

**Average Time to Degree
for Doctoral Degrees Awarded in 2009-10**
UT System Academic Institutions

Office of Strategic Initiatives
7/22/2011

Average Time to Degree (in Years) for Doctoral Degrees Awarded in 2009-10

Notes:

Enrolled Time to Degree Definition: the number of semesters **enrolled** (at same institution) **as a PhD student** divided by three.

Elapsed Time to Degree Definition: the first semester/year **enrolled as a PhD student** until the graduation semester/year (at same institution).

* In compliance with the Family Education Rights and Privacy Act (FERPA) and Texas Higher Education Coordinating Board (THECB) guidelines, data cells with populations under five are not presented individually. Instead, for degree programs containing less than five graduates, two or more similar programs were combined and weighted averages displayed for mean time to degree whenever possible.

** These degree programs were unable to be combined with other programs. Mean time to degree are not presented for these programs because of the small number of graduates. Only number of graduates has been reported.

There may be inconsistencies with mean time to degree calculations because of variability in social security numbers (SSNs) for UTA, UT Austin, UTSA, and UTPA.

**Average Time to Degree (in Years) for Doctoral Degrees
Awarded in 2009-10**

* In compliance with FERPA and THECB guidelines, data cells with populations under five are not presented individually. Instead, two or more similar programs were combined and weighted averages displayed for mean time to degree whenever possible.

** These degree programs were unable to be combined with other programs. Only number of graduates has been reported.
