuance of the annual audit by an independent firm and substitution in lieu thereof annual financial reports certified to by the Director of Accounting, The University of Texas at Austin, and/or the State Auditor. The Trust Indenture dated December 22, 1952, creating the Foundation provides that the books and records of the Foundation "shall be audited at least once each calendar year by an independent certified public accountant or firm of certified public accountants." However, as authorized by the Successor Trustees, accounting records of the Foundation are kept in the University's accounting system in the Office of Accounting at Austin, and any audit by an independent firm is necessarily based on information furnished by the Office of Accounting. It is believed that, with transfer of the Foundation to the University, little if anything is accomplished by an outside audit, and the expenses to the Foundation can be saved. If this change is approved by the Trustees, it will be subject to approval by Dr. Edgar J. Poth and Dr. Gaynelle Robertson Poth, the creators of the Foundation.
MEETING OF MEMBERS OF THE BOARD OF REGENTS AS TRUSTEES OF WINEDEALE STAGECOACH INN FUND.—The Vice Chancellor for Investments, Trusts and Lands, recommends a brief meeting of the members of the Board of Regents as Trustees of Winedale Stagecoach Inn Fund at the August 1, 1969, meeting of the Board of Regents for action on the following Agenda:

1. APPROVAL OF MINUTES of the meeting of the Trustees on March 14, 1969, being distributed by the Secretary-Treasurer.

2. APPOINTMENT OF WINEDEALE ADVISORY COMMITTEE.—It is recommended by Chancellor Ransom that the following persons be appointed to the Winedale Advisory Committee for the period September 1, 1969, through August 31, 1970:

   Mr. D. B. Alexander, Professor of Architecture, Chairman
   Mr. Wayne Bell, Architect and Coordinator for the Winedale Property
   Dr. W. Frank Blair, Professor of Zoology
   Dr. Anna Brightman, Professor of Home Economics
   Dr. Marian Davis, Professor of Art
   Dr. Hans-Bertold Dietz, Professor of Music
   Dr. Joe Frantz, Professor of History
   Dr. C. Richard King, Professor of Journalism
   Dr. W. F. Michael, Professor of Germanic Languages
   Mr. James Moll, Professor of Drama
   Dr. Joe Neal, Professor of Speech and Director of International Office
   Dr. William Newcomb, Professor of Anthropology and Director, Texas Memorial Museum
   Mr. Henderson Shuffler, Director, Institute of Texan Cultures
   Dr. Robert L. Sutherland, Hogg Professor of Sociology and President, Hogg Foundation for Mental Health
   Dr. Donald Weismann, University Professor in the Arts

3. RECOMMENDATION FOR DISCONTINUANCE OF ANNUAL INDEPENDENT AUDIT.—The Trust Indenture for the Winedale Stagecoach Inn Fund carries the following provision concerning an annual audit:

   Article III
   
   3.5 . . . ;they shall also keep or cause to be kept full and complete books of account, which the Trustees shall cause to be audited at least once each calendar year by an independent firm of certified public accountants. A copy of each such annual audit shall, within sixty (60) days after the completion of the audit, be furnished by the Trustees to the Attorney General or the State of Texas and to the Donor . . . .

   These audits have been made by Arthur Andersen & Co. (Miss Hogg's auditors) at annual fee of $500.00. Since the records of the Winedale Stagecoach Inn Fund (the Endowment Account), as well as the records of the Winedale Properties, are, by action of the Trustees, kept by the Office of Accounting of The University of Texas at Austin, annually audited by the State Auditor, information for the independent audit is secured entirely from University records.

   It is, therefore, recommended that, subject to Miss Hogg's approval, the annual independent audit be discontinued as of August 31, 1968, and that in lieu thereof annual financial reports certified to by the Director, Office of Accounting, The University of Texas at Austin, and/or the State Auditor be furnished to the Trustees, Miss Hogg, and the Attorney General.
It is recommended that the Trustees approve the following budget and appointments for the operation of the Winedale Stagecoach Inn Properties during the University's fiscal year beginning September 1, 1969:

**5. APPROVAL OF INTERAGENCY AGREEMENT.**—It is recommended that the Trustees approve an Interagency Cooperation Contract between the University and Texas State Historical Survey Committee, with which Mr. Wayne Bell is now associated, whereby Mr. Bell will serve as Architect and Coordinator for the Winedale Property. Mr. Bell worked closely with Miss Hogg in the restoration of the Winedale Properties and has served as Architect and Coordinator for them since they were transferred to the University.

