ACADEMIC SALARIES

As of March 1, 1980, the academic salary rates have been increased by approximately \$900 for each member of U. T. Arlington's regular faculty. As a result of the inability to fill a number of positions, funds have accrued and are being distributed to the faculty to compensate in a small way for the unexpected rate of inflation.

Academic rates being for nine months, the net stipend would increase \$300 for each faculty member.

Sources of funds for these increases are as follows:

General Budget - Unallocated Faculty Salaries	\$168,323
General Budget - Special Item Unallocated Salaries	393
Current Restricted Funds - Grant Funds	<u>7,825</u>

II. INTRODUCTION

Pursuant to the authority granted by Chapter 51 Section 51.201 et seq of Title 3 of the Texas Educational Code, the Board of Regents of The University of Texas System has promulgated Parking and Traffic Regulations to regulate and control parking and traffic and the use of parking facilities, provide for the issuance of vehicle identification insignia (parking permit), and provide for jurisdiction over offenses. This booklet contains those regulations and procedures applicable to any who would walk or drive and park a motor vehicle or bicycle on the main campus of The University of Texas at Austin. These rules and regulations are supplementary to ordinances of the City of Austin and the statutes of the State of Texas which govern pedestrians and the use of motor vehicles and bicycles.

PARKING AND TRAFFIC REGULATIONS AND INFORMATION FOR 1980-81 (CONT'D)

The operation of a motor vehicle or bicycle on The University of Texas at Austin campus is a PRIVILEGE granted by the University and is not an inherent right of any faculty/staff member or student. All faculty, staff and students who have motor vehicles in their possession or control for use, operation or parking on the University campus must register said vehicles with the Parking and Traffic Office. Registration of a motor vehicle does not guarantee a parking place on campus. However, owners of registered vehicles may receive a reduced penalty for violations of certain University parking regulations (see Sections VII and VIII).

The University is not responsible for fire, theft, damage to, or loss of such vehicles parked or operated on the University campus. No bailment is created by granting of any parking or operating privileges regarding a vehicle on any property owned, leased or otherwise controlled by the University.

As used herein "Campus" refers to all University owned or controlled property whether or not within the confines of the control stations of the Main Campus. With respect to permits, these regulations apply only to the Main Campus, which is all University owned or controlled property within the boundaries shown on the map accompanying these regulations.

The origin, administration and enforcement of the regulations contained in this booklet are as follows:

Parking and Traffic Policy Committee: This committee is composed of faculty, staff and students and is responsible for formulating regulations or the control of parking and traffic upon the campus in the form of recommendations to the President of the University. Within the limitations imposed by restricted facilities and staff, it attempts to provide reasonable regulations for the control of the very high density of vehicular and pedestrian traffic on the campus of the University, toward the goal of optimum convenience and safety for all concerned. Suggestions for changes in these regulations, requests for individual consideration or any communications concerning these regulations should be directed to this Committee.

Parking and Traffic Appeals Panel: This panel is composed of faculty, staff and students and rules on appeals from citations issued by University police for violation of parking and traffic regulations. This panel also conducts hearings concerning impoundment or barring of readmission, withholding of grades and transcripts based on overdue charges. (See Section II).

Parking and Traffic Administration: This office is responsible for all administrative functions relating to the issuance of parking permits, the collection of charges for parking and traffic violations, the acceptance of appeals from such violations and the issuance of refunds upon withdrawal from the University. Questions relating to these functions should be directed to Parking and Traffic Administration, Service Building, Room 1.

University Police: The University Police has the responsibility and the legal authority for the enforcement of the parking and traffic regulations listed in this booklet. University police officers may issue TRAFFIC CITATIONS ENFORCEABLE IN COURT in the same way as those issued by the Texas Highway Patrol (see Section VIII). On special occasions and in emergencies, such parking limitations may be imposed by the Chief of the University Police as are required by the conditions which prevail. When conditions warrant such action, he may also waive parking limitations which are ordinarily imposed.

