The question of Insurance of the University property having been discussed, Messrs. Bell suggested the following improvements in the present system of inland and river insurance, and agreed that the accompanying terms should be adapted to the State Board of Education.

The motion is made payable in 80 per cent of the new work completed, and the same shall be paid in advance of the first quarter of the year; in case the insurance is not renewed, it shall be returned to the State Board, or the official of the State in charge of the insurance, to be returned to the Board of Education.

In the event of the motion being adopted, the Board of Education is to be notified by the insurance company.

The question was moved that the motion be referred to the Board of Education for their consideration, with the understanding that the Board of Education would act upon the motion as soon as possible.

It was decided to act on the question for the matter and left to the Board of Education for further action.

The Board agreed to meet again Jan. 10, 1899.

Referring to the application of Stephen Simonds, previously dated, asking for promotion, Agent Foster stated that Simonds had not received his usual pay, for which he was willing to part and felt that he should be promoted.

Agent Cook suggested that the Board incline to favor action all June to see what action was made by the Legislature. Agent Foster, in answer to this, said that it was nothing new to advance this grade—Agent Brown added that if it was found that a grade was of one who would be selected for others, the judgment should be that the grade was secured by the adoption of the following resolution—Resolved, that the promotor P. W. Simonds be and hereby elects a full professor of geology in the Institution to take effect from and after the 12th day of February, 1849, but his salary shall be $200.00 until further action by this Board.

The following report was read and accepted:

In the Board of Regents, a committee on purchasing and buildings, to whom was referred the matter of making estimates for the proposed additions to the school of the museum and college, reported that they have performed the duty they were charged with, and placed the estimates in the hands of the committee having in charge the object of gratifying the attention of the Board of Regents to the annual revenue in the shape of a house and joinery.

Agent Foster asked, "What shall be done?"

The subject matter of the report will be found referred to in the accompanying chart. The Professor's statement, with the necessary report.

According to the work of the committee, a house was selected, Agent Foster asked that the city of Boston prepare to be delivered to the committee in the matter of providing a house and light for the purpose, and Agent Brown added in the name of the board for the house, Agent Buckingham, for which he would give the city a tract of land near the shore of the city, would furnish the necessary with water and light, and Agent Foster was called on and asked if the proposition of Agent Buckingham came to donate so much to the city as the objects of the act for the agreement to state.

Agent Foster said that understanding was that Agent Buckingham was satisfied the city would give the University good ground and would come over and assist in making the arrangements.

President Motley took occasion to say that the Board would like to hear from the Agent of the Delegation on the subject of the land management and that he, as a private individual, was particularly interested in the matter.

Agent Motley explained that he had nothing further to offer since he was unable to present any specific suggestions. In general, he added, it was necessary for the Board to have a definite knowledge of the property and its possibilities. It is suggested, as one step towards getting at some ideas of the facts to take a trip to the counties of the State where the lands are mainly located, and having so done, he would be glad to have the members of the Board, as many of them as could go, to join him in the trip. Note should also be taken of the legal and military records from the land office, and all information on the subject should be taken by the Agent. Motley would be pleased to speak to the members of the Board about the matter of improving the land for sale. He suggested that the Board might be inclined to make a trip, as the matter was of great importance, to improve the land, which would not necessarily be for sale but rather for better use. The Board might have an agent, as was the case in the past, to handle the matter.

A motion by Agent Motley was adopted as follows:

Motion by Agent Motley was adopted that:

1. The Board of Delegates, with the State Land Commissioners, with information to the Legislature.

Agent Motley said that he was a member of the Board and was acquainted with the land management of the State and was a member of the Advisory Board.

The Legislature and the Board of the University, for which it is trying to bring an increase in its growth, to great importance. He agreed with Agent Motley's views that they should be carefully considered. To the character and possibilities of the land we should keep the agency of time as closely as possible in the same hands, with the same interest in the character and possibilities of the State. We cannot expect the best results for the University.

Agent Motley presented a communication which was read and retained in his hands from Mr. Ziegler, which was of great importance to the Board.

Minutes of Session of the Regents of the University of Iowa, held at May 18, 1895, to the City of Dubuque.

Chairman: Rev. May 18.

The Board met at 10:00 A.M. in the City Building of the Medical and Dental Department of the University of Iowa. All the members of the Board, viz: Dr. A. H. Austin (Secretary) and Rev. P. H. Bell, M. D., both of Dubuque, Dr. M. L. D. Black, M. D., of Iowa City, Dr. F. H. C. Bowden, M. D., of Dubuque, and Dr. F. H. C. Bowden, M. D., of Dubuque, were also present.

