Chairman Beecherl announced a quorum present and reconvened the meeting of the Board.

WELCOME BY DR. SAMUEL A. KIRKPATRICK, PRESIDENT OF THE UNIVERSITY OF TEXAS AT SAN ANTONIO.--Chairman Beecherl stated that the Board was pleased to be meeting at The University of Texas at San Antonio and then called on Dr. Samuel A. Kirkpatrick, President of U. T. San Antonio, for any welcoming remarks on behalf of the host institution.

On behalf of the faculty, staff, and students at U. T. San Antonio, President Kirkpatrick welcomed the members of the Board and other guests to San Antonio.

U. T. BOARD OF REGENTS: APPROVAL OF MINUTES OF REGULAR MEETING HELD ON FEBRUARY 13, 1992, AND SPECIAL MEETING HELD ON MARCH 17, 1992.--Upon motion of Regent Rapoport, seconded by Regent Barshop, the Minutes of the regular meeting of the Board of Regents of The University of Texas System held on February 13, 1992, in Tyler, Texas, were approved as distributed by the Executive Secretary. The official copy of these Minutes is recorded in the Permanent Minutes, Volume XXXIX, Pages 1222 - 2175.

Upon motion of Regent Barshop, seconded by Regent Temple, the Minutes of the special meeting of the Board of Regents of The University of Texas System held on March 17, 1992, in Austin, Texas, were approved as distributed by the Executive Secretary. The official copy of these Minutes is recorded in the Permanent Minutes, Volume XXXIX, Pages 2176 - 2183.
U. T. Board of Regents - Regents' Rules and Regulations, Part One: Amendments to Chapter II, Section 12, Subsection 12.1, Subdivision 12.11 (Chief Administrative Officers of Component Institutions).

Chairman Beecherl called the Board's attention to the special item related to proposed amendments to the Regents' Rules and Regulations, Part One, Chapter II, Section 12, Subsection 12.1, Subdivision 12.11 regarding both the composition of and the process for appointments to the Advisory Committee for the Selection of a President. He noted that the proposed recommendations, which were finalized after the Material Supporting the Agenda was prepared and were before the Board on yellow paper, resulted from the Board's experience with The University of Texas at Arlington presidential search process and discussions among Regent Holmes, Regent Temple, and himself. Chairman Beecherl then called on Regent Holmes for his comments.

Regent Holmes expressed appreciation to a number of individuals from the Dallas area who were present at the meeting and who had discussed the composition of the Advisory Committee for the Selection of a President for U. T. Arlington with him. He noted that several individuals had expressed concern that no African-Americans were on the search committee, and he reassured those individuals that there was no deliberate intention to exclude African-Americans from the makeup of that committee. He pointed out that the total ethnic composition of the committee was not known until after it was formed. Regent Holmes indicated that he had conveyed this concern to Chairman Beecherl and had come up with an amendment to the Regents' Rules and Regulations which would prevent this from happening in the future. He noted that the proposed amendments would (1) add representation of two non-faculty employees to an advisory committee and at the option of the Chairman of the Board of Regents one external representative to provide a balance of input from major constituents in the advisory process and (2) include a U. T. Board of Regents' request that campus constituent groups consider diversity in selecting representatives and commits the Chairman to make his or her appointments after campus selections in order to further maximize the potential for diversity in advisory committee composition. The amendment would increase the size of the advisory committee from a maximum of 15 to a maximum of 18 representatives.

Following a detailed discussion and upon motion of Regent Holmes, seconded by Regents Rapoport and Temple, the Board amended the Regents' Rules and Regulations, Part One, Chapter II, Section 12, Subsection 12.1, Subdivision 12.11 regarding the selection of chief administrative officers of component institutions of The University of Texas System to read as set forth below:

Sec. 12. Chief Administrative Officers of Component Institutions.

