APPROVAL OF MINUTES, SEPTEMBER 12, 1970.--The Minutes of the meeting of the Board of Regents of The University of Texas System held on September 12, 1970, in Arlington, Texas, were corrected as follows:

1. On Page 2, by changing in Line 5 of the first full paragraph the "Department of Physical Education" to the "Department of Physical Instruction."

2. On Page 58, by changing the third topical heading to read as follows:

U. T. SYSTEM: TITLE OF CHARLES B. McCALL CHANGED TO ASSISTANT VICE-CHANCELLOR FOR REGIONAL MEDICAL PROGRAMS.--

*Regent Bauer was in attendance at the meetings of the Standing Committees and the Committee of the Whole but did not remain for the filing of the reports of the committees.
3. On Page 38, by changing Paragraph C.2. to read as follows:

Galveston Medical Branch: Libbie Moody Thompson Memorial Trust Agreement Supplement to Trust Agreement of 1967. -As a supplement to The Libbie Moody Thompson Trust Agreement of 1967, a supplemental agreement entitled "The Libbie Moody Thompson Memorial Trust" was accepted as set out on Pages 39-43. The Chairman of the Board as Trustee was authorized to execute the document when it has been approved as to content by the Associate Deputy Chancellor for Investments, Trusts and Lands and as to form by a University attorney. This supplemental trust agreement complies with the provisions of the Tax Reform Act of 1969 pertaining to charitable remainder trusts. The Libbie Moody Thompson Trust created by the trust agreement dated December 28, 1967, remains in full force and effect.

With the foregoing corrections, the Minutes were approved in the form distributed by the Secretary and recorded in the Permanent Minutes, Volume XVIII, beginning with Page 1.

REPORT OF ACADEMIC AND DEVELOPMENTAL AFFAIRS COMMITTEE
(Pages 12-40). --Prior to filing the report of the Academic and Developmental Affairs Committee, Committee Chairman Kilgore asked the respective institutional heads to introduce student representatives who were present. In response thereto, President ad interim Jordan of the University of Texas at Austin recognized Mr. Lyke Thompson, City Editor of The Daily Texan. Mr. Andy Yemma, Editor of The Daily Texan, who had attended the committee meetings was not present at this time. President Jordan, however, also presented at this time Dr. Robert D. From The University of Texas at Arlington, President Harrison reported that the following had attended the committee meetings but were not at this moment present: Mr. Don Sloan, Editor of The Shorthorn, and Mr. Jeff Wolfskill, member of the staff of The Shorthorn.

Thereafter, Committee Chairman Kilgore filed the following report of the Academic and Developmental Affairs Committee. The actions therein were ratified without objection:

1. U. T. System: Chancellor's Docket No. 43. --The mail ballots did not reflect any exceptions to Chancellor's Docket No. 43, and the Docket was approved in the form distributed by the Secretary. It is attached hereto, following Page 111, and made a part of the Minutes.

2. U. T. System and Galveston Medical Branch: Dual Positions Pursuant to Article 6252-9a, Vernon's Texas Civil Statutes. --With respect to the individuals listed on Page 13 with The University of Texas System and The University of Texas Medical Branch at Galveston, the following resolution was adopted in connection with the service of each individual on each of the state or federal boards opposite his name. This resolution is pursuant to Article 5252-9a, Vernon's Texas Civil Statutes:

   WHEREAS, (the name of the individual) has an opportunity to serve as (the capacity in which he is serving on a state or federal board or commission):

   NOW, THEREFORE, BE IT RESOLVED by the Board of Regents of The University of Texas System, acting pursuant to delegated legislative authority:

   a. That the said (the name of the individual) be and he is hereby authorized by the Board of Regents to serve as (the capacity in which he is serving on a state or federal board or commission) until he no longer has an opportunity to do so or until this direction and requirement is amended or revoked by the Board of Regents;

   b. That the said (the name of the individual) be and he is hereby authorized by the Board of Regents to serve as (the capacity in which he is serving on a state or federal board or commission) in addition to all other duties that have been or may hereafter be assigned or required of him by the Board of Regents;
c. That the Board of Regents finds that (the name of the individual)'s service as (the capacity in which he is serving on a state or federal board or commission) is not in conflict with his employment by The University of Texas System;

d. That the Board of Regents finds that (the name of the individual)'s service as (the capacity in which he is serving on a state or federal board or commission) is and will continue to be of benefit and advantage to The University of Texas System and the State of Texas.