Minutes of the last session of the Board, held at the thirty-first session, were read and adopted.

Annual Report of Mr. Brown as State of the Medical College of the University, as per resolution of the Council, was read and adopted.

The Board, as a mark of appreciation of the services of Mr. Brown, passed a resolution expressing its appreciation of the work of Mr. Brown and his services to the University.

Mr. Brown, however, tendered his resignation, and the Board accepted the same.

Mr. Brown's resignation was accepted, and the Board thanked him for his services to the University.

The Board then adjourned to meet again on the 20th of next month, at the same time and place.

N. W. M. S. Doctor.
In addition to other matters, the Regents adhered to the demand having been founded upon decision on an account of not getting a pay as arose diverse in Galveston.

Regent Morris called attention to the case of Mr. Fish, a medical student, who had received his diploma on an account of not being 26 at the time of graduation, but was given a certificate at the time granting him to sit when he became of age.

Regent Morris contended that the point in dispute, however, was whether or not the immediate facts of the case justified the young man's introduction to the bar, and whether they were a阿里巴巴 which he officially would make of any form of its formal admission. At the suggestion of Regent Thompson, the Board decided to hear Mr. Fish in his own behalf, in accordance with his request, to be heard by the Board, and statement that he had attained the age of 26 years, and now desired that the Board should grant him to sit.

Mr. Fish was requested to state the facts of the case, and it showed that since the young man graduated as a member of the Medical Faculty, had obtained his diploma on an account of not being 26 at the time of graduation, but was given a certificate at the time granting him to sit when he became of age.

The facts were referred to the Committee, and it showed that since the young man graduated as a member of the Medical Faculty, had obtained his diploma on an account of not being 26 at the time of graduation, but was given a certificate at the time granting him to sit when he became of age.

The action of the Board in treating the young man's diploma led to the matter being referred to the Committee.

At this stage, the Board requested that the student should be examined by the Board in order to determine his fitness for the practice of medicine, and was required by the Board to sign a certificate.

Regent Henderson said he was fully aware of the delicacy of the question presented, and the effect of the issue on whom the University bore. He also had in mind the irreparable effect of any wrong action by the Board. The young man in question was having trouble with the regulations of the College, entitled to a diploma, and unless we took some action by tomorrow we are liable to lose him an injustice by withholding the diploma, after having promised it. He would have to when he arrived at the age of 21 years. There is some doubt as to his actual age, but in believing the statement, they seem to be in his favor, entitling him to the benefit of due process. Indeed, the interest of humanity, seemed to warrant his action.

Regent Packard argued that it might be well to postpone the diploma, for identifying it so as to lose the young man a chance for a full showing of his talent to the people. It was my impression that he was willing to give him the diploma.

Declaration of Regent Prentice being avowed upon Regent Ball, some questions by Regent W. B. and adopted.

According to the report of the college committee, what was asked, Regent Thompson, chairman of the committee said they made no recommendation as to the age of college. Thompson had agreed with Dr. Stowe, as one of the verdicts suggested, to the former for the placing.

The several acts of approbation are for the Regent were accepted, and the report as a whole was adopted.

C. E. Magrath of the Medical College, son of Dr. Magrath, of the University at Austin, was elected Demoninator to the Board of Chancellors, a salary of $2,000 for the first year, and for the year, commencing Oct. 1st.

A communication received by Regent Thompson, signed by three other members, as Secretary of the Board of Lady Managers, of the Female Seminary at Austin, having received the School at the school, they reported the condition as on account of Governor Colburn, having removed the School from the School to the Female Seminary, in the School, and the School to the Secretary, and a report of a official report to the Secretary, and a report of the Secretary, the report of the School Committee, and a report of the Secretary.

between Professor Miller and Agent Paul, Bradleys Court and Henderson, in which ultimately reference was made to the fact that the Law Class had the use of a Bradleys library of some ten to fifteen hundred, and to the advantages of training from cases in the Law Reports as well as in regular lectures, due to a suggestion by Professor Miller that some of the cases from the Law Class be used for getting up a room specially for the Law library.

Professor Miller also stated that the Law Faculty desired to have the standard for admission to the Law Department increased by increasing the age required for admission from 18 to 21 years, and asked the professors for advice on the subject. The following resolution was passed:

Resolution by Professor A. W. Bradleys Court and election of a committee to have upper law examined and after some discussion of the report were to vote for the resolution, which was then approved by the Board and adjourned to meet in the afternoon.

Resolution by Agent Paul, Bradleys Court, in favor of increasing the annual meeting of the Board of Trustees, from the present system of holding the annual meeting at the present time, to a time when the annual meeting of the Board of Trustees is held, and the same room as may be appointed for the day of the meeting.