12.1 The Board selects the chief administrative officer of each component institution.

12.11 When there is a vacancy or it is known that there is to be a vacancy in the office of a chief administrative officer of a component institution having faculty and students and the Board does not have candidate(s)
from recent searches at other component institutions, from within the U. T. System, and/or of national prominence from outside the U. T. System to advance for consideration, an Advisory Committee shall be established to recommend candidates to the Board. The Executive Vice Chancellor having responsibility for the operation of the institution where the vacancy has occurred or is to occur shall be chairman of the Advisory Committee. In circumstances where this Executive Vice Chancellor may be a candidate for the office, the chairman of the Advisory Committee shall be the Chancellor or the Chancellor's designee. In addition to the chairman, committee membership is as follows: The Chancellor; Two Chief Administrative Officers; (to be appointed by the Chairman of the Board from two of the component institutions) Two Regents; (to be appointed by the Chairman of the Board) Three Faculty members of the institution involved, at least two of whom shall have the rank of associate professor or higher; (method of selection to be determined by the General Faculty of the campus) One Dean; (for academic institutions to be selected by Dean's Council of the institution involved) (for health-related institutions to be the Dean of the Medical School involved or in the absence of that position a senior representative of the teaching program of the component selected by the chief administrative officer) Two Students from the institution involved; (method of selection to be determined by the Student Government of the campus involved or, if there be no Student Government, by the chief administrative officer of the institution; if the component does not have students, this category of representation shall be omitted)
President of the Ex-Students' Association of the campus involved; (if institution does not have an active alumni organization, then an alumnus of the component selected by the Chairman of the Board of Regents; if the component does not have degree granting authority, this category shall be omitted)

Two non-faculty employees of the institution involved, one in a classified position and one in an administrative position; (to be selected by the chief administrative officer or in accordance with institutional procedures approved by the chief administrative officer)

Not more than two representatives of the component's external constituency who have demonstrated a deep interest in and support of the institution, its programs and its role in community activities to be appointed by the Chairman of the Board of Regents. Where a component institution has a statewide mission; special area programmatic relationships or partnerships with junior or community colleges, private universities or public schools, business/corporate entities, community or public service agencies; or other unique constituencies, the Chairman of the Board of Regents may appoint an additional representative.

Campus constituent groups with responsibility for selection of Advisory Committee representatives are expected to consider diversity, particularly as it relates to minority and female representation. Unless there are unusual delays in faculty, staff or student representative selection which postpone initiation of the committee process, the Chairman of the Board will make his or her appointments to the Advisory Committee after campus selections in order to maximize the prospect that the total committee composition reflects diversity.

See Page 74 for further reference to these amendments.

REPORT AND RECOMMENDATIONS OF THE BUSINESS AFFAIRS AND AUDIT COMMITTEE (Pages 14 – 17).--Committee Chairman Loeffler reported that the Business Affairs and Audit Committee had met in open session to consider those matters on its agenda and to formulate recommendations for the U. T. Board of Regents. Unless otherwise indicated, the actions set forth in the Minute Orders which follow were recommended by the Business Affairs and Audit Committee and approved in open session and without objection by the U. T. Board of Regents:

1. U. T. System: Approval of Chancellor's Docket No. 63 (Catalog Change).--Upon recommendation of the Business Affairs and Audit Committee, the Board approved Chancellor's Docket No. 63 in the form distributed by the Executive Secretary. It is attached following Page 80 in the official copies of the Minutes and is made a part of the record of this meeting.

It was expressly authorized that any contracts or other documents or instruments approved therein had been or shall be executed by the appropriate officials of the respective institution involved.

It was ordered that any item included in the Docket that normally is published in the institutional catalog be reflected in the next appropriate catalog published by the respective institution.

2. U. T. Board of Regents - Regents' Rules and Regulations, Part Two: Amendments to Chapter III, Section 10, Subsection 10.1 (Travel Authorization, Reimbursement, and Institutional Regulations).--The Board amended the Regents' Rules and Regulations, Part Two, Chapter III, Section 10, Subsection 10.1 regarding travel authorization, reimbursement, and institutional regulations to read as set forth below:

10.12 In addition, all foreign travel (with the exception of travel to United States possessions, Mexico, and Canada) that will use funds appropriated by the Legislature (including local educational and general funds) must also be submitted to the Governor through the Executive Vice
10.13 Requests for authorization to travel by administrative officers and staff of System Administration shall be approved by the Chancellor, appropriate Executive Vice Chancellor, or appropriate Vice Chancellor or designee.

3. Permanent University Fund - University Lands: Approval to Reduce Rates for Geophysical Operations on Selected Permanent University Fund Lands.--It was reported that the Board for Lease of University Lands has announced its intention to hold a special "frontier area" oil and gas lease sale in October 1992 to include Permanent University Fund Lands located in Culberson, El Paso, Hudspeth, and Terrell Counties, Texas. There is no production on the approximately 600,000 acres of University Lands in these four counties. To encourage exploration and development in these counties, the Board for Lease of University Lands will offer to lease these lands for a ten-year term at a reduced royalty rate.

In order to encourage leasing activity on these lands, the Board, upon recommendation of the Business Affairs and Audit Committee, reduced the rates for geophysical operations on Permanent University Fund Lands located in Culberson, El Paso, Hudspeth, and Terrell Counties, Texas, to one-half of the current rate as established by the U. T. Board of Regents.