3. U. T. Austin: Establishment of Division of Natural Resources and Environment (Bureau of Economic Geology, Center for Research in Water Resources, and Marine Science Institute). --The following resolution was adopted:

WHEREAS, The establishment of a Division of Natural Resources and Environment will increase the University's opportunity to participate in federal and foundation programs, will strengthen the Marine Science Institute, and will provide an Austin base for the Port Aransas facility:
BE IT RESOLVED, That the recommendation of President ad interim Jordan, concurred in by Chancellor-Elect LeMaistre, to establish a Division of Natural Resources and Environment at The University of Texas at Austin be approved for immediate implementation. This Division will encompass the Bureau of Economic Geology, Center for Research in Water Resources, and Marine Science Institute, and

BE IT FURTHER RESOLVED, That in view of the fact that there are no new courses, degree programs, or departments created by this action but only a rearrangement of the management of existing ones, the Administration be authorized and directed merely to inform the Coordinating Board, Texas College and University System of the creation of this Division.

4. U. T. Austin: Enrollment of Entering Class of Law School for Fall 1970-71.--When the admission requirements to the Law School of The University of Texas at Austin were last amended on April 17, 1970, Dean Keeton said that he would report to the Board on the enrollment figures for 1970-71. Pursuant thereto and before all figures were confirmed, a written report was received in a letter from Dean Keeton dated September 17, 1970. In this report Dean Keeton indicated that the entering classes would number approximately 600 to 610, and he further reported that the Regental requirement that not more than 15 percent of the entering class be nonresidents was also being followed.

However, at the meeting President Jordan reported that after all tallies were made that as of the 12th class day September 15, 1970, the total enrollment of the Law School was 1,588 and that there were 603 in the first-year class of which 13 percent or 78 were nonresidents.

5. U. T. Austin: Enrollment Control Plan for Freshmen and Lower-Division Transfers for 1971 Summer Session and 1971-72 Academic Year. --The following resolution was adopted with Regent Peace voting "No" because he favors the principle of random selection throughout the admission process.

WHEREAS, On July 10, 1970, the Board of Regents adopted in principle an Enrollment Control Plan for all general academic institutions of The University of Texas System, and

WHEREAS, Pursuant to the Regents' request that the Administration develop details for implementation of the plan at each of the respective institutions:
BE IT RESOLVED, That the following amended recommendations of President ad interim Jordan for the implementation of procedures to control lower-division enrollment for the 1971 Summer Session and the 1971-72 academic year be approved;

BE IT FURTHER RESOLVED, That the approval of this plan be with the understanding that this is for one year only and that the Administration be directed to recommend at the meeting on December 4, 1970, procedures for admission of approximately 2,200 freshmen from among students ranked in the bottom three quarters of their high school classes and of 1,300 transfer students with less than 54 semester hours, and

BE IT FURTHER RESOLVED, That this Enrollment Control Plan is a major first step toward dealing with the growing size of The University of Texas at Austin; it is not the final plan to be followed in subsequent years; and that appropriate committees and groups will make a thorough study of enrollment control based on the developing experience under this plan and on the experience of other institutions in order to provide for control of enrollments at both the upper-division and the lower-division levels.

RECOMMENDATIONS OF PRESIDENT JORDAN FOR LOWER DIVISION ENROLLMENT CONTROL
(as amended by the Board of Regents)

For the 1971 Summer Session and the 1971-72 academic year, President Jordan recommends adoption of the administrative procedures described below for all candidates applying for admission to The University of Texas at Austin as (a) new students being admitted directly from high school (new freshmen), and (b) undergraduate students transferring from another college or university with less than 54 semester hours of academic credit accepted by UT Austin (lower-division transfers).

1. Application Period. For new freshmen candidates, the priority application period for both the 1971 Summer Session and the 1971-72 Fall Semester will be November 1, 1970, through March 31, 1971. For new lower-division transfer candidates, the priority application period for both the 1971 Summer Session and the 1971-72 Fall Semester will be November 1, 1970 through April 30, 1971. Applications submitted after the end of the priority period (non-priority applications) will be accepted only through July 1, 1971; no applications for the Fall Semester will be accepted after that date. Similar application time periods will be established by the Director of Admissions for the 1971-72 Spring Semester.
2. Quotas. For the 1971 Summer Session and the 1971-72 Fall Semester combined, quotas for the admission of candidates will be:

   a. New freshmen: 5500
   b. Lower-division transfers: 1200
   Total 6800

Candidates offered admission under these quotas may first enroll in either the Summer Session or the Fall Semester.

These 6800 students plus approximately 300 students from the Summer Provisional Program should produce a total of 7100 new enrollees in the lower division. The increase in enrollment based upon greater utilization of the Provisional Admission Program can be attributed to the fact that many students who would currently be admitted to the lower division may not be able to secure such unqualified admission under the quota system outlined in this proposal. Thus, we would anticipate that many of these students would take advantage of the Provisional Admission Program to gain entrance to The University of Texas at Austin (see section 5).

For the 1971-72 Spring Semester no quota is recommended at this time.