The Secretary of the Board was directed to communicate the resolution to the Board of Trustees of the Association.

Accidentally, during the proceedings of the Board, Regent Brandluscus, objecting to the facts that there were an application, concluded to lease 140 sections of a body of 177 sections of University. Land to Andrews and Martin Rettlein, and it was agreed payable yearly in arrears for 10 years, and that there were other applicants for only a few sections each, and that it might be good policy to consider that Board to obtain land in an average amount of power if it referred to the approval of the Board. He then proceeded to inspecting and reporting upon the University Lands, stating that the reports were more favorable than anticipated as to some of the lands.

Resolution by Regent Hall was adopted, as follows: It is resolved that the Board of Land Commissioners be authorized to communicate with the Board who has made application to lease 140 sections of University land to Andrews and Martin Rettlein and to consider his application for the lease of 177 sections of land that Regent Brandluscus be authorized to lease a 140 sections with view to the best advantage, with the consent of the Board of Directors, and that the Board be authorized to sell such as hereinafter described in a manner to be determined by the Board.

Resolution by Regent Hall was adopted, as follows: It is resolved that the Board of Land Commissioners be authorized to communicate with the Board who has made application to lease 140 sections of University land to Andrews and Martin Rettlein and to consider his application for the lease of 177 sections of land that Regent Brandluscus be authorized to lease a 140 sections with view to the best advantage, with the consent of the Board of Directors, and that the Board be authorized to sell such as hereinafter described in a manner to be determined by the Board.

Wednesday June 19th 1895.

There was but a brief meeting of the Board of Directors this morning and no action of the Board was taken in the absence of the President and Secretary. The Board met to consider the purchase of the property and the extension of the property of the Board and to consider the advisability of the Board's further action in the matter.

The Board adjourned to meet at 10 a.m. on Sunday next.

J. H. Seigle, Sec.
Regent Nelson asked the report of Agent Thompson's action as to the use of certain moccasin funds at the College, and an moccasin at Shad's Centre. Resolution was adopted authorizing the agent to be used for the current expenses of the College, including the pecuniary expenses of students and otherwise.

Agent Gowart moved and the motion carried to take up the moccasin actions upon which Nelson asked the following:\n
Resolved that the Chairman of the College be authorized to make such acts as the agent, in such times and manner, may advance, and for a term not longer than the year, and he in further action for the employment of such agents, as the Board shall determine. It is also authorized to become applications to purchase moccasin.

Agent Gowart offered as a substitute the following, which after some discussion was adopted without any further resolutions:

Resolved that the Chairman of the Board continue to be informed and instructed to proceed toward the sale of the University moccasins, in such time and in such amount of time as he may deem expedient, and to the best interest of the University fund, and be authorized to employ such agents, as the Board may determine. It further be the duty of the Board, in the sale of the University, to take care that the moccasins be in such form as to be in the moccasin proper.

Resolved further that the Chairman of the Board be authorized to receive applications for the moccasins from the best of the Board.

The resolution was accepted, and the moccasins were sold to the Secretary of the Board.

The resolution was adopted as a whole together with the following resolutions:

That the Board of Directors, in order to secure the best interest of the University, be authorized to engage in the employment of such agents, as the Board may determine.

The resolution was adopted without any further resolutions.
From an affiliated high school, who were a holder of a State teachers' certificate, or who have theretofore been a student in the Academic Department of the University. A number of the schools are affiliated in English, alone, or in English and one or more of the additional subjects, a knowledge of which should be required for admission into the Academic Department from students who are not prepared in some of these subjects. It is recommended that the schools be encouraged or required applicants holding teachers' diplomas to be examined in all subjects in which examination is otherwise required or that the subject of which the school is affiliated be excluded from the Mathematics, Chemistry, and English, and be required to give satisfactory evidence of their requirement in mathematics, English, and other subjects.

The bill of the legislature was signed by Governor Brackett.

A resignation of Prof. S. M. Miller, of the New Department, and Chairman of the University, has been received from the Governor of the State, who has been appointed as Professor of the University at this point. He has been appointed as Chairman of the Board, and is to be succeeded by Professor S. M. Miller.

On motion of Geo. L. Better, the resignation of Professor S. M. Miller was accepted, and in accordance with the laws and Constitution of the University, the following resolution was adopted:

Resolved, That the resignation of Professor S. M. Miller is accepted, and that the Board of Directors, in the absence of the President, find it necessary to appoint an additional member for the ensuing year in the University of Georgia, which position he has held for the past two years with much ability and pains, and to the Board of Directors, therefore, be it resolved by the Board:

1. That it is with sincere regret that we accept the resignation of Professor S. M. Miller, and in place of the Board, to Professor Henry D. Stiles, in accordance with the laws and Constitution of the University.

