ODOP Mission Statement

- To oversee and guide the delivery of police services
- To train, develop and mentor
- To set the national standard for law enforcement at America’s educational institutions
- To always respect the first principle purpose for a university: to educate our young people in a safe and secure environment
- To identify emerging trends in public safety
- To operate in every location as a full service law enforcement agency
- To rely on the standards of national and state law enforcement accreditation, model policies and evidence-based best practices
ODOP Mission Statement

• To set the expectation that our statutory obligations as peace officers shall be fulfilled and executed
• To support the institutions’ law enforcement agencies with rapidly deployable special assets, advisors and resources
• To continually advance the science and delivery of police training and education
• To provide advice, counsel and guidance to institution police chiefs and their staffs
ODOP Mission Statement

• To foster the fullest cooperation, communication and coordination between the Director of Police and the institution chiefs
• To continually improve the quality of candidates chosen for selection as police officers
Created by the State of Texas Legislature in the wake of the active shooter event of August 1, 1966, The University of Texas System Police charter was to ‘...employ and commission peace officers for the purpose of protecting life and property...’ at the campuses of The University of Texas System or wherever else U. T. interests or assets were represented or present. This decision was followed by the creation of the Office of the Director of Police and The University of Texas System Police Academy in 1968 and thus began the 50-year legacy of which we are a part today.
ODOP History

- 99 basic peace officer training classes have been successfully conducted with over 2,000 graduates
- 617 sworn police officers and 922 civilian staff members currently authorized