* Tenant pays electric bill
The number of units in the Border West and Warwick II apartments was reduced by one each due to the conversion of a one bedroom Border West unit to a storage area and the conversion of a one bedroom Warwick II unit to a laundry room.

As previously approved by the U. T. Board of Regents, the rates are maximum charges for the respective units with authorization for U. T. Arlington to make downward adjustments if the Arlington-area apartment rental rates do not support the full charge.

It was ordered that the next appropriate catalog published at U. T. Arlington be amended to conform to this action.

Priority uses for the additional funds are to provide financial support for students who could not otherwise meet new tuition costs and for faculty support or other academic program costs. Specific allocation of differential tuition funds is approved by the U. T. Board of Regents through either the annual operating budget or docketing procedures, as appropriate, in compliance with all applicable statutes and budget policies of the U. T. Board of Regents.

It was ordered that the next appropriate catalog published at U. T. Dallas be amended to conform to this action.

10. U. T. El Paso: Appointment of Dr. Clarence H. Cooper as Initial Holder of the Rho Sigma Tau-Robert L. Schumaker Endowed Professorship in Physics in the College of Science Effective Immediately. --Upon recommendation of the Academic Affairs Committee, the Board appointed Dr. Clarence H. Cooper, Associate Professor in the Department of Physics, as the initial holder of the Rho Sigma Tau-Robert L. Schumaker Endowed Professorship in Physics in the College of Science at The University of Texas at El Paso effective immediately.

11. U. T. El Paso: Authorization to Establish a Master of Fine Arts (MFA) Degree in Creative Writing and to Submit the Proposal to the Coordinating Board for Approval (Catalog Change).--Authorization was granted to establish a Master of Fine Arts (MFA) degree program in Creative Writing at The University of Texas at El Paso and to submit the proposal to the Texas Higher Education Coordinating Board for review and appropriate action.

The Master of Fine Arts degree in Creative Writing is a forty-eight hour program which emphasizes the performance aspect of the writing discipline. Students will be required to complete a book-length manuscript of publishable quality for which they will receive six hours credit towards the forty-eight hour requirement.
The MFA degree will have a unique component in that all students will be required to demonstrate a bilingual capability. The thesis may be written in either English or Spanish. Students will be encouraged to experiment with interweaving the two languages. Many of the graduates are expected to be teachers of creative writing and contemporary literature at the college and university level.

Establishment of the program will further the University's commitment to serve the bilingual/bicultural population of the El Paso region. It is estimated that six or seven students will enter the program each year and remain in the program for three years as full-time students or for five years as part-time students. Consequently, the average enrollment is projected to be between 18 and 25 students. The enrollment will be dependent upon the number of faculty committing to the intense mentoring relationship required by this program.

Only four new courses will be added to the University's course inventory to support this program. All remaining course work will be provided within the existing framework of the Master of Arts in Creative Writing. The primary added effort is the mentoring of students as they work on their theses. The University expects to meet the need for one additional faculty member through internal reallocation of current institutional faculty resources. Existing library holdings and facility resources are adequate for the program.

This MFA degree program is consistent with U. T. El Paso's approved Table of Programs and the Strategic Plan.

Upon Coordinating Board approval, the next appropriate catalog published at U. T. El Paso will be amended to reflect this action.

12. U. T. San Antonio: Approval to Increase the Compulsory Student Services Fee Effective with the Fall Semester 1992 (Catalog Change).--Pursuant to Senate Bill 1000, enacted by the 72nd Texas Legislature, Regular Session, which amended Section 54.503 of the Texas Education Code to authorize an increase in the maximum compulsory student services fee from $90 per semester or summer session to $150 per semester or summer session, the Board approved an increase in the Compulsory Student Services Fee at The University of Texas at San Antonio from $10.00 per semester credit hour with a maximum fee of $99.00 per semester or summer session to $11.00 per semester credit hour with a maximum fee of $108.00 per semester or summer session to be effective with the Fall Semester 1992.

The fee increase had been considered by the U. T. San Antonio Student Services Fee Advisory Committee in accordance with provisions of the Texas Education Code.

The increase will be used to offset the growing costs associated with providing a continuously expanding list of services to students enrolled at U. T. San Antonio and to continue efforts to upgrade the quality and availability of a broad range of existing services.