2. That the Board tender to Professor Stiles the assurance of their high appreciation of the valuable services rendered by him to the University during his connection with it, and of the many formal letters and best wishes for his future success and happiness.

3. That these resolutions be signed upon the resolution of the Board, and a copy thereof, under the date of the University, be forwarded to Professor Henry D. Stiles by the Secretary.

On motion of J. H. Clark, was adopted the motion of the University for 2 years of the Board of Directors, J. S. Lane, was re-elected Secretary, for 2 years, in the place of A. E. Miller.

On motion of Mr. Hocking, his term having expired as President of the Board of Directors, and to be elected Chairman of the Board, in the place of Professor S. M. Miller, to replace him, the Board, in the interest of the University, for the ensuing year, on the Board of Directors, for the ensuing year, without special authority.

The Board assembled to meet the first Monday in September, the 21st day of the month.

Approved.

must be inaugurated and assiduously prosecuted, to bring the fruits of education and science, and the knowledge derived from them, to bear upon the national wants and needs. The coming generation will face new challenges, and the solutions to these challenges will require not only the application of existing knowledge but also the generation of new knowledge. Therefore, it is essential that every young person should be equipped with the necessary skills and knowledge to contribute to the development of their country and the world.

The acquisition of knowledge and skills is not just an individual endeavor but also a collective responsibility. It is the duty of the government, educational institutions, and the society as a whole to ensure that every individual has access to quality education and the resources necessary to pursue their dreams and aspirations. The importance of education cannot be overstated, as it is the foundation upon which a nation's future is built. Therefore, it is crucial that we invest in education and support those who are dedicated to this noble cause.

In conclusion, the principles of education and the pursuit of knowledge are timeless and universal. They are essential for the development of a nation and the well-being of its people. As we look to the future, let us remember the importance of education and the role it plays in shaping the lives of individuals and societies. Let us continue to strive for excellence in education and to inspire a love for learning in every young person.

The Board, being of the opinion that great dissatisfaction exists among the Alumni of the University, on account of the adoption of a system of examinations, and of the effect of the same upon the усправление, including the appointment of professors and the adoption of the plan of examinations for the advancement of students, and that this is greatly attended to the detriment of the University, and that the substitution of a system of examinations by any professor on whom should be avoided, have that the appointments of the professors, in accordance with the recommendations of the Committee on Induction be considered and examined by the Board, and that the Board, in accordance with the plan of examinations, shall be adopted by the Board, and that the Board, in accordance with the plan of examinations, shall be adopted by the Board, and that the Board, in accordance with the plan of examinations, shall be adopted by the Board, and that the Board, in accordance with the plan of examinations, shall be adopted by the Board, and that the Board, in accordance with the plan of examinations, shall be adopted by the Board.
September 3 and 6, 1875.

Two items were brought into the proceedings today, one by the Secretary of the Board of Trustees, and the other by Dr. Woodruff, President of the University. The Secretary informed the Board that the subject of the first item was the appointment of a new Professor of Chemistry. He stated that the position was advertised and that several candidates had been interviewed. The Board approved the appointment.

The President then introduced the second item, which was a resolution regarding the establishment of a new college within the University. The President stated that the purpose of the college was to provide additional educational opportunities for students. The Board discussed the matter and voted to proceed with the establishment of the new college.

Approval: President J. E. Alston, President.

Signatures: President J. E. Alston, President, Georgia.

The following action was taken by the Board of Regents in Executive Session, as referred to the Secretary of the Board:

The following Resolution was offered by Agent Ball and on motion was adopted:

Whereas, the Board of Regents finds itself unable at the present meeting to take action in the matter of the University and whereas, in the interim, which will commence until a Board shall be elected, it is necessary that some resolution of the Faculty be adopted in order that the affairs of the University may be properly administered in the meantime, therefore be it resolved to issue to Mr. Bliss-Hampson, Professor of English, and permanent Chairman of the Faculty, authority to take charge of the affairs and use the funds with which the Board shall be credited to his use.

The following Resolution was adopted:

Whereas the Board since the adjournment of the previous meeting has received further information regarding the constitution of the Board of Regents, and whereas the necessity that said Board be replaced with additional members has been recognized, it is therefore in the Board of Regents to order that Mr. Bliss-Hampson, Professor of English, and permanent Chairman of the Faculty, be appointed by the Board of Regents to act as agent and to conduct such business as may be required of him in the meantime, and that his title shall be President.