3. Admission Offers to Priority Candidates for Admission as New Freshmen. Candidates who apply during the priority period for admission as new freshmen will be offered admission in the following order:

   a. All candidates who ranked in the top 10% of their high school classes. (Anticipated enrollment: 1,600.)
   b. All candidates who ranked in the top quarter, but not the top 10% of their high school classes and who meet the present UT Austin admission requirements (SAT total of 800 for Texas residents, 1000 for nonresidents). (Anticipated enrollment: 1,500).
   c. All additional candidates who, on the basis of special talents, hold or will be awarded competitive scholarships recognized by UT Austin and who meet the present UT Austin admission requirements. (Anticipated enrollment: 200).
   d. Candidates who ranked in the bottom three quarters of their high school classes and who meet the present UT Austin admission requirements (second quarter--SAT total of 800 for Texas residents, 1000 for nonresidents; third and fourth quarters--SAT total of 1000 for Texas residents, nonresidents ineligible--see section 2). (Anticipated enrollment: 2,200). NOTE: This item was deleted from the recommendation by the Board of Regents. President Jordan will present revised procedures for handling applications from this group at the Regents' Meeting on December 4, 1970.

4. Admission Offers to Non-Priority Candidates for Admission as New Freshmen. Though unlikely, if all the openings for new freshmen are not filled from among priority period candidates, the remaining openings will be offered to candidates who applied after the end of the priority period but who otherwise would have been eligible for admission under the procedures used to accept priority candidates. Candidates in this group will not be considered until May 1, 1971. The period from April
1 through April 30 will thus constitute a second priority period. Applications received after the 1st of May will be accumulated and ranked at periodic intervals and admissions offers extended on the basis of procedures outlined above.

5. Eligible New Freshmen Candidates not Offered Admission Because of Quota Restrictions. Any new freshman candidate who meets the present UT Austin admission requirements but who is not offered admission because of the quota restrictions may enroll at UT Austin under the Provisional Admission Program.

6. Admission Offers to Priority Candidates for Admission as Lower-Division Transfers. Candidates who apply during the priority period for admission as lower-division transfers and who meet the present UT Austin admission requirements will be offered admission under procedures to be adopted at the Regents' Meeting on December 4, 1970. NOTE: This item was deleted from the recommendation by the Board of Regents. President Jordan will present revised procedures for handling applications from this group at the Regents' Meeting on December 4, 1970.

7. Admission Offers to Non-Priority Candidates for Admission as Lower-Division Transfers. If all the openings for new lower-division transfers are not filled from among priority period candidates, the remaining openings will be offered to eligible candidates who apply after the end of the priority period but not later than the final date for making application. Applications received on or after May 1, 1971, will be accumulated and ranked at periodic intervals with admissions offers being made from these groups on the basis of the procedures outlined in section 6. (Anticipated enrollment: 600).

8. Transmission of Application Materials. Upon request, UT Austin will transmit to another institution in the UT System the application materials of any candidate.

9. Deadlines for Acceptance by Candidates of Admission Offers. Admission offers will be cancelled if they are not accepted on or before the specified deadlines. The following acceptance deadlines will apply to candidates for admission in the 1971 Summer Session and the 1971-72 Fall Semester:

a. New freshmen: May 1, 1971, or two weeks after the date of the admission offer, whichever is later.

b. Lower-division transfers: Two weeks after the date of the admission offer.

Similar acceptance deadlines will be established by the Director of Admissions for the 1971 Summer Session and the 1971-72 Spring Semester.

10. Tuition Deposit. Each candidate who accepts an admission offer for the 1971-72 Fall Semester must remit $50 to UT Austin by May 1, 1971, or by 30 days after the date on the admission offer, whichever is later. This deposit will be applied to the candidate's tuition and fees for the semester in which he enters. A tuition deposit for 1971-72 Fall Semester will be refunded if the candidate cancels his admission acceptance on or before July 1, 1971; no refunds will be made after that date. Corresponding dates will be set by the Director of Admissions for the 1971 Summer Session and the 1971-72 Spring Semester.

11. Out-of-state Residents. The procedures stated above apply both to residents and nonresidents of the State of Texas. It is recognized, however, that under the Regents' Rules the proportion of nonresident candidates enrolled in the new freshman group or the lower-division transfers group cannot be as high as 15.1% if at the same time admission to that group is being denied to any qualified Texas residents.
Upon the recommendation of Chancellor-Elect LeMaistre, the following schedules for cross country, basketball, and golf at The University of Texas at Austin were adopted for 1970-71:

It was further authorized that when an affiliation agreement (based on the model finally adopted) with the College of Pharmacy has been executed on the part of the clinical facility, that it be reported to the Board and that when ratified by the Board, the Chairman be authorized to execute the document.

