THE UNIVERSITY OF TEXAS SYSTEM
 U. T. BOARD OF REGENTS' MEETING
 JUNE 11-12, 1987
 HOGG FOUNDATION FOR MENTAL HEALTH
 AND IMA HOGG FOUNDATION

Allocations were made from the Hogg Foundation for Mental Health and Ima Hogg Foundation to the following institutions and agencies:

1. Austin Groups for the Elderly (AGE)

Integration of Multiple Services for the Elderly - \$20,000

The Hogg Foundation is recommending for approval another two years of funding. The first half of the funds is for the period April 1, 1987 to March 31, 1988. The AGE project is an outstanding example of community involvement and interagency cooperation. The appointment of a full-time director with clerical support will enable AGE to increase its activities over and beyond those that were possible through the outstanding volunteer efforts of its board members. Mr. Jack Martin, Vice President of AGE, will be responsible for the administration of the grant.

2. Austin-Travis County Mental Health Mental Retardation Center

Community-Based Lodge Training - \$64,506

The Executive Committee of the Hogg Foundation recommends for approval the first of a five-year commitment totaling \$250,000 for the period June 1, 1987 to May 31, 1992. This grant will be a companion to the five-year grant received from the Robert Wood Johnson Foundation totaling \$2.5 million. The grant would enable the Center to add the Fairweather Lodge Program to the Robert Wood Johnson Foundation Project. The purpose of the program is to combine a concerted housing and vocational training effort for the chronically mentally ill in a single community-based setting. In the past, training for participants in the Fairweather Lodge Program has been divided between an institutional setting and a community setting. While many years of successful training have been given under the relationship, problems have occurred during clients' transition from the protected environment of the institution to the more independent community lodge. The Center is attempting to minimize these problems by locating the entire lodge training in the community. Mildred Vuris, Director of Mental Health Services, will be responsible for administration of the project.

3. Can-Do-It

Children's Psychiatric Day Treatment Program - \$50,000

The Ima Hogg Foundation recommends for approval a second-year grant for the period January 1, 1987 to December 31, 1987. During the past year 16 indigent children received day treatment services through this program. An important aspect of the program is its built-in linkages with the DePelchin Children's Center and the Houston Child Guidance Center, the agencies providing the actual treatment. Ms. Stephanie Smith, Executive Director, will be responsible for the administration of the grant.

HOGG FOUNDATION FOR MENTAL HEALTH

AND INA HOGG FOUNDATION
(Continued)

4. Teenage Parent Council of Austin, Inc.

"Stepping Stone" - Service for Pregnant Teens/Teenaged Parents - \$19,200

The Executive Committee of the Hogg Foundation recommends for approval a second-year grant for the period March 1, 1987 to February 29, 1988. The program is a three-year demonstration designed to demonstrate a cost-effective service delivery strategy that utilizes volunteers as case managers to meet the basic needs of pregnant and parenting public school students to enhance their chances of remaining in school. Volunteers will be screened, trained and matched with one or more youngsters for a one-year period. The teen/advocate pairs will be supported and monitored throughout the term of the project by the casework specialist and the project coordinator. Dr. Jacque Lytle, Executive Director, will be responsible for administration of the project.

5. U. T. Austin - Lyndon B. Johnson School of Public Affairs

Analysis of Hispanic Mental Health Hospitalization Rates - \$3,117

The Hogg Foundation is recommending for approval a supplemental grant for the period March 1, 1987 to July 14, 1987. These funds will be used to support extensive secondary data analyses on a large data set of 2.4 million hospital discharges generated by the state of California for the years 1983 to 1984. These data have special relevance for the formulation of mental health policy in Texas, since they provide for the first time health and mental health data on various population groups. Dr. David Warner will be responsible for administering the grant. (D67)

6. U. T. Health Science Center - Houston

Self-Help Group Resource Directory for Greater Houston Metropolitan Area - \$21,069

The Hogg Foundation recommends for approval a grant for the period April 1, 1987 to March 31, 1988. This grant will be used through the Employee Assistance Program to develop and distribute a directory with detailed information about the myriad self-help groups in Houston. Literally hundreds of self-help groups are active in Houston. While these groups can be a valuable resource for individuals with specific problems, access to these groups is hindered by the lack of organized and up-to-date information about them. The Employee Assistance Program plans to gather, verify, and maintain self-help group information. By distributing a self-help directory to key mental health providers, troubled individuals can receive additional assistance from self-help groups when appropriate. Dr. David Martin, Executive Director, will be responsible for the administration of the grant.