It was ordered that the next appropriate catalog published by U. T. San Antonio be amended to reflect this action.
In accordance therewith and upon recommendation of the Academic Affairs Committee, the Board approved the establishment of differential graduate tuition rates for the Colleges of Business, Fine Arts and Humanities, Sciences and Engineering, and Social and Behavioral Sciences at The University of Texas at San Antonio effective with the Fall Semester 1992 as set out below:

4. **U. T. Health Science Center - San Antonio (U. T. Allied Health Sciences School - San Antonio):** Establishment of Department of Respiratory Therapy; Approval to Offer Two Certificate Programs (a One-Year Program for Respiratory Therapy Technicians and a Two-Year General Program in Respiratory Therapy); and Authorization for Submission of the Proposal to the Coordinating Board for Approval (Catalog Change).--Upon recommendation of the Health Affairs Committee, the Board authorized establishment of a Department of Respiratory Therapy and granted approval to offer two certificate programs in the U. T. Allied Health Sciences School of The University of Texas Health Science Center at San Antonio. Students enrolled in the programs will have two career options: a one-year program for respiratory therapy technicians and a two-year general program in respiratory therapy to be administered by the Department of Respiratory Therapy.

This proposal will be submitted to the Texas Higher Education Coordinating Board for approval. If approved by the Coordinating Board and funded with legislative appropriations, implementation will be in the Fall of 1993.

Approximately 40% of the total estimated budget of $1.5 million for the first five years of operation has been committed by the local area hospitals which demonstrates their willingness to address the need for additional respiratory therapy personnel. Implementation costs include funding for five additional faculty positions totalling $1,077,213, two staff positions totalling $177,423, equipment costs of $95,000, and operational expenses projected at $137,000.

Upon Coordinating Board approval and contingent upon legislative appropriations, the next appropriate catalog published at the U. T. Health Science Center - San Antonio will be amended to reflect this action.
REPORT AND RECOMMENDATIONS OF THE FACILITIES PLANNING AND CONSTRUCTION COMMITTEE (Pages 42 - 46).--Committee Chairman Moncrief reported that the Facilities Planning and Construction Committee had met in open session to consider those matters on its agenda and to formulate recommendations for the U. T. Board of Regents. Unless otherwise indicated, all actions set forth in the Minute Orders which follow were recommended by the Facilities Planning and Construction Committee and approved in open session and without objection by the U. T. Board of Regents:

1. U. T. San Antonio - Academic Building One (Project No. 401-756) and Academic Building Two (Project No. 401-757): Approval to Redesignate the Two Projects as a Single Project to be Known as the Academic Building (Project No. 401-756) and Authorization for the Project Architect to Prepare Preliminary Plans.--The Facilities Planning and Construction Committee recommended and the Board:

   a. Redesignated Academic Building One and Academic Building Two at The University of Texas at San Antonio as a single project to be known as the Academic Building at an estimated total project cost of $28,475,000, all from Permanent University Fund Bond Proceeds

   b. Authorized the Project Architect to prepare preliminary plans for the Academic Building to be presented to the U. T. Board of Regents for consideration at a future meeting.

   It was noted that designing and constructing a single facility will permit a more efficient, flexible and adaptable structure, and probably yield more assignable square feet per dollar than if the two projects remained separate. This combined project would consist of approximately 200,000 gross square feet. The architectural firm will enter into a new contract for the consolidated project at a reduced fee resulting from the economy-of-scale.

   In response to an inquiry from Committee Chairman Moncrief, Mr. Ralph S. Kristoferson, Director of the Office of Facilities Planning and Construction, estimated that combining the two projects could result in an architectural and construction savings of as much as $1 million.

   Combining the buildings will have no impact on the FY 1991 Capital Improvement Plan or the FY 1992 Capital Budget other than placing the combined project under one project number. Projected cash flow for the combined project is equivalent to the projected cash flow for the two separate projects.

   Regent Beecherl reminded the Board that, as the Capital Improvement Plan was considered in June 1989, he and Regent Moncrief had been unsuccessful in getting the Board to substitute $4 million in locally contributed funds for an equal amount of Permanent University Fund Bond Proceeds in the funding of Academic Building One.
Mr. Beecherl reemphasized that he was not opposed to the building but felt that community support could be developed and encouraged President Kirkpatrick to work with Regents Barshop and Loeffler to continue to seek $5 million in private funds to finance this project.