Committee Chairman Kilgore requested Chairman Erwin to name the Special Committee to approve the model affiliation agreement. Chairman Erwin named Regents Garrett (Chairman), Kilgore and Peace.

THE STATE OF TEXAS
COUNTY OF TRAVIS

This AGREEMENT is executed on ________________, 1970, between the BOARD OF REGENTS OF THE UNIVERSITY OF TEXAS SYSTEM, for and on behalf of the College of Pharmacy of The University of Texas at Austin, hereinafter sometimes referred to as "University" in this agreement, and __________________________ hereinafter sometimes referred to as "Facility" in this agreement, WITNESSETH:

WHEREAS, it is agreed by the parties to be of mutual interest and advantage that the students and faculty of the University be given the opportunity to utilize the Facility as a practice laboratory and for educational purposes:

NOW, THEREFORE, for and in consideration of the foregoing, and in further consideration of the mutual benefits, the parties to this agreement agree as follows:

(1) The Facility will permit students of the University to engage in clinical pharmacy clerkships under the direct supervision and responsibility of the faculty of the University. The individual faculty members will be responsible to the liaison
person designated by the Facility for all general arrangements relating to student clerkships.

(2) The number and distribution of students between the divisions of the Facility will be mutually agreed upon between the University and the Facility at the beginning of each semester.

(3) The period of assignment shall be during regular University academic sessions, except in the instance of special arrangements, such as for workshop participants.

(4) The University will provide the Facility with the names of the students who are entitled to use the resources of the Facility under the terms of this agreement.

(5) Representatives of the University and the Facility shall meet as often as necessary to study the clerkship program and terms of this agreement and make such suggestions and changes as are needed.

(6) University personnel, faculty, and students will be subject to the rules and regulations established by the Facility for the division of the Facility to which they are assigned:

(A) the Facility will charge the University no fees for general supervision of clerkships provided for students;

(B) students will be responsible for their own meals, laundry, and transportation to and from the Facility;

(C) the University will be responsible for the students' health needs while in the performance of this agreement; and

(D) the Facility will not be charged for services performed by University personnel or students.

(7) The Facility shall not be liable on account of injury, sickness, disease, or death of any student, personnel, or faculty member using the resources of the Facility under the terms of this agreement. Further, the University agrees, only insofar
as it is authorized by law to do so, to hold the Facility harmless from and against any and all liability for personal injury, including injury involving death or damage to property, that results directly or indirectly from the use by the University of Facility resources, and agrees to reimburse the Facility for all reasonable expenses, including attorney fees, incurred by the Facility in defending any such claim or claims, only insofar as it is authorized by law to do so.

(8) The salaries and expenses of any instructors, supervisors, or other employees of the University will be paid by the University. The University agrees that members of its faculty will serve as consultants and on committees of the Facility when requested by the Facility.

(9) The Facility further agrees as follows:

(A) to maintain the criteria for accreditation as established by the Joint Commission on Accreditation of Hospitals, or other appropriate accrediting agency;

(B) to provide to the University the necessary space or facilities for conference and classroom areas for student teaching, as available;

(C) to provide lounge and locker space for students of the University, as available; and

(D) to allow students and faculty members of the University to utilize the Facility's eating facilities at the students' and faculty's sole expense.

(10) This agreement is for a term of one year, and thereafter from year to year unless terminated by either party upon giving six months' advance notice to the other party by certified mail.
EXECUTED by the parties on the day and year first above written.

2. Permanent University Fund: (1) Restatement and Clarification of Surface Leasing Policies and Damage Schedule and (2) Amendment to Rate Schedule, All on West Texas Lands as They Relate to the Handling of Damage Payments. --The following resolution was adopted:

WHEREAS, Since Section 11 of the current Surface Leasing Policies on West Texas Lands which became effective on October 1, 1969, has been questioned by the Agricultural and Stabilization Service of the U. S. Department of Agriculture with respect to the intention that funds received for damages would be handled by the University System as agent for the grazing lessee:

BE IT RESOLVED, That the Surface Leasing Policies on West Texas Lands which became effective on October 1, 1969, be restated and so clarified as set out below.

Surface Leasing Policies on West Texas Lands

Effective October 1, 1969

1. Length of Grazing Lease--Five years, with a five-year extension at an increased rental.

2. Conditions of Extension--The extension will be effective only if lessee completes a range conservation and/or a ranch improvement program outlined under the terms of the lease. The Land Agent, a representative of SCS, and the grazing lessee will evaluate and determine what conservation and improvement programs are needed on the lease. All programs must be completed during the first five years of the lease with range management in effect the full 10 years. If the lessee at any time during the term of the lease does not show good faith and follow diligently the programs outlined, the University after proper notification and at its option will have the right to terminate this lease.