Proposed Allocation from PUF Bond Proceeds for Library Special Collection

Based upon a request dated January 28, 1987 from President Howe, an allocation of \$24,365 from the library special collection reserve is recommended. In June 1986, \$1 million was appropriated by the U. T. Board of Regents for special collections. This amount was placed in reserve. The reserve now stands at \$973,500.

The proposed allocation would be used by U. T. Health Science Center San Antonio to purchase a collection of rare books in the history of American medicine. This collection would greatly enhance the P. I. Nixon Medical Historical Library which currently contains approximately 5,000 volumes dating from the 15th to the early 20th century.

Approved for inclusion in the June 1987 U. T. System Docket.

ABSENCES FROM USUAL AND REGULAR DUTIES, INCLUDING TRAVEL AND REASSIGNMENT OF DUTIESHOUSTON MEDICAL SCHOOL

1. Lenard M. Lichtenberger, Ph.D., Associate Professor, Department of Physiology and Cell Biology, to travel to Utrecht, The Netherlands for the period beginning July 1, 1987 through June 30, 1988. The purpose of this reassignment is to allow Dr. Lichtenberger to study at the State University of Utrecht in the laboratory of Dr. Lambert M. G. van Golde, an internationally recognized authority in the field of phospholipid chemistry and metabolism. Dr. Lichtenberger's research has supported the concept that an absorbed layer of surface-active phospholipids may be the basis of the gastric mucosal barrier to luminal acid. His education and training have concentrated on gastrointestinal physiology, and it is important that he receive exposure to and training in the field of lipid chemistry. Dr. van Golde has published 120 original papers and edited two books related to this field. This reassignment will enable Dr. Lichtenberger to gain insight into future directions for research pursuits, which will not only benefit his own career but the Department and School as well. Dr. Lichtenberger will be paid one-half salary from State funds with the remaining half to be paid from Grant and Designated funds for the period of this reassignment. Transportation costs will be paid from Federal Grant funds.

2. Stanley G. Schultz, M.D., Professor and Chairman, Department of Physiology and Cell Biology, to be away from the University for a reassignment of duties for the period beginning June 15, 1987 through December 15, 1987. Dr. Schultz plans to study the application of computer sciences to biomedical research and education as a student at Rice University in Houston, Texas. He will join the laboratories of Dr. Roberto Coronado in the Department of Physiology and Molecular Biophysics at Baylor College of Medicine to learn the techniques of reconstituting ion channels in planar lipid bilayers and study their properties employing electrophysiological techniques. Dr. Schultz will also spend time in the laboratories of Dr. Arthur Brown, Chairman of that Department, studying methods that he has generated for the analysis of the kinetics of ion channels. This reassignment will provide Dr. Schultz with the opportunity to acquire new techniques and methods to further his research, which will benefit his career and enhance the research of the Department and the School. Dr. Schultz will continue to be paid from State, Federal Grant and Designated funds for the period of this reassignment. No travel will occur as a result of this reassignment.

3. Henry W. Strobel, Ph.D., Professor of Biochemistry and Molecular Biology, to travel to Beijing, People's Republic of China for the period beginning March 29, 1987 through May 1, 1987. The purpose of this reassignment is to allow Dr. Strobel to act as the mentor for the second group of medical students to participate in the fourth-year elective at the Capital Institute of Medicine in Beijing, People's Republic of China. Dr. Strobel will continue to receive his full salary from State and Grant funds for the period of this reassignment. Transportation costs will be paid from Designated funds.