The contract, which will be executed, will provide for payment of $3,100.00, one-fifth of his salary, for the equivalent of one-day's services per week. The payment will be made from funds in the Chancellor's Office.

**RECOMMENDATION FOR SALE OF 4.2 ACRES, J. H. BELL LEAGUE, BRAZORIA COUNTY, TO JOE FABRYGEL.**—Mr. Joe Fabrygel of West Columbia has offered $750.00 per acre cash ($3,150.00) for 4.2 acres of the Winedale Endowment Fund land given by Miss Ima Hogg in the J. H. Bell League at West Columbia, Brazoria County. This tract fronts on a County Road but not on the paved State Highway. The last appraisal was in 1964 giving a value of $350.00 per acre for about 35 acres along the highway but only $40.00 to $100.00 per acre for the remainder of this large tract, the latter being generally the location of subject tract. The purchaser wants this as a homestead, and the sale will be of the surface only. Commission of 5% will be payable by the University to Mr. Ben D. Cannon. Mr. Shelton recommends that the Trustees accept the proposal and authorize the sale.

FOUNDATION MATTERS.

GALVESTON MEDICAL BRANCH - THE ROBERTSON POTH FOUNDATION - RECOMMENDATION FOR SALE OF TEXAS CITY PROPERTY.—One of the assets of the Foundation turned over to the Successor Trustees is the property at 409 3rd Avenue North in Texas City, placed on the books by the original Trustees at $12,000 based on an appraisal in December, 1960. This is a portion of Lot 6, Block 54, first Division of Texas City, approximately 175' deep and only about 22' wide in an older neighborhood of Texas City, where values have not held up in recent years. The old building is in bad repair and has been vacant for at least three or four years.

The property was appraised by Mr. T. A. Waterman of Galveston in May, 1968, at $4,000.00, and the Successor Trustees authorized listing it for sale with V. J. Schmitt and Company of Texas City at an asking price of $5,000.00. Schmitt and Company have been unable to sell it at that price or obtain an offer within range. Mr. Charles E. Outterside, Jr., an employee of V. J. Schmitt and Company, is willing to buy the property and attempt to get the building in shape and perhaps use it himself. No commission will be paid by the Trustees, and the offered price of $3,750.00 is net to the Foundation. Mr. Outterside is willing to pay $100.00 down on a Contract of Sale and pay at least $35.00 per month, including interest at 7 1/2% per annum, until the balance is down to $2,300.00 when he will receive a deed and execute a note secured by a Vendor's Lien and Deed of Trust. Mr. Shelton recommends that the Trustees accept Mr. Outterside's proposal and authorize the sale.

PERMANENT UNIVERSITY FUND - LAND MATTERS.

RECOMMENDATION RE LONG-RANGE SURVEY OF UNIVERSITY LANDS AND BUDGET THEREFOR.—In connection with the long-range survey to be made of University Lands, it is felt that one of the most important aspects should be the development of information regarding mineral resources on such lands other than oil and gas. Discussions of the possibility of securing such a study have been held with Dr. Peter T. Flawn, Director of the Bureau of Economic Geology. Dr. Flawn is enthusiastic over the prospect of this study being conducted by the Bureau of Economic Geology, with the cooperation of the Geological office in Midland. A tentative budget of $27,425.00 has been developed for the study, which it is estimated will require about one year to complete.

The Vice-Chancellor for Investments, Trusts and Lands recommends that the proposed study be authorized; and, to cover the costs thereof, as well as other costs of the overall long-range study of such lands, that a special fund of $50,000.00 be appropriated from the Available Fund; the expenditures therefrom to be made on the recommendation of the Vice-Chancellor for Investments, Trusts and Lands and the approval of the Chairman of the Land and Investment Committee. Executive Vice-Chancellor Walker concurs in this recommendation.
PERMANENT UNIVERSITY FUND - OIL & GAS MATTERS.--

REPORT BY CHAIRMAN OF LAND AND INVESTMENT COMMITTEE.--

Mr. Ikard, Chairman of the Land and Investment Committee, reports that pursuant to the authority conferred by the Board of Regents at the meeting of June 20, 1969, he has employed Mr. A. W. Walker, Jr., of the firm of Jackson, Walker, Winstead, Cantwell and Miller, Dallas, Texas, to investigate the problems involved in the settlement for royalty due the Permanent University Fund arising out of the production of gas from University Lands. This study will be conducted with the cooperation of the Office of Investments, Trusts and Lands, and, under the terms of the agreement, Mr. Walker will be compensated for the time actually devoted to the study at a rate of $50.00 per hour, plus out of pocket expenses, the basis customarily charged in such cases by his firm. It is recommended that this action be ratified.