3. Renewal of Grazing Lease--If lessee has practiced good range management and conservation and is willing to enter into such additional programs as will be outlined in the lease, he, his heirs, devisees, or assigns will be given first preference of renewal at a renegotiated price. However, it will be understood that the University shall not be obligated in any way to renew the lease.
4. Rental Rates--Rental rates will be based on the number of animal units the lease is capable of carrying as determined by Land Agent (currently $15.00 per animal unit per year).

5. Livestock Limits--The University will set the stocking rate of animal units allowed on each lease. If lessee chooses to run more livestock than the allowed rate and the excess rate does not harm range conditions, he may do so by requesting in writing and receiving permission in writing from the Land Agent. For this privilege, he will pay the University $2.00 per animal unit per month for all stock in excess of the allowed rate.

6. Pasturing Stock Other than Own--A lessee after requesting in writing and receiving permission in writing from the Land Agent will be allowed to pasture stock other than his own for a period not to exceed 6 months. Under no conditions will a lessee be allowed to sublet his grazing lease.

7. Size and Number of Leases--There shall be no restrictions on the size of a grazing lease or the number of leases held by a family, partnership or similar entity. No lease shall be divided unless each will be an economic operating unit.

8. Limitations Regarding Lessees--In renewing, assigning or making new grazing leases, all things being equal, preference shall be given to Texas residents.

9. Farming--Irrigated farming shall be permitted in those areas where water does not have commercial priority or where water is being drained from under University lands. Provision shall be made in the grazing lease form to permit separation of irrigated land from the basic grazing lease without permission of the lessee. No dry land farming will be permitted on University lands without first requesting in writing and receiving permission in writing from the Land Agent. Lands removed from the grazing lease for farming purposes will be subject to additional rental.

10. Oil Fields--At the discretion of the Land Agent, grazing areas containing a sizable oil field shall be removed from the basic grazing lease. All grazing leases are subject to the development and prospecting for oil and gas or other minerals, also to the issuance by lessor of easements and rights-of-way.

11. Damage Payments--Parties, other than grazing lessees, conducting operations on the leased premises shall pay for damages due to such operations in accordance with the Damage Schedule attached hereto, and made a part hereof. Payments for such damages shall be paid and handled in the manner set out therein.

12. Improvements--The University will require a lessee to maintain ranch improvements at his own expense. All improvements on University lands are the property of the University.
13. Ingress and Egress--The University will be allowed to authorize its oil, gas and mineral lessees, geophysical exploration and other permittees the right of ingress and egress over land adjacent to University land owned or controlled by University lessees.

14. Hunting Rights--The lessee shall have the right to control hunting on his grazing lease, provided that the University shall be entitled to one-half of any consideration received for hunting. Where such consideration is received, annual reports and payments shall be made to the Land Agent.

15. Assignment of Grazing Lease--Assignment of a grazing lease requires written permission of the University, with the University to receive one-half of any bonus paid by assignee.

16. Records--When requested to do so by the University, records shall be maintained and reports shall be furnished to the Land Agent by the lessee as to the number, ages and type of livestock grazed on the lease and as to such other matters as may be considered necessary or appropriate.

**Damage Schedule**

*Effective October 1, 1969*

I. Guidelines for Operating under This Schedule.

All monies due for damages (except those attributable to acts of negligence) on lands leased to a grazing lessee, pursuant to this schedule of damages, shall be paid to the University for the account of the lessee of the land on which the damage was incurred. All funds so received shall be handled as set out below in Paragraph III.

The payment of the standard damage rates does not in any way limit the liability of a company or operator in an action at law for any damages caused by reason of acts of negligence. Compensation for acts of negligence, such as loss or injury to livestock or excessive grass damage, shall be paid directly to the grazing lessee. In the event of a disagreement between the grazing lessee and operator, the University will arbitrate and fix damage payments.

No fence shall be cut or cattle guards installed without permission of the University Land Agent and Oil Field Supervisor.

All operators must notify Land Agent and Oil Field Supervisor and grazing lessee before any operations begin.
All standard damage payments or correspondence concerning this schedule shall be mailed to:

1. Dallas Medical School: Remarks by Committee Chairman Josey. --With respect to The University of Texas (Southwestern) Medical School at Dallas, Committee Chairman Josey read the following statement:

Some information has come to me in recent days which I think will interest the Board.

For the fifth consecutive year The University of Texas (Southwestern) Medical School at Dallas has been at the top or near the top scholastically as judged by a national examination taken by senior students at approximately 71 medical schools.

Certain requirements of the examining group prevent public disclosure of exact ranking nationally, however, I am permitted to report to you that the students of the U. T. Medical School in Dallas have ranked near the top for the last five years and in one year achieved that top position. The students have been particularly outstanding in pediatrics, in which they outscored the nation's other medical students five straight years, and our students have made U. T. Medical School at Dallas one of the best in medicine and surgery.