2. **U. T. Southwestern Medical Center - Dallas - Aston Ambulatory Care Center - Eighth Floor Finish Out (Project No. 303-777):** Approval of Final Plans; Authorization to Accomplish the Work Through Award of a Negotiated Change Order with Lee Lewis Construction, Inc., Lubbock, Texas, General Contractor for Aston Ambulatory Care Center - Additions and Renovations (Project No. 303-692) or Authorization to Advertise for Bids and for the Executive Committee to Award Contracts; and Approval for Use of Revenue Financing System Parity Debt, Receipt of Certificate, and Finding of Fact with Regard to Financial Capacity.--Upon recommendation of the Health Affairs and Facilities Planning and Construction Committees, the Board:

   a. Approved the final plans and specifications for the Aston Ambulatory Care Center - Eighth Floor Finish Out at The University of Texas Southwestern Medical Center at Dallas at an estimated total project cost of $3,445,000

   b. Authorized the Office of Facilities Planning and Construction to negotiate a change order with Lee Lewis Construction, Inc., Lubbock, Texas, General Contractor for Aston Ambulatory Care Center - Additions and Renovations, and authorized the Executive Committee to award the change order within the authorized total project cost; and if the change order cannot be successfully negotiated

   c. Authorized the Office of Facilities Planning and Construction to advertise for bids and the Executive Committee to award all contracts associated with this project within the authorized total project cost.

Following a presentation by Mr. John A. Roan, Manager of Finance for The University of Texas System, related to the qualifications of this project for the U. T. System Revenue Financing System and in compliance with Section 5 of the Master Resolution Establishing The University of Texas System Revenue Financing System, approved by the U. T. Board of Regents in April 1990 and amended October 1990, and upon the delivery of the Certificate of an Authorized Representative set out on Page 45, the Board resolved that:

   a. Parity Debt shall be issued to pay the project's cost including any project costs paid prior to the issuance of such Parity Debt

   b. Sufficient funds will be available to meet the financial obligations of the U. T. System including sufficient Pledged Revenues as defined in the Master Resolution to satisfy the Annual Debt Service Requirements of the Financing System and to meet all financial obligations of the Board relating to the Financing System
c. U. T. Southwestern Medical Center - Dallas, which is a "Member" as such term is used in the Master Resolution, possesses the financial capacity to satisfy its Direct Obligation as defined in the Master Resolution relating to the issuance by the U. T. Board of Regents of tax-exempt Parity Debt in the amount of $3,445,000 for the construction of Aston Ambulatory Care Center - Eighth Floor Finish Out

d. This resolution satisfies the official intent requirement set forth in Section 1.103-18 of the Treasury Regulations.

The Aston Ambulatory Care Center - Eighth Floor Finish Out will complete approximately 39,000 gross square feet of shell space for programs in diagnosis and treatment of cancer, bone and joint diseases, prostatic diseases, and integrated neurology and neurosurgery.

This project, which is included in the FY 1991 Capital Improvement Plan and the FY 1992 Capital Budget, was approved by the Texas Higher Education Coordinating Board in October 1991.

In response to an inquiry by Regent Beecherl, Executive Vice Chancellor Burck assured the Board that the Offices of Business Affairs and Asset Management independently assess and jointly review those construction projects wherein "parity debt" is recommended to finance the cost of the project.
PARITY DEBT CERTIFICATE OF U. T. SYSTEM REPRESENTATIVE

I, the undersigned Acting Vice Chancellor for Asset Management of The University of Texas System, a U. T. System Representative under the Master Resolution Establishing The University of Texas System Revenue Financing System adopted by the Board on April 12, 1990 (the Master Resolution*), do hereby execute this certificate for the benefit of the Board of Regents pursuant to Section 5(a) (ii) of the Master Resolution in connection with the authorization by the Board to issue Parity Debt* pursuant to the Master Resolution to finance the cost of the Aston Ambulatory Care Center - Eighth Floor Finish Out at The University of Texas Southwestern Medical Center at Dallas, and do certify that to the best of my knowledge the Board of Regents is in compliance with all covenants contained in the Master Resolution, First Supplementary Resolution Establishing an Interim Financing Program, and the Second Supplemental Resolution, and is not in default of any of the terms, provisions and conditions in said Master Resolution, First Supplemental Resolution and Second Supplemental Resolution.

EXECUTED this ____9th____ day of ____April____, 1992

Acting Vice Chancellor for Asset Management

The Houston Main Building, which was constructed as a commercial office building in 1952, was acquired by the U. T. Board of Regents in 1974 for the use and benefit of The University of Texas M.D. Anderson Cancer Center. Since 1974, the facility has undergone a number of renovations and modifications, primarily of an architectural nature, with the addition of several computer networking and telecommunications systems, thereby stretching the demands on the utility systems beyond that for which they were designed. Therefore, many of these systems are inadequate particularly as they relate to air-conditioning and electrical service. Most of the systems currently in place were installed at the time the building was constructed forty years ago.