GIFT, ESTATE, AND BEQUEST MATTERS.--

SYSTEM - RECOMMENDATION FOR ACCEPTANCE OF ALICE B. GOODWIN SCHOLARSHIP FUND.--Mr. Earl H. Goodwin of Austin has delivered to the University 80 shares of American Telephone and Telegraph Company Capital Stock worth approximately $4,240.00 together with a Trust Agreement for the establishment of the Alice B. Goodwin Scholarship Fund in honor of his daughter, a student at U. T. Austin. Mr. Goodwin expects to make additional contributions to the fund, and the income is to be used for scholarships anywhere in the University System. Vice-Chancellor Shelton recommends that the Board of Regents accept this gift and authorize the award of the scholarships through the Office of Student Financial Aid, U. T. Austin.

M. D. ANDERSON HOSPITAL - RECOMMENDATION FOR APPROVAL OF COMPROMISE SETTLEMENT OF THE ESTATE OF MRS. GRACE ZAX AND AUTHORIZATION OF SALE OF REAL ESTATE.--At the December 13, 1968, meeting of the Board of Regents a proposed settlement of the Estate of Mrs. Grace Zax of Houston was approved under which Mrs. Bertha Beasley, the principal beneficiary under one of the wills offered for probate, would receive $30,000.00 cash and the remainder of the estate would go one-fourth each to M. D. Anderson Hospital for cancer research, Texas Children's Hospital in Houston, Houston Heart Association, and Jewish Home for the Aged in Houston in line with another will offered for probate. The settlement as finally worked out and approved by the Probate Court gave Mrs. Beasley all of the remaining cash on hand in the estate, approximately $33,000.00 and Mrs. Zax' home property on Bellaire Boulevard to the four beneficiary institutions, one-fourth each. Two of the Houston institutions are represented by Mr. Herman P. Pressler and by Mr. Thomas D. Anderson, and they have been negotiating with St. Marks Episcopal Church for purchase of the property at around $60,000.00 and should have something definite in the near future. Vice-Chancellor Shelton recommends that the Board of Regents approve the compromise settlement of the estate and authorize him to join in any sale of the real estate approved by the three other Houston institutions.

There will be a dinner in Dallas on Thursday evening, September 11, 1969, honoring those who have contributed to the development of the Southwest Center for Advanced Studies and those who have worked to make The University of Texas at Dallas possible. Amend Chapter I, Part Two, Regents' Rules and Regulations, by adding a new Section 6 and renumbering the present Sections 6 and 7 as Sections 7 and 8:

Sec. 6. General Admission Policy.--The University of Texas System will make maximum use of its resources to admit and educate as many qualified students as possible, consistent with accreditation standards and consistent with maintaining a high quality of education. Subject to the other provisions of this chapter, neither the faculty, staff, nor students of any component institution shall solicit or recruit for admission to that institution any person who cannot meet the usual academic requirements for admission to that institution, and pursuant to the provisions of the General Appropriation Act, no funds appropriated by the Legislature, including local institutional funds, shall be expended for the direct recruitment of students, whether qualified or unqualified.
WHEREAS, the 61st Legislature, by House Bill No. 157, authorized and directed the Board of Regents of The University of Texas System to establish and maintain a fully state-supported coeducational institution of higher learning to be known as The University of Texas of the Permian Basin; and

WHEREAS, the Board of Regents was authorized and directed by the 61st Legislature to locate the new institution on a site to be selected by the Board of Regents in accordance with certain directions that were set forth in House Bill No. 157; and

WHEREAS, the Board of Regents thereafter held a public hearing in the Permian Basin area, at which hearing the Board of Regents received offers of several tracts of land that were tendered as possible sites for the new institution, and the members of the Board of Regents made personal inspections of these sites; and

WHEREAS, the administrative officers of The University of Texas System made additional examinations and investigations of the several potential sites; and

WHEREAS, the administrative officers of The University of Texas System recommended to the Board of Regents that the new institution be located on the Midnite Site No. 2 in Ector County, and set forth the following reasons in support of their recommendation:

1. Availability - The site is available now and will present no problem in meeting the December 31, 1969, statutory deadline.