This Board and the U. T. Administration on many occasions have discussed teaching effectiveness and better teaching at all our institutions. I think the record of SWMS is a credit to students and faculty alike.

Because of our agreement with the examining group, further details cannot be made public. However, I would like for the Board of Regents to accept this statement as a matter of record and that this statement be reflected in the Minutes of this meeting.

3. Houston Medical School, Houston Dental Branch, M. D. Anderson, G.S.B.S. and Public Health School: An Operating Agreement with the Houston Academy of Medicine, Baylor College of Medicine, Texas Woman's University and Texas Medical Center, Inc., for Library Services of the Houston Academy of Medicine - Texas Medical Center Library. The Committee considered the proposed operating agreement among the Houston Academy of Medicine, Baylor College of Medicine, Texas Woman's University and the components of The University of Texas at Houston (The University of Texas Medical School at Houston, The University of Texas Dental Branch at Houston, The University of Texas M. D. Anderson Hospital and Tumor Institute at Houston, The University of Texas Graduate School of Biomedical Sciences at Houston and The University of Texas School of Public Health at Houston) providing for the operation of the Houston Academy of Medicine - Texas Medical Center Library for use by the participants of the agreement. This Agreement as set out on Pages 96 - 103 was approved subject to (a) changing the word "between" to "among" on Line 1 and (b) clarifying the last sentence of the second full paragraph of Section (4) so that changes in the composition of the Library Board will be made by a majority (or, at least, a two-third's) vote of all members of the Board.

When these two ambiguities have been changed, the Chairman of the Board of Regents is authorized to execute this agreement for the joint operation of the library by the participating institutions when it has been approved as to form by a University attorney and as to content by Chancellor-Elect LeMaistre. This contract supersedes all previous agreements with the Houston Academy of Medicine and provides for the operation of the Houston Academy of Medicine - Texas Medical Center Library:
THE STATE OF TEXAS

COUNTY OF HARRIS

This OPERATING AGREEMENT is executed by and between the
HOUSTON ACADEMY OF MEDICINE, hereinafter called the "Academy";
BAYLOR COLLEGE OF MEDICINE, hereinafter called "Baylor"; TEXAS
WOMAN'S UNIVERSITY, hereinafter called "TWU"; THE UNIVERSITY
OF TEXAS AT HOUSTON, hereinafter called "The University"; and
TEXAS MEDICAL CENTER, INC., hereinafter called the "Center";
all of which entities are referred to collectively herein as
the "Participating Institutions," WITNESSETH:

WHEREAS, the Academy and Baylor have for many years
operated a library in the Texas Medical Center (such library
being known as "The Houston Academy of Medicine Library for
the Texas Medical Center" and hereinafter referred to in this
agreement as the "Library") pursuant to the provisions of
several operating agreements between them, the most recent
such agreement constituting the fourth operating agreement,
dated December 6, 1967; and

WHEREAS, pursuant to such fourth operating agreement,
the Academy undertook the responsibility for the development,
operations, and future acquisitions for or on account of such
Library, but chose to delegate a part of this responsibility
to a Library Board provided for in such fourth operating
agreement and which was composed of representatives of the
Participating Institutions; and

WHEREAS, it has been determined that the Library is now
and shall be in the future a joint endeavor and that this
responsibility for the continuing development and operation
of the Library shall rest with the Participating Institu-
tions referred to above:
THEREFORE, in consideration of the foregoing and in further consideration of the premises and beginning with the date of the execution of this agreement, the operation and maintenance of the Library shall be pursuant to the following terms and conditions:

(3) It is hereby agreed that the joint operation of the Library by the Participating Institutions will best serve the furtherance of the purposes for which it was founded, and the responsibility for the development, operations, and acquisitions of the Library shall hereafter rest with all of the Participating Institutions in the manner set forth below.

(4) A Library Board shall be organized to oversee the operation of the Library. Recognizing that the best interests of the Library will be served and the excellence thereof enhanced by having each of the Participating Institutions represented on the administrative body that determines policy for the continuing development of the Library, and which delegates responsibility for the actual operation of the Library to its executive director, it is hereby agreed that the Library Board shall be composed initially, of two representatives from the Houston Academy of Medicine, two representatives from Baylor College of Medicine, two representatives from The
University of Texas at Houston, and one representative from Texas Medical Center, Inc., and one representative from Texas Woman's University. After the first year of operation under this operating agreement, and annually thereafter, the Chairman of the Board of Trustees of the Academy will request each Participating Institution to appoint or reappoint a representative or representatives and their alternates to serve on the Library Board for the succeeding year. Members of the Library Board will customarily serve three-year terms and may be reappointed.