The University reserves the right to enforce parking and traffic regulations (1) through the issuance of citations and the collection of charges for offenses, (2) through the impoundment of vehicles interfering with the movement of vehicular or pedestrian traffic or involved in specified parking offenses, (3) by the suspension or revocation of permits for repeated offenses, (4) by requiring either the vehicle owner or the person who has signed a financial responsibility agreement for parking violations to appear in court or at a University hearing for non-payment of charges, (5) by barring readmission of any student for nonpayment of outstanding charges, (6) by withholding a student's grades and official transcript, (7) by denying parking permits to those with overdue charges, and (8) by such other methods as are commonly employed by City or State police in control of traffic.

Proof of the fact that any parking or traffic control device, sign, signal or marking was actually in place at any location on the campus of the University of Texas at Austin, Austin, Texas shall constitute prima facie evidence that the same is official and was installed under the authority of the law.

When any person is charged with having stopped, parked and left standing a motor vehicle on the campus of the University of Texas at Austin, Austin, Texas in violation of any provision of the Parking and Traffic Regulations of The University of Texas at Austin, proof that said vehicle was, at the date of the offense, bearing a valid University of Texas at Austin parking permit shall constitute prima facie evidence that said vehicle was then and there stopped, parked and left standing by said holder of the parking permit. However, if such vehicle does not bear a valid University of Texas at Austin parking permit, proof that said vehicle at the date of the offense alleged, was owned by the person charged with the offense, shall constitute prima facie evidence that said vehicle was then there stopped, parked and left standing by said owner.

The University assumes no responsibility for the care and/or protection of any vehicle or its contents at anytime it is operated or parked on the campus.

Any motor vehicle or bicycle parked on the University campus for a period of time in excess of 48 hours the University may deem, as authorized by law, the same to be abandoned and dispose of such vehicle as provided in Sections 10.4 and 10.6 of Chapter VII, Part Two of the Regents' Rules and Regulations.

V. PARKING REGULATIONS

The various classes of parking permits and their eligibility requirements, privileges and limitations are described in detail in the following section. Specific areas available for parking for each class of permit are indicated on a color-coded map. Metered spaces are open to all motor vehicles, except motor cycles, motor scooters, motor-assisted bicycles and bicycles at all times, except where their use is restricted by posted signs. Parking meters are in use from 8:00 a.m. to 5:00 p.m. Monday through Friday except on University holidays.

Parking is PROHIBITED AT ALL TIMES where indicated by signs, yellow-painted curbs or yellow-painted pavement markings. Parking adjacent to orange-painted curbs is restricted to AUTHORIZED VEHICLES ONLY from 7:30 a.m. to 5:00 p.m. weekdays. Parking at unpainted curbs is controlled by area parking signs. Posted parking signs must be honored at all times and take precedence over curb markings.

Privately owned motor homes, or trailers and other over-size vehicles whose individual or combined length is in excess of twenty feet shall not normally be operated or parked on the main campus.

Other regulations concerning parking and driving on the Main Campus are shown in Section VII. DRIVING AND PARKING OFFENSES.

The absence of sufficient authorized parking space on the University campus during a particular period of time will not be considered by the University as a valid justification for violation of parking and traffic regulations. The mere fact that citations are not issued for any offense does not indicate that these regulations have been modified to exclude that offense.

On University holidays, only those parking restrictions which regulate parking at all times will remain in effect.

VI. PARKING PERMITS

Faculty and Staff: A parking permit will be issued upon application to the Parking and Traffic Administration, located in the Service Building, Room 1. Permits will be issued to the vehicle for which the faculty or staff member, spouse or parent is the registered owner. If the registered owner is other than above then (1) The owner must be either related to or domiciled with the applicant and not otherwise eligible for any permit, and (2) The applicant must assume financial responsibility for any parking violations by filing a notarized Financial Responsibility Agreement with the Parking and Traffic Office.

NOTE: Vehicles owned by students may NOT normally be registered in the name of the faculty or staff member.

VIII. ENFORCEMENT

1. PARKING AND TRAFFIC CITATIONS: University Police are authorized to issue two types of citations for violation of campus parking and traffic regulations:
 - (1) University Citations - Those handled by the University of Texas Parking and Traffic Administration, subject to University charges and a right of appeal to the Parking and Traffic Appeals Panel.
 - (2) Court Appearance (CA) Citations - Those issued by the University Police but constituting a summons to appear in either municipal court or a justice court. Criminal penalties, as provided by law, may be imposed by either the municipal court or a justice court for violations of University parking and traffic regulations.