2. Desirability - There are approximately 300 acres in this particular site. The configuration of the land, the drainage of the property, and the soil analysis all indicate that this would make an attractive site for the proposed campus. The City of Odessa is clearly growing in the direction of this site, and there will be residential areas, shopping centers, and other services in the area in the very near future. The City of Odessa has agreed to bring the property into the city limits and to provide zoning protection.

3. Accessibility - The campus will be easily accessible to commuter students coming via both U. S. 80 and Interstate 20. Both these major arteries connect with Loop 338, which in turn connects with 42nd Street and will eventually connect with 27th Street. (The site is bounded on the north by 42nd Street and on the south by 27th Street.) Existing or proposed streets also provide good accessibility to traffic from the City of Odessa. 42nd Street is the primary artery now in existence, but city and county officials have assured us that they will provide the following:

C of W-28
a. Extension of Parkway Boulevard (along western boundary).
b. Extend 27th Street to Loop 338 (southern boundary).
c. A collector street to be constructed along eastern boundary (location to be made by UT).

State Highway and Ector County officials have assured us that plans are underway to extend 42nd Street to Midland in the form of a divided expressway, so that there will be excellent access from Midland directly to the site.

4. Livability of Staff and Convenience of Students - Close proximity to the largest population center in the Permian Basin will assure adequate housing, schools, shopping areas, cultural and recreational facilities for faculty, staff, and student body.

5. Utilities Available to Site:
   a. 24 inch sewer line connection is already in.
   b. 24 inch water line connection is on western boundary of property.
   c. Gas and electrical lines are now available on 42nd Street frontage to furnish desired quantities.

6. Police and Fire Protection - are readily available from City of Odessa.

7. Existing Structures and Improvements - There are five wells (one of which is inactive) and a compressor station located on the property. A commitment has been given to move one of the wells and the compressor station off the property and to move any underground lines that are unacceptable to the University, at no expense to the University. The remaining four wells present no substantial problem in the development of the campus.

8. Community Support - Ector County, the City of Odessa, and the Odessa Chamber of Commerce have pledged a minimum of $500,000 for site preparation and development. This commitment will involve cash, services, and work performed with the understanding that any cash left over will go to the University for the establishment of an Excellence Fund. They have also offered a residential lot in Country Club Estates for a president's home; and

WHEREAS, the Board of Regents has determined that the McKnight Site No. 2 is the location which offers the greatest opportunity for the development of an academic institution of the first class and that it will be in the best interest of all of the people of Texas for The University of Texas of the Permian Basin to be located on the McKnight Site No. 2:
NOW, THEREFORE, BE IT RESOLVED by the Board of Regents of The University of Texas System, that the Board of Regents, pursuant to the authority conferred upon it by the 61st Legislature in House Bill No. 157, has selected and designated, and does hereby select and designate, as the site for The University of Texas of the Permian Basin, the following tract of land in Ector County, Texas, known as the McKnight Site No. 2, more particularly described as follows:

BEING a tract of land located in Section 18, Block 41, T-2-S, Railway Co. Survey, Ector County, Texas, and being more particularly described as follows:

BEGINNING at a point at the far Northwest corner of this tract, which point lies in the South right of way line of FM Hwy. 2399 (East 42nd Street), from which point the Northwest corner of Section 18 bears North 15° 07' West 61.72 feet and South 73° 51' West 65 feet;

THENCE North 78° 14' East following South right of way of FM Hwy. 2399 for a distance of 2597 feet to a point for the Northeast corner of this tract;

THENCE South 15° 07' East, a distance of 4946.62 feet to a point for the Southeast corner of this tract;

THENCE South 73° 50' West 2593 feet to a point for the Southwest corner of this tract;

THENCE North 15° 07' West for a distance of 5145.89 feet to the place of beginning, containing 300 acres of land, more or less.