Included in the FY 1991 Capital Improvement Plan is a project for the Mechanical Upgrade at the Houston Main Building. The project was estimated to cost $14,000,000 in the FY 1992 Capital Budget, however, there is growing concern that this figure may be understated given the additional work that may be required to reorganize the interior spaces for long-term use. Before embarking on this major project, it would be prudent to conduct a project analysis to determine the scope of upgrading and enhancement that needs to occur to the mechanical/utility systems and to determine if the cost of doing that is justified in relation to extending the useful life of the building.

Therefore, the Board, upon recommendation of the Facilities Planning and Construction Committee:

a. Authorized a project analysis to determine the scope of upgrading and enhancement that needs to occur to the mechanical/utility systems for the Houston Main Building at the U. T. M.D. Anderson Cancer Center at an estimated cost of $250,000

b. Authorized U. T. M.D. Anderson Cancer Center Administration to appoint a consulting Architect/Engineer to prepare the project analysis, in consultation with the Office of Facilities Planning and Construction, for consideration at a future meeting of the U. T. Board of Regents

c. Appropriated $250,000 from U. T. M.D. Anderson Cancer Center Unappropriated Plant Fund Balances for fees and expenses through completion of the analysis.

This study will include a complete analysis of all architectural, structural, mechanical, electrical, plumbing, telecommunications, elevators, and security systems. It will also include an evaluation of the remaining problems with asbestos, an analysis of various code requirements, phasing options, time schedules, and cost estimates. The results of the study will be reported to the Board at a future meeting.
REPORT AND RECOMMENDATIONS OF THE ASSET MANAGEMENT COMMITTEE
(Pages 47 - 72).--Committee Chairman Cruikshank reported that the Asset Management Committee had met in open session to consider those matters on its agenda and to formulate recommenda-
tions for the U. T. Board of Regents. Unless otherwise indicated, all actions set forth in the Minute Orders which follow were recommended by the Asset Management Committee and approved in open session and without objection by the U. T. Board of Regents.

When her Will was probated, she had left an estate, consisting of about $12 million in cash and some $3 to $8 million (depending on market values) in real estate, for the use of U. T. Southwestern Medical Center - Dallas.

Chairman Beecherl indicated that in her Will which was written two years prior to her death Mrs. Gillespie directed that her estate should be given to the U. T. Board of Regents in that the size and strength of the U. T. System asset management operation would best serve her assets. Mr. Beecherl said that he had talked with the executor of the Will and confirmed that it was Mrs. Gillespie's clear intent that her bequest be directed toward her specified areas of medical research at the U. T. Southwestern Medical Center - Dallas.

Following this discussion, approval was given to accept a bequest of the residue of the Estate of Gertrude M. Gillespie, Dallas, Texas, comprised of cash, securities, and real estate, with an estimated initial value of approximately $20,000,000, and to establish the Gertrude M. Gillespie Fund for Biomedical Research at the U. T. Southwestern Medical Center - Dallas.

Southwestern Medical Center - Dallas on the causes, prevention and cure of illness, particularly those disorders that affect the mind, the circulatory system and the health of arteries, nutrition, the nerve cells themselves, and geriatric medicine, to the extent that it applies to clinical applications in the areas referenced previously.

OTHER MATTERS

U. T. Board of Regents: Presentations by Representatives of African-American Organizations in the Dallas/Fort Worth Area Related to the Selection of a President for The University of Texas at Arlington and Motion to Continue That Search Process Based on Enlarged Composition of Advisory Committee for the Selection of a President.--Chairman Beecherl reported that an item for consideration in Executive Session is the possible appointment of a President at The University of Texas at Arlington. He noted that, prior to that consideration and as a result of a meeting convened by Regent Holmes on March 24, 1992, in Dallas, Texas, he had agreed to five minute presentations by five African-American organizations with concerns about that search process. Chairman Beecherl then recognized Regent Holmes.

Regent Holmes indicated that several individuals and organizations from the Dallas/Fort Worth/Arlington area had expressed their concerns about the U. T. Arlington presidential search process since there was not an African-American on that search committee. He expressed gratitude to those individuals and organizations for their concerns and for the forum in which they chose to address those concerns. Regent Holmes indicated that he had arranged a meeting with Chairman Beecherl on March 24, 1992, to enable those individuals to express their concerns, and as a result of that meeting, they were granted permission to address the Board.

