

Lashelle Inman, MBA

Lashelle Inman, MBA, is Program Manager for the Texas Child Mental Health Care Consortium. Prior to coming to UT System in 2016, she was an Information Technology Program Manager at Caesars Entertainment Corporation in Las Vegas, Nevada, where she was responsible for overseeing the implementation of a multi-million-dollar portfolio of projects that supported the program roadmaps she developed in conjunction with 13 functional areas within the company. She received her MBA from Schiller International University and her BA in Political Science from Texas A&M University. From 2004-2011 she worked in England as a Business Analyst and Program Manager, working with departments within two local government Councils to shift services online as a part of a national e-Government initiative. This included identifying opportunities to leverage technology to better integrate and improve service lines, developing strategic plans, and tracking benefits over time to ensure return on investment.