2. POLICY WITH RESPECT TO COURT APPEARANCE (CA) CITATIONS: The University reserves the right to issue a CA citation for any violation. It is the general policy of the University, however, to issue CA citations as follows:
 1. For serious violations
 2. For any violation when the individual's driving or parking privilege has been suspended (see paragraph E below)
 3. When an individual receives a University citation and all reasonable attempts at collection have failed; provided further that the registered owner or operator of the vehicle has no affiliation with the University, e.g., employee or student.

3. POLICY WITH RESPECT TO UNIVERSITY CITATIONS: University citations are issued for offenses described in Section VII. The administrative charges are as shown. If not paid within twelve calendar days after issuance of the citation, a \$2.00 late charge will be assessed if a current University parking permit is properly affixed to the cited vehicle; otherwise a \$5.00 late charge will be assessed.

Every person receiving a University citation shall remit the amount of the charge to the Parking and Traffic Office, Service Building, Room 1, within twelve calendar days after receipt of the citation, to avoid a late charge.

If a person desires to appeal, he/she shall comply with Paragraph D below within twelve calendar days after issuance of the citation.

SPECIAL PARAGRAPHS

PARKING AND TRAFFIC REGULATIONS AND INFORMATION FOR 1980-81 (CONT'D)

Unpaid charges for parking offenses are recorded either in the name of the person in whose name the vehicle is registered with some official state motor vehicle registration department or agency or in the name of the person who has registered the vehicle with the Parking and Traffic Office.

NOTE: If a student has the same family name and/or home address as the registered owner, then the unpaid charges will also be recorded in the student's name. Unpaid charges for other offenses (e.g. moving violations) are recorded in the name of the person driving said vehicle and in the name of the person who has registered it with the University Parking and Traffic Office and/or the registered owner.

When unpaid charges are recorded, the Parking and Traffic Administration office shall send a letter to the last known address of the person in whose name the charges are recorded.

Such letter shall state that unless (1) payment of all accumulated charges is made within 12 calendar days after the date of such letter or (2) a written request is made within 12 calendar days to appear before a University hearing concerning impoundment of the vehicle in case of faculty, staff, student or visitor, or for barring of readmission and/or withholding of grades and transcripts in case of students in accordance with the Regents' Rules and Regulations, Part One, Chapter VI, Section 9, the appropriate enforcement action will take place without further notice.

At such hearing, which will be held after a reasonable period of time, the person requesting the hearing will assume the burden of showing why the appropriate enforcement action should not take place.

If timely payment is not received and either the registered owner or the person who has registered the vehicle with the University has failed to appear at a University impoundment hearing, the vehicle may be impounded pending payment of all outstanding charges, without further notice. If timely payment is not received from a student and the student has failed to appear at a hearing, the student may be barred from readmission and his/her transcripts may be withheld, without further notice. Additionally, the student's vehicle may be subject to impoundment.

When Court Appearance citations are issued, the University citations will be cancelled. Failure to discharge CA citations may result in the issuance of a warrant for the arrest of such person.

PARKING AND TRAFFIC REGULATIONS AND INFORMATION FOR 1980-81 (CONT'D)

Persons with unpaid charges recorded in their names shall be ineligible to receive a parking permit while such charges remain unpaid. To obtain a permit, a person shall either pay these charges or request a University Hearing.

- D. APPEALS FROM UNIVERSITY CITATION(S): Any person who has received a University citation may file a request to have the citation reviewed by the University Parking and Traffic Appeals panel. Such request must be submitted in writing to the Parking and Traffic Office within 12 calendar days from the date of the citation.

The written request must set forth the grounds on which the person believes the citation was improper or inequitable. Such written statement shall be submitted in 5 copies and include the following:

- (1) citation number(s),
- (2) license number of vehicle,
- (3) local address and telephone number,
- (4) date of appeal,
- (5) signature, and
- (6) printed name of person appealing.