The Library Board shall make an annual determination whether to add one or more Participating Institutions entitled to appoint representatives to serve on the Library Board, whether to drop one or more Participating Institutions from representation on the Library Board, and whether to increase the number of representatives from one or more of the Participating Institutions. Changes in the composition of the Board will be submitted to the signatories of this agreement for ratification.

Major factors to be considered in determining representation on the Library Board by Participating Institutions shall include, but not be limited to, the level of support, the range of educational and research programs served, and the level of utilization.

Alternate members may participate in discussions and may vote when the official member is absent.

The Chairman and the other officers shall be elected by the Board annually. The chairmanship shall not reside in the representatives of a single institution for more than three years consecutively.

(G) To support the executive director in the provision of all appropriate measures for preserving, protecting, and augmenting all properties of the Library, including books, manuscripts, periodicals, and other materials;

and

(H) To appoint with the advice of the executive director and the faculties of the Participating Institutions a scientific advisory committee whose function it shall be to advise the executive director on the administration of the Library to include, but not
limited to, acquisitions and services and
to speak to the interests and needs of the
Participating Institutions in the normal
conduct of the affairs of the Library. The
membership of this committee shall be repre-
sentative of the actual and potential users
and shall include at least one representative
from each of the major user groups.

(6) All books, manuscripts, and periodicals now the prop-
erty of one of the Participating Institutions shall remain the
property of that institution and shall be maintained in its name.

All future acquisitions of the Library shall be under the
control of the Library Board and the Academy.

(7) It shall be the policy and practice of the Library
Board to seek affiliation agreements with organized libraries
in the Texas Medical Center and in other closely related insti-
tutions. It shall further be the established intent of the
Board that there shall be a coordinated and cooperative working
relationship between the Library and its affiliated libraries.

(8) Financial support for the operation of the Library
shall come in general from the participating and other user
institutions. It is recognized that the Library Board repre-
sentatives of the Participating Institutions will secure
approval from their senior administrative officers or boards
prior to committing their institutions to any financial obli-
gations. The level of support by each institution shall be
based on the following factors:

(A) An established amount to be assessed against
each participating and other user institution
for the general support of maintaining the
Library as a resource of the Texas Medical
Center and the Houston medical-scientific
community.
(B) The size of the faculties and student bodies of the Participating Institutions, as well as the size of the membership of the Houston Academy of Medicine.

(C) The use of the Library by staff and students of Participating Institutions as determined by circulation statistics.

(D) Special or exceptional uses by Participating Institutions.

(9) Each Participating Institution recognizes a continuing financial responsibility for the maintenance, operation, and upkeep of the Library commensurate with its utilization thereof and benefit derived therefrom, both potential and actual. Accordingly, each Participating Institution agrees to cooperate fully with the Library Board and with each other in using its best efforts to solicit financial participation from the other user institutions, both within and without the Texas Medical Center, from the lay community, charitable foundations or trusts, and other appropriate sources.

(10) The needs of the Participating Institutions and other supporting institutions shall serve as the primary basis for determining the scope of the operations of the Library and its expansion and growth.

(11) The administration of each component institution shall be fully responsible for its members, students, faculty, and employees in their relationships with the Library; however, it is clearly recognized that the administration of the Library shall keep the participating and other user institutions currently informed of any irregular practices on the part of their members, staff, or students. It shall be the responsibility of the Board, on recommendation of the executive director, to attempt to rectify unworkable procedures.
(12) The Library Board shall make an annual report, to be prepared by the executive director with distribution as determined by the Board. The annual report shall include statements on the use of the Library, acquisitions, lost books, total current journals, bound journals, total volumes of books, finances, the annual budget figures, and such other matters as may reflect the activities of the Library during the immediate past year and plans and recommendations for the ensuing year.

(13) The Library Board hereby designates the Texas Medical Center, Inc., as legal agent and representative of the Library Board in any application applying for funds from federal government sources, including, but not limited to, the National Institutes of Health, the National Library of Medicine, and any other appropriate agencies of the federal government for both operating and capital funds.

(14) In the event a Participating Institution withdraws from this agreement, it will receive a prorated portion of the value of its contributions made after the activation of this agreement to the collections of the Library. The amount of this portion and its settlement will be determined through negotiations between the Library Board and the withdrawing institution. An appeal from such determination may be made to the signatories of this agreement.

(15) Amendments to this operating agreement shall be adopted by the Library Board subject to ratification by the signatories of this agreement. That certain fourth operating agreement dated December 6, 1967, relating to the operation of the Library is hereby superseded and is of no further force and effect.
(16) This operating agreement is a fully integrated agreement and no parol agreement of any kind shall modify, expand, or in any way affect the terms hereof.