Regent Holmes then introduced the following speakers:

Dr. Darren Reagan, President of the Black State Employees Association of Texas

Mr. Lee Alcorn, President of the Grand Prairie Branch of the National Association for the Advancement of Colored People (NAACP)

Mr. Allen McGill, representing Mr. Marshall Hodge of the Southern Christian Leadership Conference

Ms. Froswa Booker, a student and President of the NAACP Chapter at U. T. Arlington

Mr. Royce West, an attorney, former President of the Student Congress and member of Alumni Association at U. T. Arlington, and Senator-Elect of District 23.

Dr. Reagan noted that representatives of the coalition of black state employees and other organizations from the Dallas community were present to express their concerns that future advisory committees for the selection of a president be selected to ensure that diversity was represented in the final membership. In future searches, he requested that the coalition of black state employees be a part of the search process and that African-American "headhunters" be hired to participate in the recruitment process. Dr. Reagan stated that continuing with the process of selecting a president for U. T. Arlington would be discriminatory since no African-Americans served on that search committee. He urged the Board to continue its search process and add an African-American to that committee.

Mr. Alcorn thanked the Board for the opportunity to express his views. Following the meeting with Chairman Beecherl and Regent Holmes in Dallas on March 24, 1992, Mr. Alcorn
said he felt there was going to be a good faith effort regarding a delay in the U. T. Arlington presidential search but that on the way to the meeting he had read in a newspaper that the Board had already selected a president for U. T. Arlington. At this point, Regent Holmes reminded Mr. Alcorn that no Board decision had been made related to the selection of a president for U. T. Arlington. Mr. Alcorn then acknowledged that the omission of African-Americans from this search process had been a source of frustration because it creates a broader problem of distrust for those who are trying to encourage educational institutions and other organizations to be more inclusive of diversity. He pointed out that, if the advisory committee is accepted as is, then the conclusion is that what has transpired in this process has been fair because it was conducted with established rules and procedures. Mr. Alcorn indicated there were flaws in the argument that it is too late in the process to consider other candidates and urged the Board to give specific reasons as to why it is too late. He noted that the only reason he had heard is that when you start the process anew you lose good candidates and that argument pales to insignificance when compared to what it would do to the community and public image if the selection process was not reopened. Mr. Alcorn concluded by stating that the Board's decision would define the future of U. T. Arlington and the institution should be one that everyone will embrace and contribute to its continued growth.

Mr. McGill stated that he had sat in previous Board meetings which lasted two hours and walked away with nothing. He noted that there had been discussions about employment, construction contracts, purchasing, and presidential searches but there had not been much cooperation related to these issues. He indicated that to arrange it so at least one African-American ends up on a search committee is insulting, and he, for one, would not accept that as a solution. He emphasized that there should be some reaching out to administrators and implored the Board to find a better way to improve its relationship with the African-American organizations who attend these meetings and speak with sincerity about important issues.

Ms. Booker thanked the Board for the opportunity to discuss the concerns of African-American students at U. T. Arlington and stated that the Board's decision regarding the selection of a president for U. T. Arlington affects the community, the state, and the education and destiny of current and future students. She noted that the new president must be one to understand and include African-Americans, and the new president and the Board need to realize that students of color are concerned about the lack of minority faculty on campus. She noted that currently there are four African-American and five Hispanic tenured faculty at U. T. Arlington. With the demographics changing so quickly in Texas, institutions of learning must prepare students for reality and currently that is not being done in numbers of faculty, course offerings, or in the active recruitment of African-American and Hispanic students. Citing her work with the University Crossroads Program of the Dallas Outreach Center as a teacher of multiculturalism for 150 Hispanic and African-American high school juniors and seniors, she expressed dismay that many of those students wanted to attend U. T. Arlington but other universities such as U. T. Austin, Texas A&M University, and SMU offered scholarships and financial assistance which U. T. Arlington could not equal. She noted that U. T. Arlington has 1,600 African-American students out of 24,000 plus students and the University has not made an effort to recruit more students and bring in community leaders as lecturers to encourage those students to obtain advanced degrees. Ms. Booker
emphasized that the new president must not take the role of follower but the role of trendsetter to provide an inclusive and sensitive environment for students who are different. He or she must be willing to work with students and initiate change before volatile, hostile events occur. The new president cannot place an issue such as pluralism on the back burner. In conclusion, Ms. Booker noted that the students at U. T. Arlington would like to see the institution become number one in its achievements but that will not be possible until the students' voices are heard.