Each appeal will be considered by an appeals panel consisting of faculty, staff and student members.

The filing of an appeal constitutes certification by the individual who signs the same that the facts stated therein are true to the best of his/her belief. A person may file such supporting statements or materials as he/she deems appropriate.

If the person filing an appeal desires to appear in person before a panel he/she shall request such personal appearance in the written statement. Failure to request a personal appearance will result in the Parking and Traffic Appeals Panel determining the appeal on the basis of the written statement of the person, the supporting materials submitted by the person and information supplied by the traffic officer issuing the citation. If a personal appearance is requested, the person appealing shall be permitted to participate in the hearing and present such testimony and information as he/she deems appropriate. Such person shall also have the right to examine witnesses.

The panel may order the payment of the charge in whole or in part, or the cancellation of the citation(s), as deemed appropriate. A person filing an appeal will be notified in writing of the decision of the panel. The decision of the Appeals Panel shall be final. If an appeal is denied and the person fails to pay the charges within 12 calendar days after date of letter of notification, a \$5.00 late charge will be assessed.

PARKING AND TRAFFIC REGULATIONS AND INFORMATION FOR 1980-81 (CONT'D)

- E. SUSPENSION OF PRIVILEGE TO DRIVE AND PARK ON CAMPUS: Any person who within a period of twelve months commencing on September 1 of any year receives University citations with charges equal to or in excess of \$50.00 may lose his/her privilege of driving or parking a motor vehicle on the Main Campus for the remainder of the permit year and may subject their vehicle to possible impoundment for parking offenses during the period of suspension; upon payment of all charges the suspension will be vacated. In addition, a permit holder found to have more than one vehicle parked on campus at the same time (Section VI) shall lose their privilege to drive and park on campus for the remainder of the permit year.

The loss of the privilege of driving or parking a motor vehicle on campus shall commence twelve days after the Parking and Traffic Office mails a letter to the person, at the address of such person as shown in the records of that office, stating that such person's privilege of driving or parking a motor vehicle on campus has been suspended. Such letter shall state the date on which the suspension commences and the date on which the suspension ends and will give notification of possible impoundment for parking offenses committed during the period of suspension and additionally, shall state the reason for such suspension.

Any person who (a) forges or alters a permit; (b) uses a forged or altered permit; (c) transfers a permit, affixes a permit to a vehicle other than that for which it was issued, or fails to destroy a permit when required to do so by these regulations with the intention of providing any person with parking privileges he/she is not entitled to under these regulations; or (d) provides false information to obtain a parking permit with knowledge thereof; or (e) parks or drives a vehicle to which there has been affixed a permit which the registered owner, or regular driver, did not purchase; or (f) parks two vehicles on campus at the same time under the Alternate Permit Policy (Section VI), shall lose the privilege of driving or parking on the University campus for the remainder of the year. While a person's privilege of driving or parking a vehicle on campus is suspended, it is unlawful (1) for that person to drive or park any motor vehicle on the campus and (2) for any person to drive or park a vehicle registered in the name of such person on the campus.

If a person whose privilege of driving or parking a vehicle on campus has been suspended is charged with any violation while on campus, a CA citation will be issued for such violation. If a University citation is issued to such person, a CA citation for such offense will be served upon such person by a peace officer. Failure to discharge such CA citations will result in the issuance of a warrant for the arrest of such person. Upon the issuance of the CA citation, the University citation will be cancelled.

PARKING AND TRAFFIC REGULATIONS AND INFORMATION FOR 1980-81 (CONT'D)

If a person whose privilege of driving or parking on the campus has been suspended receives a University or CA citation by reason of having a vehicle on the campus during the period of his/her suspension, the period of suspension shall be extended so that it expires 12 months from the date the person receives such additional CA or University citation. In addition, the violation of the suspension may be reported to the Dean of Students for possible disciplinary action if the person is a student, or to the appropriate Dean, Director or Administrative Official, if the person is a faculty or staff member.