Without objection, the following report of the Committee of the Whole filed by Chairman Erwin was adopted:

REGENTS' RULES AND REGULATIONS, PART TWO: AMENDMENT TO CHAPTER I, SECTION 5, POLICY AGAINST DISCRIMINATION.--Part Two of the Regents' Rules and Regulations, Chapter I, Section 5 was amended to read as follows:

Policy Against Discrimination. --With respect to the admission and education of students, with respect to the employment and promotion of teaching and nonteaching personnel, with respect to student and faculty activities conducted on premises owned or occupied by any component institution of The University of Texas System, and with respect to student and faculty housing situated on premises so owned or occupied, neither The University of Texas System nor any of its component institutions will discriminate either in favor of or against any person on account of his or her race, creed, color, or sex.

U. T. SYSTEM: AUTHORIZATION TO CHANCELLOR TO APPROVE INSTITUTIONAL SUPPLEMENTS. --Authorization was given to the Chancellor to approve all institutional supplements from the component institutions after they have been reviewed by the Law Office and other appropriate system personnel, provided that no provisions in the institutional supplements shall be in conflict with the Regents' Rules and Regulations. The administration was instructed to present at the meeting on December 4, 1970, amendments to the Regents' Rules and Regulations to implement this policy and procedural change.

U. T. SYSTEM: THOSE AUTHORIZED TO ATTEND REGENTS' MEETINGS. --With respect to the official attendance at any meeting of the Board of Regents by employees of the U. T. System and its component institutions, it was ordered that those whose presence is deemed by System Administration to be either necessary or desirable at any such meeting shall be authorized and directed by System Administration to attend.

U. T. SYSTEM: REPORT BY DEPUTY CHANCELLOR E. D. WALKER WITH RESPECT TO SECURITY MATTERS. --Deputy Chancellor Walker presented the following report with respect to security matters for the various component institutions of The University of Texas System:

In order to provide personnel trained specifically for security on a university campus, The University of Texas System established a series of Training Schools especially for the training of personnel for the various component institutions within the University.
The first Basic Training School for training of commissioned peace officers was conducted during January of 1968, with the first officers commissioned on February 1, 1968. Since that time, a total of seven Basic Training Schools has been conducted, and 144 commissioned peace officers have successfully completed the required program.

In order to provide a program related to practical security and police programs and to continuously update the training, In-Service Training Schools were begun in July of 1968 for commissioned officers. As of September 1, 1970, 44 commissioned personnel have completed an In-Service School Program.

The University of Texas System Training School for Police Personnel was certified by the Texas Commission on Law Enforcement Officer Standards and Education on January 3, 1969. The curriculum for each of the schools is reviewed and approved by the Texas Commission on Law Enforcement Standards and Education. The Department of Public Safety, the Austin Police Department and the Federal Bureau of Investigation have most willingly furnished selected instructors for these Training Schools.

Professional police officers serve as chiefs of the seven Police Departments in the University System at the present time. As of September 1, 1970, 125 commissioned personnel staffed the seven component institution Police Departments.

In order to insure the quality of the Police Departments of the various component institutions, a program of evaluation by the System Security staff was initiated in November of 1969. The purposes of these evaluation surveys are:

1. Evaluate training needs at each of the component institutions in the System.
2. Review the level of staffing and utilization of personnel.
3. Review and recommend on the equipment needs and utilization of equipment.
4. Review and recommend regarding the On-the-Job Training Program.

A comprehensive evaluation survey will be made at each institution every year, and a follow-up review will be made periodically as conditions warrant.

In order to further improve the overall Security Program of the University System, studies are being carried out on:

1. Lengthening and expanding the Training School curriculum to include instructions by a psychia-
trist in handling of persons under the influence of drugs and to establish education programs on drug abuse.

2. Utilization of new police training techniques including video tape recordings of actual case demonstrations such as moot court training and crime scene investigation.

3. More frequent seminars and special purpose training programs of one to three days' duration.

It might be pointed out that the academic community is a unique environment. The requirements for its protection, law enforcement and training programs developed within the U. T. System are focused on the unique needs of the academic community. One essential ingredient of the success of our training program is cooperation among all concerned--staff, faculty and students alike. We have such cooperation.

U. T. SYSTEM: AUTHORIZATION TO ACQUIRE LOTS 7, 8, 9 AND EAST 3 FEET OF LOT 10, BLOCK 71, CITY OF AUSTIN. --Authorization to acquire Lots 7 and 8, Block 71, Lot 9 and the East 3 feet of Lot 10, Block 71, Original City of Austin, Austin, Texas, which authorization was originally given at the July 10, 1970, meeting of the Board of Regents, was reconfirmed by unanimous vote, and the Chairman of the Board was authorized to execute the necessary papers and to take all necessary actions to acquire this property.