Mr. West expressed appreciation to the Board for the opportunity to address the very significant issue of exclusion of African-Americans from the U. T. Arlington presidential search committee and acknowledged the presence of Mr. Anthony Lyons, a former student at U. T. Arlington who accompanied him to the meeting. Mr. West pointed out that U. T. Arlington is situated in a legislative minority district so this particular selection in the history of the institution is very significant yet African-Americans were excluded. He stated that the decade of the 90's should be the decade of inclusion not exclusion and the Board should send a message that the U. T. System is committed to inclusion. He urged the Board to reconsider the composition of the search committee and to extend the process for at least 90 days. He stated that some may feel the process was fair but it has the appearance of impropriety. Mr. West indicated that the institution would not be hurt if the search was extended another 90 days. He urged the Board to consider the concerns that had been expressed and asked Chairman Beecherl to direct the staff to analyze those concerns, put in place some action plan, and make that action plan available to him before the end of the year -- no later than the second Tuesday in January 1993.

Following these presentations, Regent Holmes stated that he shared the concerns of those individuals and again expressed appreciation for their presence at the meeting. He reaffirmed that the Board had not selected a president for U. T. Arlington but had met on April 8 to interview two finalist candidates for that position.

As a preface to his motion, Regent Holmes noted that his amendment to the Regents' Rules and Regulations, Part One, Chapter II, Section 12, Subsection 12.1, Subdivision 12.11 approved earlier in the meeting indicated that diversity would be considered in the composition of future search committees and that at least one African-American will probably serve on future search committees.

Regent Holmes then moved that, based upon the presentations made and his own feelings, the search for a president for U. T. Arlington be continued with an enlarged search committee as established in the Rules as amended earlier in the agenda and the length of that extended search be determined by the committee.

Chairman Beecherl called for a second on the motion but the motion failed due to a lack of a second.

Regent Temple stated that she served on the search committee for U. T. Arlington and the individuals here today had addressed issues larger than the selection process. She expressed appreciation for their comments on the various issues and noted that the search committee started its work over six months ago and it was a fairly diverse group consisting of two Hispanics and four women. Mrs. Temple emphasized that the committee was concerned with the issue of diversity, had minorities in the applicant pool, and used a democratic process. She indicated that it is important to
move forward and make a decision on the presidency of U. T. Arlington knowing that the new president will be committed to diversity and will include everyone who wants to be involved.

Vice-Chairman Ramirez pointed out that he shared some of the concerns that had been expressed but the problem was one of well qualified and experienced minority candidates, and he did not think a change in the process would have made the final decision any different. Dr. Ramirez stated that the search process used by Executive Vice Chancellor Duncan had no flaws in it. He emphasized that the appropriate advertisements were placed and there were many applicants but there simply were not enough well qualified African-Americans or Hispanics in the applicant pool from which to choose. Dr. Ramirez stated that he would not support prolonging the search process as he had determined that the process had been fair.

Regent Rapoport stated that he personally resented the character indictments that were made and referenced his 1942 involvement in the initiation of the NAACP at Paul Quinn College.

Vice-Chairman Cruikshank indicated that the record of the search process should be clarified. He noted that the discussion had centered around the search committee and the charge that no African-Americans were on that search committee. However, 87 representatives from the U. T. Arlington campus and community were invited to participate in the finalist interviews and of that 87 (35 females and 52 males), there were ten African-Americans and ten from the Hispanic community so the search process was not conducted in an ethnic vacuum.

In response to Vice-Chairman Cruikshank's comments, Mr. West emphasized that the process discussed today related to the composition of the search committee and that no African-Americans had input on the finalist candidates.

In response to Chairman Beecherl's comment that the African-Americans had input in the selection process, Mr. West noted that they had input after the final applicant pool was decided. He then inquired as to how many African-Americans were finalists and insisted that there is an African-American and Hispanic applicant pool from which to choose.

Regent Moncrief noted that the concerns related to the composition of the search committee were separate from the issue of who could apply for the position. In his opinion, the process was very open in that anyone who was interested could have applied.

In an effort to clarify his failed motion, Regent Holmes indicated that it was in response to the amendment to its Rules that the Board had passed earlier in the meeting that future search committees would be more inclusive. Regent Holmes stated that the reason for enlarging these advisory committees is to ensure that the committees are not exclusive of any group.

In conclusion, Chairman Beecherl indicated that this had been a very emotional process and the Board would need to be more cognizant of the need for diversity in the composition of future search committees.

See Page 3 related to amendment of the Regents' Rules and Regulations, Part One, Chapter II, Section 12, Subsection 12.1, Subdivision 12.11 regarding the composition of the Advisory Committee for the Selection of a President.