A person receiving notice that his privilege of driving or parking a vehicle on campus has been suspended may appeal the suspension within 12 calendar days on the grounds that the imposition of such suspension is improper or will create serious and substantial hardship. Such appeal shall be governed by the provision of Part D above. No appeal shall be considered if there are any unpaid citations outstanding at the time such appeal is filed, unless special arrangements are made with the Parking and Traffic Office.

DESTRUCTION OF PERMIT WHEN SUSPENDED: Every person receiving notice that his/her privilege of driving or parking on the campus has been suspended shall remove the parking permit(s) from every vehicle registered in his/her name and return remnants thereof to the Parking and Traffic Office within twelve calendar days after date of such notice. Failure to do so may be reported to the Dean of Students if the person is a student, or to the appropriate Dean, Director or Administrative Official, if the person is a faculty or staff member.

ELIGIBILITY TO OBTAIN NEW PERMIT DURING PERIOD OF SUSPENSION: A person whose privilege of driving or parking on the campus is suspended and not reinstated shall be ineligible to receive a parking permit of any type during the period of suspension.

IMPOUNDMENT: The term "impounding" includes removal or immobilization of the vehicle in question.

In addition to any charge that may be levied by the University for an offense, the owner of an impounded vehicle must also pay a commercial wrecker service fee and storage charges after the first 24 hours. When an impounding violation occurs and the owner or driver of the vehicle appears on the scene before the arrival of the wrecker, the vehicle will not be impounded. If the owner or driver appears on the scene after the arrival of the wrecker, and the wrecker driver has made a hook-up, the following will apply:

- (a) the vehicle will not be impounded;
- (b) and the owner or driver will be expected to pay the wrecker a fee, in lieu of towing.

If the vehicle is impounded the registered owner/permit holder will be so notified at his/her address.

Under terms of the Department of Defense Industrial Security Manual for Safeguarding Information, which is applicable to the above-named contracts, the Contractor (University) may not retain classified material beyond the time required by the "Records" clause of the contract. Under the "Records" clause, the University is required to maintain its fiscal contract records for a period of three years after final payment under the contract, after which the Government is precluded from further audit. The University's Office of Accounting retains fiscal records (none of which is classified) and advises there is no objection to the deletion of any classified portion from the contract. It is now necessary to delete those classified sections of the contract which primarily describe the technical work that was performed and any related classified material in the contract file. I recommend that the Board of Regents authorize the deletion of classified portions of the above thirteen contracts.

REASSIGNMENT OF DUTIESHOUSTON MEDICAL SCHOOL

1. George M. Stancel, Ph.D., Associate Professor, Department of Pharmacology, to work in the laboratory of Dr. David Prescott in the Department of Molecular, Cellular and Developmental Biology at the University of Colorado in Boulder, Colorado, during the period June 1, 1980 through May 31, 1981. It is believed that the time spent working in collaboration with Dr. Prescott will benefit not only Dr. Stancel's personal development, but the overall undergraduate and graduate teaching and research programs of our institution. Funds are available from a NIH Research Career Development Award for his salary during this reassignment.

2. Norman W. Weisbrodt, Ph.D., Associate Professor, Department of Physiology, to carry out research in the laboratories of Dr. Richard Murphy at the University of Virginia School of Medicine in Charlottesville, Virginia, during the period July 1, 1980 through May 30, 1981. It is believed that the time spent working in collaboration with Dr. Murphy will provide Dr. Weisbrodt with a unique opportunity to enter a new and exciting phase of his research career, and will greatly benefit the overall undergraduate and graduate teaching and research programs of our institution. Funds are available from a Research Career Development Award for his salary during this reassignment.

3. Benjamin Rigor, M.D., Professor, Department of Anesthesiology, to work in the Department of Anesthesiology at The University of Texas Medical Branch at Galveston, for the period April 1, 1980 through June 30, 1980. Dr. Rigor's temporary reassignment to faculty duty would assure that the clinical responsibilities of the Department of Anesthesiology, at the Galveston Medical Branch would not suffer because of the temporary reassignment of Dr. Charles R. Allen, Professor, Department of Anesthesiology, at the Galveston Medical Branch, to the Houston Health Science Center, Medical School. There will be no exchange of monies, merely a reassignment of duties between Dr. Allen and Dr. Rigor.
